

NEWS OF THE WEEK.

DOMESTIC INTELLIGENCE.

The works of the Union Store Company at Everett, Mass., have been swept away by fire, causing a loss of \$65,000.

Water has become so scarce in the anthracite region of Pennsylvania that it has been sold at 25 cents per gallon. The output of coal has been greatly interfered with.

While blasting mines in the harbor of Newport, Lieut. B. L. Edes and Lyman G. Spaulding were instantly killed by an accidental explosion.

A fire at Beaver Falls, Pa., destroyed Wilson & Son's flour mill and entirely burned the entire works and the residue of the Pittsburgh and Lake Erie road. The loss will reach \$140,000.

At Shortsville, near Rochester, N. Y., a fire destroyed the Empire Drill Works, which had 100 men thrown out of work. Loss, \$100,000.

Charles Montgomery and Kate Barlow, both of Washington, Lawrence county, N. Y., were drowned while making a foolhardy attempt to run the Rapids du Plat in a small boat.

By the explosion of a machine used in loading cartridges in the Winchester arms factory at New Haven, a small building was blown down. Two men were badly burned and seven others injured.

Gen. Grant has declined for the present the reception tendered him by the people of Auburn Park, N. Y., in consequence of the condition of President Garfield.

He says that he would consider it unbecoming in him to participate in joyous festivities while the life of the President of the nation hangs by a thread.

A farmers in New York State are digging their potatoes to save the crop which is being ruined by the drought.

The Grangers of Maryland, Pennsylvania and Virginia gave a picnic at Williams Grove, Pa. Fully 20,000 persons were present.

The peaceful Menominee Indians have been driven away from the agency, and Agent Stephens and his daughter are held as prisoners. Federal troops have been ordered to the scene.

The town of Sierra Vista, Cal., has been almost totally obliterated by fire. The loss is estimated at \$300,000.

While a party of farmers from Lockport, a village a few miles south of Terre Haute, Ind., were fishing in the Wabash river about twenty miles south of that city, four of them—Henry Berkard, Marshall Perill, Emory Leppie and James Russell—were drowned.

The corner in August, which obtained by Cincinnati parties in the Chicago market was successfully carried out. The manipulators of the corner are said to have cleared \$3,000,000.

Thomas H. Lowrey, a carpenter, was shot during a fight with James R. Duncan, a photographer, with whom he boarded on Wabash avenue, Chicago. Duncan was arrested, but claims that he only acted in self-defense. There is a scandal connected with the affair.

When the east-bound express on the Central Pacific road reached Colfax, Cal., two engines and one car were thrown from the track, the train having been slowed by highwaymen. A fireman and the express messenger, who sprang to the ground, were ordered to keep quiet, but just at that moment the robbers became alarmed and rode off in a wagon, leaving a large invoice of masks, powder and tools.

The Convent of St. Francis, situated about five miles from Mantovano, Wis., was struck by lightning and entirely destroyed by fire. There were over eighty persons in the building, several of whom were injured in their efforts to escape. The loss on the building and furniture was \$65,000, with insurance of only \$30,000.

A human being Neil ran a-muck in the streets of Chicago, at the hour of midnight, shooting five men whom he encountered in his wild race, two of whom, it is feared, cannot recover. He was himself shot by a policeman.

A dispatch from Deadwood announces the discovery, thirty miles from that city, of a vein which yields \$150,000.

Reports as to the yield of the Minnesota wheat crop, telegraphed to the Chicago journals, indicate that the average yield per acre this year is about 11.40 bushels, and that the aggregate yield of the whole State is about 34,771,511 bushels. This is 3,600,000 bushels less than the yield for the last year. There was the best in the western countries of the State and poorest in the southern counties.

By the burning of John C. Alexander's house at Carter's Creek, Tenn., five colored children were cremated. Three colored children were cremated at Booneville, Miss., by the burning of a cabin.

At Fort City, Ark., Tate Wallace invited S. D. Apperson, city Marshal, to take a cigar. While standing at the counter of a saloon Apperson drew a pistol and said, "I believe I'll shoot you." Tate, thinking he was being rejected, "shot" away. Apperson fired, killing him instantly.

A family of seven persons, living near Kiffin, Texas, has been poisoned by eating cooked peaches containing arsenic, and there is little hope for the recovery of any of the party.

At Plano, Texas, fire swept away fifty buildings in two hours, causing a loss of \$100,000.

The hurricane at Charleston caused a loss of \$140,000. A son of Chancellor Lessee was swept from the sea-wall, and three colored persons were drowned at Sullivan's Island.

James Wolf, a wholesale merchant of Little Rock, and his wife and child were crushed to death in a steamboat accident at Savannah.

Ella St. Claire, formerly a variety actress, in Mobile, married a negro, who was indicted for miscegenation, whereupon she fled to the river and was drowned. The body was recovered and is reported to have been very great. All the people on the river, at the time of the disaster, at Port Royal, S. C., and at other points along the South Carolina coast hundreds of persons are believed to have perished, and millions of dollars' worth of property was washed away.

RENSSELAER, JASPER COUNTY, INDIANA, FRIDAY, SEPTEMBER 9, 1881.

NUMBER 31.

INDIANA NEWS.

Hooe cholera is prevailing to quite an extent in some parts of Johnson county.

Decatur county fair, at Greensburg, was a success, financially and otherwise.

J. T. Polk, an extensive packer of canned goods, at Greenwood, Johnson county, has failed.

A recent sale of 1,200 acres for \$18,000 is the largest and one that has been made in Crawford county for several years.

Near Greentown a spark from a locomotive ignited 500 acres of grass, and it required the labor of 300 citizens to subdue the flames.

D. Ross, a resident of Somerset, Wabash county, and father of Sheriff Ross, was thrown from a buggy while driving and fatally injured.

The barrel and wagon factory of Andrew Johnson, at Vincennes, Kosciusko county, was entirely destroyed by fire. Loss, \$6,000.

Mrs. Carrie A. Wolfe, the well-known newspaper correspondent, has filed her petition in the Crawford county Circuit Court asking for a divorce from her husband, Dr. Scott Wolfe.

The residence and mill of T. S. Roseberry, at Delaware, Ripley county, were burned in the absence of the family at camp meeting the other day. Loss, from \$7,000 to \$8,000.

Coroner Kersey, of Richmond, occupies a house owned by E. G. Putta, a Cincinnati druggist. The latter had the room off while the Coroner was asleep, and got caught for it.

A LABORER from the farm of the heirs of Ole E. Perce, in Shelby county, was accidentally set fire to by two children, and was entirely destroyed. Loss, \$3,000, with no insurance.

It is now conceded that the "small boy" who caused the recent incendiary fires in Jeffersonville. The fires generally have occurred in day time, and those in the evening have been before bed time.

While a young son of a widow named Tullington, residing in Shelby county, was playing with a revolver, the weapon was discharged, killing instantly a little brother, 6 years old, who was standing by.

The railroad election held in Shelby county to decide whether an appropriation of \$81,000 would be donated to the Knighttown and Toledo Company, resulted in a severe defeat to the railroad.

Every township giving notice of the election, the county clerk of mail of Charles Revere, in Terre Haute, has been totally destroyed by fire. In the mill were 325 barrels of flour and 4,000 bushels of wheat, all of which was consumed. The loss on building and stock will aggregate \$18,000. Insured for \$5,000.

JOHN SMITH, a wealthy farmer living near Knightstown, Henry county, was used for professional services rendered by his daughter, Ellen, who, after a long and tedious search by the Sheriff of Brown county, Britton is a notorious and dangerous character, and one who was most cold-blooded and unprovoked.

W. W. METCALF, an agent for Dun's mercantile agency, has absconded from Rockport with considerable money, together with a horse and buggy. The cause of this strange action is attributed to bad associates and indulging too freely in wine. Mr. Metcalf has heretofore been considered one of the best of men in Rockport, and his fall has astonished the citizens of that burg.

A DISTRESSING accident happened on the farm of Albert Dobbins, near Shelbyville, about a week ago. The cause of this strange action is attributed to bad associates and indulging too freely in wine. Mr. Metcalf has heretofore been considered one of the best of men in Rockport, and his fall has astonished the citizens of that burg.

JOHN BRITTON, who fatally stabbed James Britton, at a picnic, in Brown county, some time ago, has been arrested by the Sheriff of Brown county, Britton is a notorious and dangerous character, and one who was most cold-blooded and unprovoked.

PRESIDENT GARFIELD.

WASHINGTON, Aug. 30.

The favorable symptoms in the President's condition which manifested themselves on Sunday continued all day yesterday and up to this morning. His pulse and temperature showed decided improvement, the glandular swelling reduced considerably, and the wound presented a healthy appearance.

The patient's more than ordinary amount of nourishment, which he appeared to assimilate without difficulty, seemed to be in good condition, and all the indications pointed to continued improvement. The physicians, who had nearly lost hope, are now more confident. A slight incision in the gland was attended with favorable result, and the swelling was diminished.

The administration of stimulants to the patient has been discontinued, and the wound has been dressed in each case with four drams of whisky mixed with the yells of eggs. The President's condition was first improved in large doses that it was absolutely necessary that his system should be quickly stimulated.

The President's condition was first improved in large doses that it was absolutely necessary that his system should be quickly stimulated. The President's condition was first improved in large doses that it was absolutely necessary that his system should be quickly stimulated.

WHAT CAUSES THE BLOOD TO CIRCULATE?

To what degree the heart is aided by other forces is yet a matter of investigation.

Probably, there are several factors which aid the heart in its work. The elasticity of the arteries increases their carrying capacity.

They are firm, elastic tubes, which expand under the pressure from each stroke of the heart, and then contract, forcing the blood forward.
