The appointment of Mosby, the rebel guerrilla chief, is a beautiful illustration of the purity of Hayes Civil Service Reform.

The election in Maine has given the radical element hereabouts the shakes. The council, however, looks as though it had given him the yellow fever.

The Valparaiso Violets seems to think that the radical campaign supplements, gotten up and paid for by the bondholders, and flooded over the country with the view to deceive and mislead the people in the interest of capital should be effective all the same. We think not, and trust the people will have due care not to walk into the parlor of these hoodlums.

At last, having tripped his regular and bona fide circulation by the addition of a free list, paid for from the fund raised by contributions of bond and officeholders, we have succeeded in having the consul make affidavit to it. Before many weeks pass by, however, we will require him to make another, or refuse to make one. It requires a vast amount of cheek to do as the consul has done in this matter, but then he has the cheek.

The consul says, in the Union of last week, "They (the republicans) have a clear majority of four hundred" in Jasper county, and at the same time one of his most intimate hangers on is endeavoring to procure contracts which will afford him an opportunity to colonize voters in this county. We trust the people will guard with jealous care their interests and the rights belonging to them, and thwart the infamous purposes of these men.

Mr. Calkins, in his harangue in the interest of Wall street, put forth the proposition that the government had limited the issue of greenbacks to \$400,000,000, and therefore could not have designed paying \$900,000,000 in that currency—that it was absurd to suppose they could pay \$900,000,000 with \$400,000,000 in gold. All present would be sharp argument with the reply that it would be more absurd, accepting Calkins' line of reasoning, to suppose that the government could pay \$900,000,000 of bonds with \$150,000,000 in gold. All present saw the point made, and through the manifestation of loud and prolonged applause, the Major, and the Major's cons' sat there the very pictures of discomfited despair.

Gen. Shields, the hero of two wars, in whom the radicals took such an interest last winter that they sought to thrust upon him the office of doorkeeper for the national House of Representatives, in a speech at Indianapolis, last Monday evening, thus alluded to the matter:

"At the last session of congress my name was presented to the house of representatives for the position of doorkeeper. I knew nothing of the matter until it was all over, and hence it was done without my consent. It is a position that I would not accept if it had been tendered me unanimously. [Applause.] I think that General Butler was sincere in his efforts in my behalf, but I told those men that many of them were officers—some generals who served under me in the war, and I could not accept a position under them now, to hold the door for them. Many of my warmest friends opposed me, and I honor them for opposing my election to an office that I could not fill, it being contrary to my mode and habits of life. I am a poor man standing with a record unblemished. My friends desired to put me on the retired list, but when they saw that I came before the senate my name was coupled with Grant's, and thus it failed to pass."

And of Mr. Voorhees the gallant old soldier bore the following testimony:

"I have a special interest in the coming contest, for your next legislature will be called upon to elect a United States senator—Senator Voorhees, I know—and when I was a United States senator, and sat among such men as Clay, Webster, Calhoun, Benton and Douglas, I can truthfully say that I never knew a man who served so short a time and took so prominent part in the affairs of the nation as Mr. Voorhees has done."

Hon. John Lee is appointed to address the people of Remington, Wednesday evening of next week. We trust the citizens of Carpenter township will turn out and hear him, as he is a convincing and attractive speaker.

Judge Gooding was unable to fill his appointment at this place last Wednesday evening. Hon. John Lee entertained a large audience for nearly two hours in a straightforward exposition of the situation of affairs in the land. He was frequently applauded by his large audience. We are glad to note that his appointments extend to the Saturday before the election. He is doing effective work.

The National Bankers in New York held a meeting one day last week and made another large contribution to be used in Indiana to defeat the Democratic party and Mr. Voorhees. A number of radical speakers, paid out of this fund, are announced in yesterday's Union, as about to engage in missionary labors in this county—Money is powerful, but if the people be true to themselves and their interests, their ballots will be more potent.

The consul claims that "the editions of the Union each week since including the date of July 25th, 1878, have been double the size of the editions of the said Democratic Sentinel for each week during that time." Oh, well, we admit that. The corruption fund, provided from the contributions of the national banks and the bond and officeholders will explain the sudden increase in the circulation of the Union, "since and including the date of July 25th, 1878."

"The truth is that at no time has the Democratic Sentinel ever had the circulation, either home or abroad, that the Union has enjoyed."

Let us see. Up to the date of "July 25th, 1878," the packages of the Union, received at the Express office at this place each week, from the time of its reduced size, weighed at most 35 lbs., and then had more than a sufficiency of copies. On the other hand the package of the Democratic Sentinel weighed 45 lbs., and would scarcely fill the bill. An examination into, and ascertainment of the correctness of this statement will settle the matter. In conclusion we suggest to the consul that while he is so "flush" he should use his resources. After the election he will again be making the ground rounds offering his sheet—"three months for only a quarter!"

For the Sentinel.

"Hon. John Lee of Crawfordsville, delivered a political speech in the court house last evening to a fair audience. Judge D. S. Gooding had been billed but did not come. Mr. Dougherty and Mr. McEwen appeared to be highly delighted with Mr. Lee's effort."

Yes, Mr. Lee made a very able argument which no doubt pleased not only the above named gentlemen, but all the Democrats and Independents present, and a large share of the Republicans. But he did not please Messrs. Geo. Kannal, A. Thompson, M. L. Spitzer, and other money-lenders. Neither did he please a long shanked lightning-rod who has been imported from the wilds of Posey county by our Republican Trustees and foisted upon the community to teach our children science and good manners. This "professor" made himself conspicuous by his loud talking, whispering and giggling.

How do the patrons of our school like such examples? ARGUS.

## The National Debt—Alarming Statement.

Philadelphia Critic.

The most alarming sign of the times is the steady and rapid increase of our national debt and in interest account, thought a people at large have not taken note of the fact. Debated by the monthly debt, state, and the annual demand upon our debt and the annual demand upon us for interest have both been materially decreased during the past year. But what is the truth touching this question? Our space is too limited to admit a tabular statement for the whole year, but we present a condensed statement of the last four months.

On the 31st of March last the principal of the coin debt was \$1,721,735,850. During the month of April the interest on the principal of that debt was \$13,998,800; during the month of May the increase was \$33,000,000; during June it was \$12,000,000; during July it was \$14,942,250, and the total on the 31st of July was \$1,795,677,900. The interest on the coin debt for the month of July was \$14,942,250, and the total of the debt in four months of 1878, \$1,945,600.

The total annual interest on the 31st of March was \$1,074,544. During April the increase was \$600,928; during May it was \$1,415,000; in June \$505,000, in July \$526,535, making an increase of coin interest in four months of \$2,447,453, and total annual interest on the 31st of July was \$3,521,997.

During these four months the principal of the debt has increased by 4.5 per cent. bonds. The 6 per cents, with the rapidity with which our national debt and its burdens upon us and property is increasing, does not awaken the anxiety of business men, it will be because they are impervious to reason or have surrendered themselves to the cruel fate provided for them by Secretary Sherman and the plutocracy he serves.

Maj. Calkins took great credit to himself for having voted to remove silver and stop further contraction of the greenback currency. This is a virtual condemnation of republicanism, and shows that the Democratic party is right. The demonization of silver and the contraction of the currency were republican measures, and all that Maj. Calkins did was to help the Democrats undo the mischief that his own party had done. No thanks!—South Bend Herald.

Maj. Calkins opened his speech in South Bend by a false statement when

he declared that the electoral bill was gotten up by a democrat and forced through congress against the vote of the republican members. Senator Edmunds, of Vermont, was the author of the electoral bill and Calkins knew it, and he knew that Edmunds was a leading republican member of the senate. Calkins knew, too, that the republicans held a majority in the senate where the bill originated and had the party been opposed to it, its defeat was certain. Calkins knew, too, that a majority of the republicans of the house—nearly all of them—voted for the bill, and yet with this knowledge he stated in the opening of his speech that the electoral bill was gotten up and forced through congress by democrats. Oh, shameful where is thy blush? He may express his contempt for "fraud shriekers," but what measure of contempt is due a man who comes before an audience and, for the sake of a few votes, will falsify the public record about a question of this nature.

## I. D. & C. Railway.

The I. D. & C. Railway took place at Monticello last Wednesday, and resulted in the choice of the following gentlemen to serve the Company for the ensuing year:

John Lee, Crawfordsville.  
Mathias Lorschneider, Lowell.  
Moore Conger, Lowell.  
Alf. McCoy, Rensselaer.  
Alf. Thompson, Rensselaer.  
J. C. Wilson, Monticello.  
Charles Angell, Ellettsburg.  
John T. Richardson, Delphi.  
Vine H. H., "  
E. H. Kinehart, "  
A. H. H., "  
Jackson J. Ramey, Rossville.  
John Burner, Frankfort.

It will be observed by those who were familiar with the names of the old Board, that some changes have been made which will be for the benefit of the enterprise, and that places not heretofore represented on the Board, would have a voice in its management.

Owing to the absence of some of the new Directors, only a partial organization was accomplished. Dr. Bushnell was re-elected Secretary, and the election of President was postponed until the first of October. The gentlemen who attended from this place took their wives and lady friends with them, most of whom accepted an invitation from the Contractors, Messrs. Yeoman, Hegler & Co., to ride over the road to Rensselaer, where they were met by Messrs. McCoy, Thompson, their wives and many other citizens, whose names are not now remembered, with carriages, and driven rapidly over the town that they might take in the beauties of the capital of Jasper county.

It was the intention that the party should lunch before returning, but owing to the delay in starting from Monticello, there was not sufficient time, and the good things prepared by the ladies of Rensselaer went untouched. Mrs. Col. Yeoman was untiring in her efforts to make the trip agreeable. All seemed to enjoy the trip hugely as well as the good dinner at the Hotel de McQuigun on the arrival of the train at Monticello. It will not be long to wait until the whistle of the locomotive will be heard at Delphi on the new road.

Hands are now grading this side of the Tippecanoe river, and others dressing up the grade, making cattle roads, and as far this way as Mr. Patton's farm, more than one-half the ties are cut for this division.

Delphi Times.

## Railroad Items.

A force of men are engaged in grading this side of the Tippecanoe river, and also at Patton's farm.

More than half the ties for this division are ready for laying.

A force of men will be placed on this end of the road in a few days.

The offices of the road will shortly be moved to this city.

As soon as this division is completed, work will be begun on the shops for this city. The shops, when completed, will be located on the road to Chicago, will employ about three hundred men.

## The New Mail Law.

There is a ruling of the Postoffice Department which will come into force on the first of October which is not generally known but which is very interesting. After that date all letters, except those registered at the same rate as that charged for registering letters, viz: ten cents.

Third class matter comprises all articles of wearing apparel, &c., and the rate of postage on such matter is one cent per pound, in packages whose weight is limited to four pounds. You can order a dozen shirts in San Francisco, and have them registered, thus insuring against loss, and the total cost for transportation will not exceed from 25 to 35 cents. There is another grade of third-class matter, such as bonds, pamphlets, etc., for which the charge is one cent for every two ounces. This also can be registered. The public will find this new system to be wonderfully convenient, and will make use of the mails in sending thousands of packages which are now sent by express at high prices by the various express companies. The letter will undoubtedly object to this interference with their business, but the only result will be an immense increase in the bulk of the mails and the employment of additional forces to carry them to their destination. You can send just as many packages as you please and register either of them, the only restriction being that each must weigh but four pounds.

A stovepipe elbow, whereof one end had run over itself with a dry, would not excite the admiration of any man, yet it is the faithful copy of the frame of the prevailing style of lovely woman's fascinating summer hat.
