A western colporteur was once conversing with an Illinois man on his religious duties. Said he: "Do you attend church regularly?" "Oh no, I never go to church, but I falls make it go to go to all the funerals. They be jest as solemn, and thar hain't no kerlections."

This is the way it works, and here is a hint for Fishback's fourth letter to Peelle. An exchange says: The Lake Superior interest, which is protected by a duty of four cents a pound on copper, shows that it loves "American industry" by selling 100,000 pounds of copper to go to Europe for sixteen cents a pound, while it charges seventeen and a half cents to American customers.

There is talk in Georgia of purchasing Liberty Hall—Alexander H. Stephens' late residence—by voluntary contribution, and to retain in it his famous rolling-chair and other relics making it a peculiar pilgrim shrine (a Mecca of the Mind) on paper calls it for the people of the State, especially the young men. It is also suggested that the State employ some famous sculptor to make a statue of the late Governor, seated in a roller-chair for Georgia's contribution to the National Capitol.
