

FRIDAY, NOVEMBER 1, 1878.

Hon. J. H. Willard, representative elect from Floyd county, and a son of the late Gov. Willard, is receiving a very general endorsement for the speakership of the next House. He is said to be for Voorhees, for the U. S. Senate, first, last and all the time. In that event we are for Willard.

An editor's business, says Josh Billings, is to write editorials, grind out poetry, sort manuscripts, keep a mighty big waste basket, steal matter, fite other people's battles, take white beans and apple sauce for pay when he can get it, work nineteen hours out of twenty fore, and be damned by everybody.

Samuel S. Skinner, the republican member of the Legislature from Porter county, openly avows that he will combine with the anti-Voorhees Democrats to defeat him. If there are any of that class of Democrats elected to the legislature they should understand such a combination would be their political death.

"Rebel war claims to the extent of three hundred and fifty million dollars have already been presented, and 'still there's more to follow.' Democratic supremacy means the payment of every dollar of these confederate claims."—Monticello Herald.

Well, well, Billy, the election is over in this State, and your object in the publication of such stuff as the above is hardly perceptible. The people will this winter realize the inexcusable falsity of your statement.

"P. S. for a fact. The Union has more than double the circulation of any other paper in Jasper county."—Union.

A law is before the California legislature, declaring an exaggerated statement of circulation of a newspaper, to be a misdemeanor, punishable by fine and imprisonment.—Ex.

Such a law enforced in this state would play havoc with a paper we know of. LaPorte Chronicle.

Well, now, Mr. Chronicle, just hold on. If we do not consider the Union's claim worthy of serious attention, you are not called upon to meddle.

The Union volunteers the information that the Democracy of Benton county designs to play the devil with their brethren of this county, on the first favorable opportunity that offers, on account of what the Consul pleases to term "treachery." If the consul would like to hear some reference to "treachery," etc., he has only to drop in upon his partisan friends in White county. They entertain a kind of a notion that the astute members of the several committees, County, Congressional and State, and Consul to Turk Island, as a conductor of a district political canvass, is a most disastrous failure.

"Everything is peaceful and quiet in Mississippi. Political matters are as silent as the grave. But we do not hear anything about the Republican party down there, notwithstanding two thirds of the voters are Republicans. The peace-twig and shotgun policy account for it."—Monticello Herald.

One of two things is apparent in the above—either it is an anomalous falsehood, manufactured out of the whole cloth, or the Mississippi Republicans, comprising the Herald says, two thirds of the voting population, to be held in subjection by one-third prove themselves the most ardent cowards on the face of the earth.

Crown Point Star: We learn through Mr. Dale, of Monticello, who was here last week in the interest of the narrow gauge railroad, that work will probably commence about three weeks in this county on said road, as the parties building it desire to improve the driest season of the year in crossing the Kankakee marsh, and all questions of location will be settled in about two weeks. A proposition to run through Lowell and Crown Point will be taken into advisement.

Diphtheria.

The following paragraphs are from an article in the Springfield Republican, on the nature and treatment of diphtheria:

Diphtheria is a disease which springs from the growth of a real fungus on some of the mucous surfaces of the system, more generally of the throat. It may spread by contact of the mucous surfaces of a diseased with those of a healthy person, as in kissing, and is, to an admitted degree, epidemic.

From the local parts affected it spreads to the whole body, affecting the muscular and nervous systems, vitiating the lymph and nutrient fluids, and producing paralysis.

As soon as the bacterium or fungus appears on the white patches on the throat, it should no more be neglected than a bleeding gash or a broken arm, and there is almost as little need of a fatal termination of one incident as of the other.

It has been found by actual experiment, both in and out of the human system, that this bacterium is killed by several drugs, the safest and most certain of which is chlorine water, diluted with the addition of from two to four times the volume of water.

This wash is harmless, even when swallowed, and is pretty certain to arrest the disease. A well known physician in Springfield, who has pursued this treatment for 15 years has found it effective, almost without exception, and has in that period almost broken up the disease in localities where it had raged violently and defied treatment.

To keep the patient well housed and warm, with additional clothing, if necessary, and to keep the system well nourished are matters of nursing often neglected; but, with care in these respects, and early application of the remedies suggested, there is no need of the disease proceeding to a fatal termination, or even to the debilitating illness, painful catarrhs which go together in its later stages.

LECTURE.

Mrs. Lizzie C. B. Gault, of Wisconsin, will deliver a lecture at the Court House, in Rensselaer, to-morrow (Saturday) evening, November 2d, 1878.

Subject.—Society, its growth and outgrowths.

Rev. Gilbert Small is expected to preach in the Presbyterian Church, at this place, 1st Sunday of November. A cordial invitation is extended the public to attend.

Fine clothing a specialty, at the Narrow Gauge One Price Clothing Store.

Leslie Grant now occupies the Terhune shop, and constitutes a firm in himself. The books of the late firm will remain in his hands for a few weeks.

There is an advertisement in our columns to which we take much pleasure in referring our readers, because we believe it is and can conscientiously and heartily recommend it.—We refer to Hall's Hair Renewer.

We remember many cases in our midst of old and middle aged people who formerly wore grey hair, or whose locks were thin and faded, but who now have presentable head pieces, and with no little pride announce to their friends that they haven't a grey hair in their heads. It is a pardonable pride, and the world would be better off, if there was more of it, for when the aged make themselves attractive to others they are more certain to win and retain the respect and esteem to which a burden of well spent years entitles them. Try Hall's Hair Renewer if age or disease has thinned or whitened your locks and you will thank us for our advice.—Pan-Handle News, Wellsburg, W. Va.

One and all treated alike at The Narrow Gauge One Price Clothing Store.

The Supreme Court of the State of New York has decided that J. C. Ayer & Co. of Lowell, have the sole right to use the words Cherry Pectoral for a medicine, and has issued an injunction against F. V. Rushton of New York City, for selling Rushton's Cherry Pectoral or Cherry Pectoral Lozenges, or any other use of the name to deceive the public. This decision of the high court includes all dealers who sell any similar article.—Port Jefferson [L. J.] Leader.

The Narrow Gauge One Price Clothing Store gives rare inducements to buyers of ready made clothing. If you want to buy clothing cheap don't purchase before you see their goods and learn prices.
