An exchange says: "An Oklahoma
woman fell over her husband while
he was kneeling in prayer in a dark-
ened bedroom and broke her neck."
Why cannot Oklahoma people obey
the Supreme command, "When thou
prayerest, enter into the closet, and
when thou hast shut thy door, pray?"
Who knows, maybe his prayer was
being answered.

A Chicago judge has refused to
grant a divorce to a man who wanted
to get married a third time. His ac-

right to make a fool of himself as of-
ten as he wants to.

The Morning Star of Huntington
has suspended after an experience of
fifty-seven days. It is the second
suspension paper that has found in the
past three years that Huntington
is no place for such a paper. If there
had been a long time since the Star
would have died it, but there wasn't.

Announcement was made this morn-

from the trip recently completed by
two men, who crossed the distance

thirteen days and a quarter. The last
portion of the trip, made by the auto
and two years ago, was thirty-three
days, and the last record before that

moved by the action of a lady sleep-

years in a narrow berth, and finally
bursting out in a fire. When the
store was first burned and the fire
spread to the store, the sleeping
lady broke down a partition, and started
the sleeping quarters and around other
quarters of the store, who were then
wakened to escape with their lives.
