

Democratic Central Committee
RENSSELAER, Ind., April 14th, 1882.
Notice is hereby given to the members of the Democratic Central Committee of Jasper County, that there will be a meeting of the same, to be held at the Court House at Rensselaer on Saturday, May 5th, 1882, at 1 o'clock p.m. for the purpose of determining the time and manner of nomination candidates for the county ticket at the next election.

HENRY A. BARKEY.
Chairman Democratic Central Committee.
D. L. LEE, Secretary.

As Speaker of the House of Representatives, Keifer is a failure. The "Stalwarts" relegated him to the "1st breee" on this basis. He was beaten by the "St. Lawer" and that he is one of them.

J. Sherman declared recently in the Senate that a Republican Congress adopted a resolution for the protection of African citizens in foreign lands. When inquired of by Mr. Voorhees as to why they did not make it operative, the old "soulion" at Chicago Convention had no reply to make.

Chall-bred in the "1st breee" the "queers" propounded by "Taxpayers" to our Tax-haters, trust a black and mean. N w why don't he show that the question were without ground or importunity? The records are now in peetion, and a good opportunity is offered to vindicate Mr. P. on the matter of extravagance in administration of his office.

JUST AS EXPLAINED.—Since it is become plainly evident that the Hoosiers will not place Grant on the retired list on a pension of \$12,000 or \$15,000 per annum, Arthur has adopted the opinion of Jas. A. Logue, and says he can do nothing for Gen. Fitz J. Porter. Gen. Porter can afford to wait. Another administration will right the grea-ways vised upon him by the their enemies.

Must be Provided For.
Washington Special. Indiana.
Senator Hawley, of Connecticut, has introduced a bill in the senate for the appointment of a commission of colored men to inquire into and report upon the industrial, intellectual and material progress of the colored people of the United States since the close of the war. The bill appropriates \$15,000 for expenses, \$3,000 for a secretary, \$1,500 for a stenographer. The only object of the bill seems to be to make a few places for our colored "brethren."

The total sum that has been paid to invalid pensioners since the existence of our government up to June 30, 1880, amounts to \$547,413,855.57.

But the total sum paid to the bondholders during the same period, for interest alone, reaches the stupendous figure of \$2,105,630,421.61. Who ever doubts our assertions should read page sixty-nine of Spofford's Almanac, which is an acknowledged authority on such matters.

These official figures are a stronger argument than anything else we can say in opposition to the malicious howls of the bondholders' organs and their heartless, persistent effort to create an infatuated public sentiment against the poor invalid pensioners who sacrificed their limbs and health and thereby helped to make the United States bonds as good as they are.

How Labor is "Protected" in Frisco.
A few facts for the laboring men and mechanics of the country, which we ask them to read carefully. And after you read them, sit down and take your pipes and smoke over them. They will bear thinking about.

There are three important industries in the city of San Francisco which employ skilled labor. Upon the raw material as well as the manufactured articles of each there is a protective tariff.

First fact.—In the manufacture of boots and shoes there are employed 5,700 Chinese.

There are employed in the same business 1,100 white laborers.

Second fact.—In the manufacture of clothing there are employed 7,510 Chinese.

In the same business there are employed 1,000 white laborers.

Fact third.—In the manufacture of cigars there are employed 8,500 Chinese.

Fact fourth.—Of the 23,989 laborers employed, mechanics, 21,810 are Chinese and 2,279 are white.

Laboring men, think of this while you are smoking your pipes.

Then, again, don't forget this, that the raw material and the products are all protected by a high tariff. Now ask yourselves if your labor is protected. Ask yourselves if the Republicans, through their president, are for the protection of labor, or for the protection of capital alone?

Here are 21,810 Chinese employed to the exclusion of white labor. No one of them brings his wife or children with them to consume the products of labor. They carry everything back with them. They live upon the fifth and offal of the cities. This is the class of men intended by the Republicans to supersede white labor.

(From the Indianapolis Sentinel.)

An impromptu meeting of Democrats now visiting the city was called yesterday at room No. 10, Grand Hotel, and the following are the proceedings of the meeting:

On motion of Judge William N. Tracewell, of Harrison County, Dr. J. W. Gerrish, of Jackson, was chosen chairman, and John R. East, secretary.

On motion a committee to draft a resolution expressive of the sentiment of the meeting, and consisting of William N. Tracewell, as Chairman, Peter Taylor, of Warrick; C. S. Dobson, of Martin; B. J. Taylor, of Allen; W. G. Wilson, of Henry; John R.

East, of Monroe, and J. W. F. Gerrish, of Jackson, was appointed by the meeting.

The committee reported, and the meeting, by unanimous vote, adopted the following:

We deeply regret the course and action of a portion of the Democrats of Center Township, and of the city of Indianapolis in Marion County, Indiana, in attempting by resolutions, letters and speeches to the effect, to oust the action of the State Democratic Convention, upon the subject of the submission of the proposed and now end in the same, to our State Constitution.

We believe in the time honored Democratic doctrine, that the people have the right by ballot to change, or amend the Constitution of our State in a Constitutional way; and that when amendments have been proposed, and have received in their favor a majority of the votes of one Legislature, the question as to whether they shall be adopted or rejected is one that should be left to the people, but that they should have the privilege of settling such question by direct vote thereon.

And we further declare that we now, as ever before, have a right and an entire confidence in the people of the State of Indiana that they will deal with the fundamental and organic law of the State in such manner as to preserve and maintain the integrity of society and the government.

And we regard any attempt from whatever source, to prevent a submission of such amendments to the people for a direct vote, as unwise, despotic, and contrary to the teachings, doctrines and spirit of Democracy, and that such attempt meets disapproval of a large majority of Indiana, and will be repudiated by the people.
