

THE DEMOCRATIC SENTINEL

OFFICIAL PAPER OF JASPER COUNTY.

FRIDAY OCTOBER 12 1883.

The mystery surrounding the murder of Miss Ada Atkinson still remains unsolved.

OHIO Democratic—13 000 IOWA comes down from 70 000 to less than 30 000. The Republican party must go.

Kentland Gazette; Josepa Sharp has gone to Rensselaer, to engage in the poultry business at that place. The Gazette commends Joe to that place, and wishes him success.

The Democracy of Indianapolis "tied" the radicals in one branch of the City Council, in the late election in that city, and almost wiped out the big radical majorities of other years. Well done.

It is said that the public debt has been reduced to a little over a billion and a half. Sufficient money has been collected from the people to have paid the entire debt, had it been properly applied, and the thieves kept out beyond reach of the treasure.

Monticello Herald: It is singular what a liking the Democratic party have for men who have once been republicans, when they come to making tickets. Instance: Greeley, Hoadley and Butler. Truly there is more rejoicing in the Democratic camp over the one that is just picked up than over the ninety and nine that have always voted and worked for the ticket.

But it is not singular that such bloody-handed rebels as Longstreet, the guerilla Mosbey, Key and Och Mahone, should be placed in the upper seats of the radical synagogue? They are repentant rebels, eh? Consistent to first principles; Sectional when they rebelled, they entered a sectional fold when brought back.

Monticello Herald: To democratic newspapers of the McEwen stripe, who are howling themselves hoarse because President Arthur took a pleasure trip to Yellowstone Park, it may be interesting to know that Jefferson, whose memory they pretend to hold sacred was the champion absentee president. He was away from Washington 796 days in eight years. Monroe was next, being absent 708 days in eight years.

And now, Billy, since you know so much about the incoming and outgoing of Mr Jefferson, be so good as to tell us from whence you received the information, who was his "time-keeper," &c.; and also inform us whether Mr. J's lost time was occupied in looking after the interests of his country, or, like Arthur's, taken up in a grand old picnic. Again: admit for the sake of argument that what you say is true, bear in mind that Mr. Jefferson was President in fact,—did not secure the position, as a "prize from the lottery of assassination;" he was not dishonest himself, never having been kicked out of place for dishonesty and inefficiency by an old fraud like Hayes, as was Arthur—neither was he surrounded by advisers belonging to "Star Route," "DeGolyer Pavement" and "Credit Mobiliar" rings.

ANOTHER RAILROAD.

THE FORT WAYNE, DETROIT & CANADA SOUTHERN.

Under the above title, the north eastern extension of the Fort Wayne, Peoria & Galesburg has just been organized, with headquarters at Bryan, Ohio. This line covers the thirty seven miles of distance between the Indiana state line, west of Hicksville, through to Fayette Ohio, the western terminus of the famous Canada Southern railroad, noted for its low grades, straight lines and quick running time. The new route will be twenty-four miles shorter to Detroit than any existing line from Fort Wayne, and thirty-seven miles less distance to Buffalo than the present Lake Shore via Waterloo, Toledo and Cleveland. Between Fort Wayne and Bryan the location is an air line, with easy grades, the elevation of Fort Wayne above Lake Erie being 199 feet, and Bryan, Ohio, 198 feet, with neither hills, ridges or depressions in between. Compared with the Webash route to Buffalo via Toledo and Cleveland, the saving in distance will be twenty-four miles.

Gen. Joe Holt, speaking Mr. Buchanan, says:

His heart never beat except with loyalty to the Union: I knew him well, and knew that he was thoroughly loyal. In my intercourse with the president during his administration I always spoke freely and positively upon the one great subject then engrossing all attention. I put the sub-

jects relating to the union and its preservation in the strongest possible manner, and I never received a rebuke of criticism from him for my warm and earnestness. It is singular that with written evidence of Buchanan's loyalty existing his violation to the Union should be permitted to go unquestioned for so many years. It was not until the recent publication of Curtis's work on the life of Buchanan that these evidences were made public and his loyalty placed beyond doubt. I can not understand why it was permitted to remain so long under a cloud.

Twelve locomotives were shipped from Philadelphia for Brazil recently. Twenty-two hundred trains leave the railroad stations of London every twenty-four hours.

A Beebe, Arkansas, nursery has shipped 5,000 umbrella china trees to Atlanta, Ga., where they will be set out on the streets for shade trees.

The emperor of Brazil has given Professor Lacerda \$20,000 for his discovery of permanganate of potash, hypodermically injected as an antidote for the bite of the cobra.

The first Chinese child ever born in Washington was the daughter of the Chinese minister, who appeared about a month ago. She is named Mi Ju; the first name, Mi means America and is given in honor of the country.

In closing a notice of the arrival of two St. Louis belles the editor of the Pom Green Country (Tex.) Times says: "Rule I am of speech, but if you want a heart with generous valves, fit to run a hydraulic pump, coral me and you'll find it beneath my shirt."

An Albany firm have utilized tin scraps. They make wrought plate dovetails for stove legs, and utilize from six to eight tons of scraps every month for this purpose. The articles made are small pieces of tin of peculiar shape, which are used by stove menders to make a perfect dovetail on stove bottoms.

There is on exhibition at San Luis Obispo, Cal., an ear of corn grown in the exact form of the hand of a child, showing the wrist, hand, thumb and fingers all perfect excepting the little finger, which is double. It is covered with small grains of corn to bear the tips of the fingers, which are bare prongs of cob, giving the appearance of a hand clad with a mitt. In total length it is five and a half inches, and three inches broad across the palm.

CONQUERING THE WILDERNESS.

In American history there are no more interesting figures than the Heroes and Heroines of the Border. Bold, dashing, adventurous and patriotic; loyal to friends, to country and to the interests of society, their work was singularly effective in the advancement of American civilization. With seeming recklessness, their efforts were in the interest of law and order, and the people owe them a debt of gratitude they do not forget. Their page in history is as fascinating as it is honorable, and there is a peculiar pleasure in reading the narrative of their wonderful exploits.

The times which produced these heroes and heroines mark a period in American history of absorbing interest alike to old and young. It is proper that it should be so. These hardy pioneers coupled virtue with courage, manliness and love of country with the stern duties of frontier life and battle, and the example of their lives not only interest but strengthens our faith and admiration in human courage and unselfish purpose.

In American pioneer history there are three distinct eras marked as distinctly by three geographical divisions; from the Allegheny Mountains to the Mississippi, marking the first; from the Mississippi to the Rocky Mountains the second; California and the Pacific Slope the 3rd. The settlement of these vast regions developed great leaders, whose achievements have made them justly and widely famous. They have a warm place in the hearts of the people, and a prominent one in their admiration. It is appropriate that their achievements should be recorded, and we note with pleasure the forthcoming of a new book, now ready from the press of N. D. Thompson & Co., Publishers, New York and St. Louis, Mo., called: Conquering the Wilderness, or New Pictorial History of the Life and Times of the Pioneer Heroes and Heroines of America.

It is written by Col. Frank Triplett, an accomplished writer, whose literary qualifications and great experience on the frontiers are said to eminently fit him for so noble a task. A special feature of the book is its apt and profuse illustration, embracing 220 superb engravings, illustrating incidents and persons—the latter embracing nearly 100 lifelike portraits, of pioneer leaders, never before given—men and women—which make it a sort of picture gallery, as well as a book of thrilling narratives, that will lend to the book a charm and interest not to be resisted.

It is sold by subscription, through canvassing agents, and presents an opportunity to agents to make money especially inviting. We advertise it in another column.

The rite of circumcision was performed upon the infant son of Mr. N. Fendig, Tuesday. Rabbi Sonnechein of Chicago, officiated.

Dr. M. B. Alter fitted up his property, south side of the river, in good style, and it is occupied by W. W. Watson Esq., who recently married Miss Belle Alter, the efficient Deputy County Treasurer for the past year.

The services at the Presbyterian church during the evenings of the past week, were well attended, notwithstanding the unpleasant weather, and a lively interest seemed to be awakened among the christian people of the town.

Rev. Webster of the M. E. church preached on Tuesday evening, and rendered effective service at all the meetings.

There was manifest throughout a spirit of unity and co-operation on the part of the various churches represented, and a disposition for activity and zeal in pushing forward the work during the winter coming.

The Lord's Supper was administered on Sabbath morning at the Presbyterian church. There was a full attendance, and a deep interest seemed to be felt by all present in the solemn service.

The church received an addition of two, which makes seven, during the seven months that Rev. Small has had charge of the congregation. The Sunday School gave a concert in the evening, when the house was crowded. The Superintendent gave an encouraging report of the work of the school; the lessons for the quarter were briefly reviewed; scripture recitations were given, and other exercises, while a number of appropriate songs were sung.

The Female Missionary Society held a meeting at Mrs. Calvin Porters on Wednesday afternoon for the election of officers.

The Ladies Aid Society gave a supper at Mrs. Dexter's (Nowels House) for the benefit of the society.

Rev. Small was called by telegram on last Monday to Meadow Lake to unite in the bonds of matrimony Col. Everett W. Foster of Frankfort, Dakota, and Mrs. Rhoda Skinner of Meadow Lake.

The Directors of the Jasper County Agricultural Society will meet at the Auditor's Office, on Saturday the 20th day of October, 1883, at 2 o'clock, P. M. A full attendance is desired.

EZRA C. NOWELS, Sec'y.

Mr. E. S. Daniels, Pros. Atty, 19th Jud. Dist., Ind. ana, says: "Brown's Iron Bitters is the remedy for indigestion."

Two ladies, who were out for a walk, and upon being asked by the usher what characters they personated, they replied that they were without any special costume, whereupon the stupid fellow bawled out, "Two ladies without any character!"

MRS. C. W. THOMAS,

THE GREAT MAGNETIC AND BOTANIC PHYSICIAN!

Will be at the Makeover House until October 5th, 1883, and return October 29th, 1883.

Who cures all kinds of chronic diseases known to the human family, from a cancer down to a felon; and her remedy is chiefly Magnetism, some cases she uses herbs, roots and barks,—God's natural remedies,—but she cures all her patients who do as she directs.

Below we give some of the names of patients whom she has cured, as references:

In the vicinity of Attica, Ind., Mrs. Catherine Galaway, Cancer on breast and tongue; John Smith, Dyspepsia; and there are living in that vicinity over one hundred people that she has cured.

At Williamsport, Wm. Slaughter, St. Vitus' Dance; Mrs. E. A. Tuttle, Cancer on breast.

West Lebanon, Miss Ella Butler, Cancer on arm.

Carbondale, Mrs. Celinea Brier, Catarrh; James F. Garnet, Blindness and Asthma; Minny Crusan, of spinal disease and dislocated ankle; Wm. Brier, of dislocated shoulder of 20 years standing, and weak breast, and his son, with many of different diseases.

At Alvin, Ill., many cases of Piles and Female weakness; Mrs. Harper, of Tumor.

Remington, Jasper county, Ind., Thomas Harris' family had scrofulous sore eyes; his child had not had her eyes open for three months, and one part of her spine appeared to be entirely gone, and Mrs. Thomas said when the spine was cured the eyes would open, so she treated her spine until the place filled up and, on the 13th of September, in the afternoon, her eyes came open, and looked bright and nice as though there had been nothing the matter with them.

His wife, who was nearly blind, is getting well.

A little girl, for whom he has spent six hundred dollars is getting well. Mrs. McDougle, wife of J. O. B. McDougle, had been sun struck, years ago, and the doctors had nearly ruined both her system and mind. She became satisfied that their poisons were killing her, and quit taking them, saying she had rather die a natural death than they should kill her with poison. She employed Mrs. Thomas, and in two weeks was much better; to-day she is nearly well, and one of the liveliest ladies in Remington.

Brookston, Ind., John Reed, born deaf, or if he ever heard in his life his folks do not know it; Mrs. Thomas diagnosed the case and said it could be cured, she has treated him three months and he hears everything, but as yet has not learned to talk, but probably will in time. He is nearly 10 years old.

Brookston, Ind., Sept 17th, 1883. Mrs. Thomas came here in June last. I had been suffering with a very bad cough for several months, my

wife and daughter were apprehensive that I was going into consumption. Mrs. Thomas said she could cure me, and in 48 hours after treatment the cough was entirely gone, the soreness of my lungs, and I am as well as most men of my age. My wife was sick with disease of the stomach, and she cured her completely. My daughter had been quite seriously diseased for several years, and she cured her entirely. Mrs. Thomas cured a great many patients here in my house, and as far as I know, they are all better, and many of them entirely well. Myself and family were treated without medicine, that is, she cured us by Magnetism.

JAMES WALLACE. Examination, with patients present, or with lock of hair. Fee \$1. Office hours: 9 a. m., to 12; and from 1 to 6 p. m.

A LIST OF GOODS

—SOLD AT—

Purcupile's RESTAURANT!

A full line of Common and Fancy Candies!

Remember! That with each and every pound of our Coffee you receive a nice present.

Remember! In purchasing your Baking Powders of us, you secure a chance to draw that hand-painted set of ware.

H. M. PURCUPILE.

What They Eat in Africa.

An African correspondent of Food and Health, speaking of the habits of the people and incidents, says:

Of course hunter's food, such as elephant foot, buffalo hump, sea cow, giraffe, and the hundreds of different kinds of deer that abound in various parts of the country are all more or less good eating, especially when you have a good supply of Dame Nature's sauce, hunger, on hand. I also found the coneys or rock rabbit a fair dish, although too much like a large rat to look pleasant on the table. The natives of the country are not, as a rule, great meat eaters, living generally on corn (called there, mealies), milk, pumpkins, and a sort of sugar cane, now and then going in for a feast of meat. I have often considered whether to this way of living may be ascribed the really wonderful manner in which they recover from wounds.

In the Zulu war I saw four persons wounded in the legs with bullets, one of them especially having received a bullet just below the knee, smashing all the bones, and leaving a hole that you could see through. The doctors said the only hope for any of them was amputation. This they refused to allow, and they would do nothing but pour cold water from time to time. When I last saw them all but the worst could walk alone, and his wound looked healthy, the bone having grown together, and knitted quite strongly. No white man could have lived without an operation. On the other hand, these men soon succumb to illness or disease.

A LIFE SAVING PRESENT.

Mr. M. E. Allison, Hutchinson, Kan., Saved his life by a simple trial bottle of Dr. King's New Discovery, for Consumption, which caused him to procure a large bottle, that completely cured him, when Doctor's change of climate, and everything else had failed. Asthma, Bronchitis, Severe Coughs, and all Throat and Lung diseases it is, guaranteed to cure. Trial bottles free at F. B. LEAMING'S Drug Store. Large size \$1 00.

Lovisa Call George A. Conn, Mrs. C. Howard, E. Marchant, Clark Price—2, Mrs. J. Rice, Alice Spriggs, Albert Summers, Evan M. Tapp, W. W. Wishard, Mrs. Dr. J. H. Bogart.

Persons calling for any of the letters in this list will please say they are advertised.

HORACE E. JAMES, P. M. Rensselaer, Ind., Oct. 8, 1883

The Number of Public Schools.

According to the last report of the United States Commissioner of Education, General Eaton, Pennsylvania has the greatest number of public schools of any State in the Union. The following table is of interest. The reader's attention is invited to the letters opposite the names of States; "a," where the number of schools is indicated; "b," number of school-houses:

(a) Alabama.....4,671	(a) Mississippi.....88
(b) Arkansas.....708	(a) Missouri.....5,950
(b) California.....2,743	(a) Nebraska.....2,776
(b) Colorado.....249	(a) Nevada.....175
(a) Connecticut.....1,638	(a) N. Hampshire.....2,533
(a) Delaware.....460	(a) New Jersey.....1,538
(a) Florida.....992	(a) New York.....11,863
(a) Georgia.....5,735	(a) N. Carolina.....5,509
(a) Illinois.....12,324	(a) Ohio.....12,143
(a) Indiana.....5,545	(a) Oregon.....865
(b) Iowa.....10,791	(a) Pennsylvania.....18,386
(a) Kansas.....4,932	(a) Rhode Island.....819
(a) Kentucky.....4,436	(a) S. Carolina.....2,901
(a) Louisiana.....1,494	(a) Tennessee.....5,612
(a) Maine.....4,283	(a) Texas.....5,804
(a) Maryland.....2,609	(a) Vermont.....2,575
(a) Massachusetts.....5,538	(a) Virginia.....2,491
(a) Michigan.....6,325	(a) West Virginia.....3,725
(a) Minnesota.....3,925	(a) Wisconsin.....5,626

Massachusetts has 88 evening schools and Rhode Island 33, which are not counted in the above enumeration. In Mississippi, it is explained, that the school districts are the counties, with such cities of 1,000 or more inhabitants as may choose to organize separate districts. The figures given for Virginia count each grade of one teacher in the graded schools as one school.

Making Flowers of Soap-Bubbles.

A pretty experiment has been described by the well-known Belgian physicist, M. Plateau. He bends fine iron wire, so as to present the contour of a flower of six petals. The central ring to which the petals are attached is supported on a forking stand, which is stuck in a piece of wood. After oxidizing the wire slightly with weak nitric acid the flower is dipped in glyceric liquid so as to receive films in the petals and the central part. It is then turned up, placed on a table near a window and covered with bell jar.

For a little at first it appears colorless but soon a striking play of colors commences. In the experiment, M. Plateau describes, the flower continued showing modifications of color for ten hours, when dusk stopped observation. Next morning several petals had burst. The liquid used was of very mediocre quality. M. Plateau recommends preparation of the liquid thus: Dissolve a fresh piece of Marseilles soap, cut up into small pieces, in forty parts by weight of hot distilled water. Filter the mixture, mix thoroughly the solution with the solution with two of P. Glycerine. The solution should be left at rest till all the air bubbles are gone.—London Times.

Upon reptiles the fluid secreted in the head of the toad acts as a powerful irritant. On man it produces no effect beyond a slight local irritation.

Know

That BROWN'S IRON BITTERS will cure the worst case of dyspepsia.

Will insure a hearty appetite and increased digestion.

Cures general debility, and gives a new lease of life.

Dispels nervous depression and low spirits.

Restores an exhausted nursing mother to full strength and gives abundant sustenance for her child.

Strengthens the muscles and nerves, enriches the blood.

Overcomes weakness, wakefulness, and lack of energy.

Keeps off all chills, fevers, and other malarial poison.

Will infuse with new life the weakest invalid.

37 Walker St., Baltimore, Dec. 1882. For six years I have been a great sufferer from Blood Disease, Dyspepsia, and Constipation, and became so debilitated that I could not retain anything on my stomach, in fact, life had almost become a burden. Finally, when hope had almost left me, my husband seeing Brown's Iron Bitters advertised in the paper, induced me to give it a trial. I am now taking the third bottle and have not felt so well in six years as I do at the present time. Mrs. L. F. GIBBS.

BROWN'S IRON BITTERS will have a better tonic effect upon any one who needs "bracing up" than any medicine made.

LEVINOS' CANDY FACTORY.

PURE UNADULTERATED CANDY, made fresh every day. For quality of Goods and cleanliness in manufacturing, fully competition. HENRI LEVINOS, proprietor. Rensselaer, Ind., August 17, 1883.
