

# Removal!

The Sentinel Office has been moved into rooms one door east of Makeover's New Hotel, where we will be pleased to greet our friends in future.

Let the Democrats organize the Sentinels, and then assign Mahone or his tail end of the most unimportant committees as a reward for his treachery.

A degenerate Moses, the one that was lately carpet-bag Governor of South Carolina, was arrested this week in New York for obtaining money under false pretenses. One of the sad mistakes of Moses, Ingersoll would say.

Again Mahone is worried, and though he has the Republican party of Virginia under his hat, again he asks: "What is to become of me?" There is a bare possibility that nobody cares who isn't dependent upon the Virginia senator for his daily bread.

The general belief is gaining ground that the proceedings against the Star Route thieves are so legally defective that they will be thrown overboard if a trial is ever had. It is probably a case of intent bungling. The distinguished Star Route thieves are too big as Republican bosses to suffer harm.

It is probable that Conkling will be given a place in the Cabinet, unless it is deemed most advisable to appoint Lapham to place, and vacate his prospective seat in the Senate to be filled by Conkling through appointment by the Governor. And the half breeds are unhandy.

Delphi Times: The dead body of a man was found under the Deer Creek Bridge, on Friday, whose name is A. L. Patterson, formerly residing in White county. He came to Delphi on the Air-Line train about 11 o'clock in the forenoon, and it is supposed while bathing his face he fell in the creek, and was drowned. He was a shoemaker by trade. His coat and hat lay on the bank while his body was found floating in the creek in about 2 1/2 feet of water. His remains were interred by Trustee Jakes, on Saturday evening.

Indianapolis Journal: From a reliable source it is learned that Colonel Yeoman and his party and H. Crawford Friday of last week came to an agreement with the latter joins hands with the former in the construction of the Indianapolis, Chicago and Northern road. Messrs Moore and Davenport, of Sheridan, and Dr. Pettijohn, Sylvanus Carey and ex-Sheriff Patty, of Noblesville, were in the city Friday and were, much elated that Mr. Crawford had taken an interest in the enterprise, as they feel confident that the road for which they have been earnestly working for three years past will be built. Going north from Indianapolis the road will pass through Broad Ripple, Bethlehem, Westfield, Sheridan, Kinkley, then to Franklin and from that point on the Chicago and Indianapolis Air-Line to Delphi.

"If our friend of the Sentinel will persist in taking whole columns from THE REPUBLICAN, for his reprint, we must insist upon having credit from them.—Republican.

If our friends of the Republican desire credit for the orations of the speakers at the Garfield Memorial services, they are not entitled to it.—If our friends desire credit for that portion of the proceedings furnished them, in type, by us, and used by them, they are not entitled to it. If they desire credit for the editorial preface to the proceedings, we cheerfully concede it to them, as we have no particular desire for responsibility for some extravagant expressions contained therein. So far as "credit" is concerned, on account of use of types, press, etc., we do not think their claim will overbalance ours. We should not have thought of this, nor introduced it, except to reveal the effort of our friends of the Republican to create the impression that the SENTINEL is under everlasting obligations to them. The disposition of the SENTINEL is, and has been at all times to extend accommodations and favors without a thought of claiming credit therefor.

## Newton Township Items.

Ed. SENTINEL: Again Old Newton must be heard from, and about the first thing noted is that the continued drought has even way to continued rains, and that vegetation is putting forth as in the sunny spring time. Pastures are looking fine, and where a few weeks ago cattle were roaming about in quest of food and drink, are now to be found in abundance of grass with a bountiful supply of good water.

Wheat is looking fine, while a fair acreage has been sown. The corn crop is considerably in excess of what was generally expected and is first class in quality. So our farmers should be content in knowing that their harvest is more abundant than that of many of their brother tillers of the soil.

Some of our farmers are hauling their small grain to market for grain, they are getting good returns.

Our young friends, David I. Yeoman and Joseph Paxton, are attending school at Warsaw, Ind., where they expect to remain until Spring.

Quite a number of the lads and a few of the "lasses" attended the Reunion at Monticello, and report a "boss" time. The boys engaged in

soldier duties, for which they received compensation in the shape of "backpacks," "beans" and "saw." L. W. Savers has moved into his new residence.

Mr. W. D. Sawyer is prospecting in the "far west."

S. B. Coon is going west, (as far as Joshua's.)

Dr. Hall is sojourning among the invalids of this and adjoining neighborhoods, and seems to be paying particular attention to one of Uncle Jake's fair daughters, though not an invalid.

Mr. Joseph Price, a former resident of this place, but now a citizen of Kansas, is here making a visit to relatives and friends. He reports dry weather and light crops in Nebraska county, Kansas.

R. J. Yeoman has returned from the southern part of this State, and states that crops of all kinds are almost a failure, and consequently farmers are seeing hard times with corn selling at 75 cents per bushel and hay at \$25 per ton.

The bridge across Curtis creek is completed and is a solid structure. Miss Mattie Saylor is on the sick list but is convalescing.

Mr. James Powell, our enterprising waterer, is having unlimited success in making artesian wells. Any one needing a well cannot do better than employ him.

Jas. C. Shindler and Jos. Thomas have returned from their western tour. Mr. Thomas expects to locate in Kansas, with corn success.

Messrs. F. W. Mauck and F. M. Grant are in the "lasses" business. F. W. has a "lass" and F. M. "lasses."

## AMATEUR.

### Union Township Items.

Raining to-day.

Wheat and rye look well.

Work progressing on the school house at Bluff.

The Normal opens on the 2d at Brushwood.

M. M. Tyler, of Keener, will attend the Normal at Brushwood.

Willis McCollie starts to-morrow for Delaware county, Indiana, the place of his birth. Union will lose a good citizen, and Delaware gain one.

A literary and debating society will be organized at Pleasant Valley, Friday evening.

Rev. Abram Miller will preach at the Church school house next Sunday at 3:30 p. m.

Rev. L. Shortridge will lecture at Pleasant Valley next Saturday evening. Subject—Education, ancient and modern, compared and contrasted.

Will Miss Dell G. please call for that letter.

Water says its nice to have a young man come to see his sister, so Scott can ride the gray horse after the cows.

The Mr. Hon. D. B. Swackhammer, Esq., thinks we are slightly mistaken about the location of Nubia Ridge, and refers to new maps for 1881. If he has one representing Alter's mill on the back-bone, he is the manufacturer thereof, and it is not therefore correct.

Will Reader please define the word "diminution" for the benefit of those who don't know its meaning.

George Casey has sold twenty tons of hay, to be delivered at Rensselaer, for the handsome sum of \$120.00.

We all enjoyed a good soaking while home from the Sunday School Reunion last Sunday evening.

Mr. Templeton moved his cattle to pasture nearer Rensselaer yesterday.

Ad. Parkinson removed his 3-year old cattle to his farms in Barkley last Friday. Jacob M. Troxell has been herding them for a couple of months past.

Thanks, Mr. Republican, for stating that we are "a man of power and ability to write" and of "such uncredited renown."

Again comes a dismal howl from the great political leviathan of Keener (who signs himself Republican) in an attack upon the "Grange Island man" because we belong to the great party of Jefferson and Jackson—the party which his ass-tail mind conjures up the tail end of nothingness." The party that elected a President in 1876, and cast a majority of the popular vote in 1880. Such a party his imagination conceives to be the "end of nothingness." In his items to the Republican of August 20th, he says that the "good rain" which bespattered the Democrats of Union was just a little shower, and in the Republican of Sept. 29th, he says "there was no rain" and that the good rain which bespattered the Democrats of Union." Note the contradiction. We shall accept the last statement, knowing it to be correct.
