WHITED SEPULCHER.

Revolutionary Action of the Republicans in the National House.

Scathing Speech of Hon. S. S. Cox, of New York.

I do not arrogate to myself any special patriotism. To arrogate is to arrogate. I shall not degrade from the patriotism of my friend from New Jersey (Mr. Robeson) who has just labored so hard to pass this measure. It was labor, physical and mental, to bring me to this point.

The gentleman, at last after every endeavor, must come to the American constitution as it is. It is not the mode of amending the rules themselves. As to the rules of this House, the constitution says (article I, section 5) that the House shall have the sole power of its proceedings.

There is nothing said in that clause that is exceptional. It has no limitation upon either House of Congress. We may make rules, not for certain purposes, but for all purposes.

LABOR STRIKES.

THE GREAT STRIKE OF THE IRON-WORKERS was inaugurated to-day. Twenty thousand men and boys who yesterday added to the wealth of the country by their honest work are to-day idle consumers. Yesterday, this vast army of producers earned fully \$80,000; to-day they squandered part of it. A strange situation prevails throughout the city. Clouds of impenetrable smoke no longer hang over the town.

The strike brushed them away as if by magic, leaving a clear sky and bright sunlight seldom witnessed in Pittsburgh. All the thirty odd iron mills in the two cities are closed. The great factories of the Union Mills of Carnegie Bros. & Co. thousands of men, arrayed in best apparel, all day long parade the streets, talking, laughing and squandering their money. The strikers are quiet all day long. They have the sympathy of the public, and will continue to have it unless goaded by desperation to turn the tide of public sentiment against them.

The great strike of the iron-works began here on the 1st of June. It was not affected by the look-out or strike which began at Youngstown to-day. As a matter of course the mines were closed, and the strikers demanded for coal must cease. The manufacturers claim that the strike will cost them \$1,000,000. The rail mills, which will run until Saturday, the principal furnaces, are now being blown out. The strike will cost 2,000 men their jobs, and will be ordered out of the city by the end of the month.
