Tobacco Production in the United States.

The report of J. R. Dodge, special agent for the collection of statistics of agriculture, showing the tobacco product of the United States for the census years 1880 and 1870, has been issued from the Census Office in Washington. The comparative statement presented in the report shows an increase in production of 80 per cent. during the decade, the product in 1880 being placed at 473,107,573 pounds, and that of 1870 at 270,341,000 pounds.

Mr. Dodge says, exaggerates the real advance in tobacco cultivation, as the preceding census crop was a small one, and the few tax returns of 1870 do not furnish a reliable basis for a comparison of the tobacco produced in 1870.
