MAHLON D. MANSON, of Montgomery.
TREASURER OF STATE.
WILLIAM FLEMING, of Allen.
SHERIFF GENERAL.
THOMAS W. WOOLEN, of Johnson.
SUPERINTENDENT OF PUBLIC INSTRUCTION.

The Indianapolis Journal previous to February 10th, denounced in the harshest terms all who doubted the ability of the government to resume in 1879. The editor took a trip to Washington, and now informs his readers it will not be possible to resume specie payments at the time designated.

Mr. Lamar, of Mississippi, was requested and instructed by the people of his State to vote for the silver bill before the Senate, but he declared that duty, as he regarded the matter, compelled him to vote against it. Mr. Lamar should consider that he is placed in the Senate to represent the people of Mississippi, and not Mr. Lamar.

County Convention.

All persons, irrespective of past party affiliations, who are in favor of repeal of the resumption law; in favor of the remonetization of silver; in favor of the retirement of the national currency and substitution thereof of legal tender treasury notes; in favor of an economical administration of governmental affairs, and who are opposed to the extravagant and useless expenditure of money as has been and is being done by the radical republican party in the management of the government are respectfully and cordially invited to be present and unite in the organization of a County Central Committee for Jasper county, and participate in such other business as may come before the Convention, to be held at the Court House, in Rensselaer, on SATURDAY, MARCH 23, 1878.

C. A. EDMONDS, Chairman.
IRA W. YEOMAN, Secretary.

THE PLATFORM.

The democracy of the state of Indiana assembled in delegate convention declare:
That national bank notes shall be retired, an in lieu thereof, there shall be issued by the government an equal amount of treasury notes with full legal tender quality.
That we are in favor of making the United States notes, commonly called greenbacks, a full legal tender in payment of all debts, public and private, except such obligations only as are by the terms of the original contracts under which they were issued, express y y e in coin.

That the right to issue paper money as well as coin is the exclusive prerogative of the government, and such money should be issued in such amounts as the sound business interests of the country may from time to time require.

We are in favor of such legislation by congress as will authorize the taxation by the states of the United States notes in common with all other money.
That we deem it unwise and inexpedient to enact any further legislation for the funding of the national debt abroad, through the means of home syndicates, or other methods; and we believe the true policy of the government and the best interests of the people would be subserved by legislating so as to distribute said debt among our people at home, affording them the most favorable and practical opportunities for the investment of their savings in the funded debt of the United States.

That we are in favor of such legislation which shall fix the legal rate of interest at not exceeding six per centum per annum.
We demand the restoration of the silver dollar, of 412 grains, to the coin in the treasury, and with full legal tender quality in the payment of all debts, both public and private; and that the coinage thereof shall be unlimited, and up in the same terms and conditions as provided for the coinage of gold.

That we are in favor of the immediate and unconditional repeal of the resumption act.
We are in favor of the most rigid economy in public expenditures; and we declare that the fees and salaries of all public officers should be reduced.

That we are in favor of the repeal of the bankrupt act.
That we are in favor of the repeal of the laws which have created the recent violent collision between labor and capital, and to prevent the recurrence thereof and to protect the future public order and security we believe that the wages of corporations engaged in the business of mining, manufacturing and transportation should be a first lien upon the property, receipts and earnings of said corporations, and that such lien should be declared, defined and enforced by appropriate legislation.

That we favor the passage of a law for the ventilation of coal mines—such law would be just to the miner and owner.
The democratic party is the friend of the common school system, and will in every legitimate way labor for its success, and will oppose any attempt to divert any portion of the common school fund to any sectarian purpose.

That the last appropriation of the state for legislative purposes was grossly unjust and dishonorable, and we demand that the next legislature, in apportioning the state for legislative purposes, as will be their imperative duty, shall have regard alone to population and contiguity of territory.
That the jurisdiction claimed and exercised by the circuit courts of the United States over questions of corporate and individual rights arising under the laws of the state tends to oppress and burden its citizens to such an extent as to amount to a practical denial of justice in many cases; and we consider the legislation which has created such jurisdiction as unwise and harmful to the true interests of the people. And we demand such legislation as will restrict and limit the jurisdiction of such courts to such matters as are clearly contemplated by the constitution and expressed in the judiciary act of 1789.

We are opposed to class legislation, and protest against the grant of subsidies by the federal government, either in land, money or by the privilege of the public credit, to any individual or corporation.
That we abhor and hold up to public denunciation the leaders in the republican party who secretly connive, and with barefaced effrontery, carried out the scheme by and through venal returning boards, whereby Samuel J. Tilden and Thomas A. Hendricks, the people's choice for president and vice president, were wrongfully kept out of the positions to which a free people had called them. We hold it up as the monster crime of the age, a crime against free government a crime against the elective franchise, and a crime which should be condoned when the malefactors who seated a fraud in the presidential chair are driven from power and consigned to everlasting infamy by the people whom they have outraged. And we demand the act of the president of the United States in appointing to high and lucrative positions the corrupt members of the returning boards, and condemn the acts of federal officers in attempting to interfere with the rights and powers of the state courts in the prosecution of these criminals.
That our senators and representatives in congress be and are hereby requested to secure the passage of a law giving to the soldiers and sailors a pension similar to that now given to the soldiers of the war of 1812.

A resolution indorsing the course of Senators Voorhees and McDonald was unanimously adopted. Also a vote of thanks to Governor Hendricks was offered by J. S. Williams for the manner in which he discharged the duties of the chair.

Governor Hendricks said in response:
"Before the adjournment of the convention allow me to add one or two words to what I have already said. Of course I thank you for the resolution that you have just adopted."

I appreciate the compliment in this expression of your confidence. The work that you have done here to-day now goes out before the people of Indiana. It is an important thing that Indiana this year shall demonstrate to the people of the United States that she is a true and loyal citizen of the Democratic organization.
I ask that you return to your homes and make answer to the people who sent you here to do this important work of the day, and let them know that the work is for them, for you, and for us all to indorse in October, and let the triumph be such that it shall be understood everywhere that republicanism, as organized in Indiana, can not govern this state any more.

The convention adjourned with cheers for the ticket.
