### WORLD SMASHING

World-smashing, Meteoric Astronomical, and Lunar Volcanoes, are the "thrilling" subjects discussed by W. M. Williams in No. 13 of the Elizur Literary, price two cents! Nervously inclined readers will be glad to know that the author is conservative, and claims that science demonstrates, not the early destruction of the universe, but quite the contrary. These three essays are from a handsome large volume by the same author and publisher, issued under the title of "Science in Short Chapters," in which are treated something more than two score topics of popular interest, many of them being practical rather than simply curious. The importer's price of \$3.50 is reduced by the American publisher to 50 cents for handsome cloth binding, or 65 cents for half-Russia, red edges, though the American edition is fairly equal to the importers'. For sale by all booksellers, and by club agents, John B. Alden, Publisher, 18 Vesey Street, New York.

Mrs. O. M. Curtis, Elkhart, used Bow's Iron Bitters with good effect when exhausted and debilitated.

What are you going to get? A black silk? Yes. Who of? J. V. W. Kirk.

A BENEFICENT ACTION.

The miserable looks and feelings of those confined at desks at work tables, are caused by weak stomach, Kidneys or Bowels. Parker's Glycerine without intoxicating has such a beneficial action on these organs and cures the pernicious matter from the system, that royal check and good health are soon brought back again. -Express.

GRANDMA SPILER, we are pained to announce, departed this life yesterday, at the residence of her daughter, Mrs. Judge Hammond. Grandma was one of our early settlers, and her history is closely connected with that of Jasper County. She was a faithful wife and mother, good neighbor, kind, generous and charitable person. She was extensively known in this and adjoining counties, and none knew her but praise.

We have not time this week to say more. No doubt a more accurate history of her life will be given by one more able from more extensive acquaintance to do the subject justice. We tender our sincere sympathies to the bereaved children and friends.

Those at all acquainted with the

legislation of the country within the past 20 or 30 years know full well that silver was demonetized by Republican legislation, intentionally and clandestinely in the interest of the money power. They know, too, that a Democratic Congress remonetized it—even to the extent of passing it over the veto of Fraud Hayes, backed by his financial secretary, John Sherman, who unceremoniously kicked Arthur—the made president by virtue of Guitau's bullet—out of the New York Custom House.

#### A NEW ENTERPRISE.

We received a call on Tuesday from Messrs. J. H. Battell and L. G. V. Battell, who represent the firm of F. V. Battell & Co. of Chicago. It is proposed to compile the history of Warren, Benton, Jasper and Newton counties of this State, and publish it in one large octavo volume. The plan of the work includes a survey of the geological features of each county, its antiquities, the traditions of its Indian domination, the early settlement and organization of the State. This is to be followed by a notice of the organization of the counties, the coming of the early settlers, the organization of townships, incidents relating to the early bench and bar, county records, early schools, the development of business enterprises, agriculture and societies, the military history and church and school interests, etc., etc. The plan is comprehensive, and when carried out, as we have reason to believe it will be, the work will prove one of permanent value to all our citizens. Mr. Battell, who has charge of the literary part of the undertaking, brings to the performance of his duties the experience of several years in this special line of work, beside a considerate editor of the Cleveland O. L. Leader.

Mr. Girtton has in charge the compilation of the biographical part of the work which will be an important feature, and one to which our citizens will generally be asked to contribute. We bespeak for the enterprise the cordial co-operation of the people throughout the country.
