

FRIDAY APRIL 4, 1879.

REMOVAL!

The SENTINEL now occupies rooms over Leopold's Store, Old and new friends and patrons cordially invited to call.

Leopold is in Chicago buying another lot of goods.

A new clothing store is being opened out in the Hemphill building.

D. A. Fawcett has assumed the management of the Brookston Reporter.

Thomas Burroughs, Esq., returned home from Indianapolis last Saturday evening.

Watson, infant son of Dan. B. Miller, Esq., completed year No. 1 on the 1st of April.

James Richey, of this county, has been drawn to serve on the United States grand jury at the next May term.

The report of the board of officers in the case of Gen. Fitz John Porter, completely relieves him from censure or condemnation.

Quite a number of our people took advantage of the opportunity afforded, and "exercuted" to Monticello last Saturday evening.

Maj. L. M. Burns, an old and enterprising citizen of Monticello, died in that place, Thursday of last week, in the 69th year of his age.

Chicago, for the first time in many years, has gone Democratic by a large majority. St. Louis and many other places give glorious Democratic victories.

Mrs. Dr. Spencer, Mrs. Fannie Rothrock, John B. Harbott, Jep. Croucher, Sam Rothrock, James Gosley, Sam Bushnell, of Monticello, and Leander Bringham, of Brookston, called in to see us during the week.

"Lord" Huntius has done the finest job of kalsomining at the new hotel that has come to our notice. His work is splendid. As a white washer he can just "scop" a Radical Congressional Investigating Committee.

The Monticello Herald says "The passenger and freight business of the L. D. & C. RR. was greater during the month of March than any preceding month and presents an exceedingly favorable showing."

A friend at our elbow says that that Rensselaer crowd looked as if it had been shut up for twenty years—Monticello Herald.

The friend at your elbow is wrong. It was the Bradford crowd that decried "No pent up Utica," etc.

Mrs. Fannie Rothrock, is opening out a handsome stock of Millinery Goods, entirely new, in the mercantile rooms of R. Fendig. She respectfully invites the public to call and inspect goods and ascertain prices before going elsewhere.

During the administration of Mr. Johnson, the radical congress tackled on the appropriation bills their infamous election laws, with a view to coerce the President to approve. Now, because the Democrats propose to reach the Fraud in the White House with the same kind of a dose, to secure the repeal of those laws, these pharisaical patriots cry out revolution.

Frye, Republicon, the other day in Congress, dragged into the discussion the Okalona, Mississippi, Southern States, just now employed in manufacturing capital for the use of Radicals.

Mr. Muldrow said it represented no respectable element in Mississippian. One of the editors was a carpet bagger from Ohio.

No doubt he is following instructions of Hayes and Sherman.

James Murdock, the newly appointed warden of the State Prison North has made a demand upon the Auditor of State for salary from date of appointment to end of quarter, March 31. It was refused, of course, and Mr. M. by his attorneys, Messrs. Barker, Hord & Hendricks, and Hon. John R. Coffroth, has taken such steps as will no doubt bring about a speedy termination of the controversy between the old and new boards.

THANKS.—Two years ago Mr. J. W. McEwen, of the Democratic Sentinel, sent me a copy of his paper, and the only publication asking for the recent change of postmaster at Rensselaer that was ever filed in the post-office department at Washington. To the partiality of that gentleman's much as to the favor of any other citizen of Rensselaer will the new appointee be indebted for his commission, shall the department set it to confirm its preliminary action. For the mark of any political opponent's personal esteem is but a small token of the gratitude that is felt by Mr. James—Consel in the Union.

The position we signed two years ago was for the consulship. That appointment you received—to Turk Island, you know. And we have no objection to the post office arrangement, only we should have preferred the change in a change of administration, or in response to your own petition, that you might stand upon your personal popularity and merit. In this way the idea that "political honor," of which you delight to prize, was thrown to the dogs, would not even be dreamed of.

Rates of Assessment.

The Assessors of the several townships of Jasper county met at the Auditor's office, on the call of the Auditor, March 28, 1879, for the purpose of agreeing upon a uniform rate of assessment for the current year.

James Welsh, of Marion township, was called to the chair, and George W. Casey, of Union, was elected secretary. Assessors present:

Hanging Grove, L. E. Nolan, Gilliam, Adam Hess, Barkley, George A. Dair, Marion, James Welsh, Newton, Sam'l Keoman, Carpenter, G. B. Chappell, Milroy, F. W. Sparlin, Jordan, John Waymire, Wheatfield, E. H. Brown.

On motion, it was resolved that all notes considered as first class, bearing 10 per cent. interest, be assessed at face.

ARRAIS OF PENSIONS.

Important Information.

WASH. D. C.—March 31.—Senators and members of Congress, and persons of all grades of official life, are receiving quantities of letters of inquiry as to when payment of arrears of pension was to commence. Applications have been coming in with great rapidity, since the bill passed, and clerks have been busily examining them. Some are all ready to payment, and each day sees application of more. In answer to an inquiry today, Commissioner Bentley said he hoped to begin paying claims under the arrears bill about the 10th of April, and continue to pay them from that date as fast as they were examined and approved. These claims will be paid by a check on the Treasury of the United States, payable to the order of the pensioner himself, and will be sent to the post-office ad-

dress of the pensioner by mail. No attorney or claim agent will be recognized in the matter. No applications under the bill will be received thro' a claim agent, and the pensioner receiving the money is prohibited by the express provision of the law from retaining any portion of it to attorney or claim agent. Pensioners in all parts are being imposed upon by claim agents who represent that the services of an experienced attorney is necessary to obtain that money. All that is necessary is to send to the Pension Office or the nearest pension agent for banks, and after filling them out return them to the Commissioner of Pensions at Washington.

A Democratic Trait.

Indianapolis Sentinel: We are gratified to say that D. D. Dale, Esq., the principal secretary of the Senate notwithstanding the Legislature adjourned without making any provision for the extra work is still in the city industriously engaged in placing all papers in the books of the Senate in the most perfect order, and to help him in completing the task, which is by no means a light one. This course on the part of Mr. Dale, who is under no obligations to the Senate, is a most creditable and ought not to be overlooked by those in authority.

Monticello Herald: A post mortem examination was made on the remains of Major Turner last Friday at the request of Mr. H. D. D. D. Cowger, Spence, Robinson and Clark.

Two canvers were found—one in the liver and one in the stomach, but both in an inactive state, which was evidenced by the fact that the parts affected had healed and the ends of the stomach, spleen, diaphraxis and pancreas were so firmly united as to require the use of the knife to separate them. The cancers, however, are pronounced to have been the direct cause of death.

An Irishman, upon seeing a squirrel shot from a tree, said "Faith, that's a waste of powder; the squirrel itself would have killed the squirrel."

Worth Twice the Sum.

We are just in receipt of the Chicago Ledger, the leading family paper of the West, which is now entering upon its seventh volume. The Ledger is a large forty-eight column weekly paper, printed upon bold, plain type, which can be read with ease, by either the old or young, and is filled with choice stories and matter of particular interest to every household. This excellent journal is supplied to subscribers, postage paid, for the extremely low price of one dollar and fifty cents per year. In order to more rapidly increase its present large list of readers, the publishers of this paper, the publishers of this paper, have just made a new contract for the manufacture of several thousand fine nickel plated steel gun-barrel and cylinders, each shot revolvers 22 caliber—which they propose to distribute among their subscribers at cost, and therefore offer a saving of one-half to one-third of the cost of a gun-barrel and cylinder.

A great many years ago a poor beggar explained his ragged appearance by observing: "I have no money to buy new clothing, and mend I must." And his class have been called mendicants ever since.

A "Centennial Safe" containing a lot of photographs of distinguished persons was locked up at Washington the other day and is not to be opened till 1976, and then by the President of the United States.

A French engineer has contrived an apparatus in which, by a system of mirrors, the rays of the sun are utilized as to create heat enough to generate steam for motive power, thus doing away with the necessity of fuel.

A member of the peer's jury of the present term of court—Mr. Jesse L. Watson—was the first juror ever summoned from the territory now comprising White county. He was a member of the grand jury at Indianapolis 47 years ago. Monticello Herald.
