

THE ELECTIONS!

Our neighbor says, "The tidal wave has turned. Despite the mendacious vapors of that howling, unkempt, unprincipled and demagogic herd, the Democratic editors," etc. Such is the hifalutin announcement of the great rinky-befuddled blower of the Rensselaer Republican. But stand up Chapman! Shout.

New York Democratic by 18,000 or 20,000.

Mahone, repudiationist, and his radical allies completely floored in Virginia.

New Jersey Democratic. Maryland Democratic.

Radicalism but barely pulls through in their old strongholds of Pennsylvania, Massachusetts, Nebraska and Minnesota. The Republican party must go.

Out of seventy-four counties in Iowa all but two show Democratic gains.

Governor Butler had an awkward habit of telling very hard truths, and Massachusetts is not virtuous enough to enjoy that style of a man for Governor.

Tewksbury has been vindicated, the manufacture of leather from the hides of unfortunate humanity may be resumed, and the graceful rickety beauty of the Republican rejection exceedingly thereat.

Some of the "Stalwart" journals regret the Supreme Court recognizes such an instrument as the Constitution of the United States. The lament the decision on the Civil Rights bill. They prefer class legislation in favor of the negro.

The failure of the infamous legislature to pass the appropriation bill, leaves Purdue University in a bad way for funds, and unless some other means for the support of the institution can be devised, the doors will have to be closed. Except in regard to money matters, the institution is in a very prosperous condition—Rensselaer Republican.

Ah, well! The Legislature passed the appropriation bill but the duds of the Senate, one Hanna, Republican Lieutenant-Governor, refused to certify it to the Governor. Let the failure rest where it belongs.

The outcry of the radicals against Democrats for urging the very same objections to the civil rights bill as is now promulgated by the radical Supreme Court is not forgotten. A calm sense of obligation to the National Constitution argues that the centralizing views of Alexander Hamilton, which have prevailed ever since the advent of radicalism, must give way to the written law of the land and that the negro race in no sense is better than the white. Let our radical brethren who are whining over the late decision of the Supreme Court bottle up their wrath.

Senator Anthony has not "absorbed the American idea." Hear him in a recent number of the North American Review.

Although in drawing the line to exclude the dangerous and unworthy classes from participation in the Government, we exclude some, doubtless many, who are well fitted for it, and include others who are not, still this objection would lie against any test that could be applied. The test should be intelligence and virtue. These can not be measured or defined, and we think that in the imperfection of all human institutions, the property qualifications is the best that can be established, and that on the whole it excludes more of the unworthy and includes more of the worthy than any other test devised.

Went the Commonwealth wonderfully under the system, and until we find

another that commends itself better to our judgment we are not likely to abandon it—certainly not in the face of the practical results of unlimited suffrage in communities otherwise like our own.

The Chicago Times says: "The defeat of Mahone, as well it may, gives great satisfaction to the people of Virginia. His odious sway had been exercised so long that they can not easily realize that his downfall has been accomplished. The returns have surprised the most sanguine, and, dazed and delighted with their success, they are expressing their joy in the most enthusiastic demonstrations. Scarcely less satisfaction should be felt by respectable voters everywhere. Of all political bosses Mahone was the most despicable. He tyrannized over the State, and made the most unscrupulous and disgraceful use of his power. Officials were removed without cause, others were 'influenced,' voters were corrupted, frauds were perpetrated at the ballot boxes, and the political freedom of the people destroyed by the most shameless and oppressive use of political machinery. To the shame of the republican party it must be said that in this outrageous attempt to override the popular will he was warmly aided and abetted by the administration. His coalition with the republicans was encouraged by the leaders at Washington with both money and patronage, and his demands for assistance from this source how ever numerous, were always promptly met. The redemption of the state is therefore not only the overthrow of Mahone, but a rebuke to the administration which participated in his disgraceful work."

Commendatory Resolutions.

At a meeting of the officers of Jasper county, held at the Recorder's Office on November 5th, 1883, the following officers were present, to wit:—Hons. George W. Burk and Asa C. Prevost, Commissioners, Hon. R. S. Diggins, County Attorney, Geo. M. Robinson, Auditor, Charles H. Price, Clerk, Moses B. Alter, Treasurer, Jno. W. Powell, Sheriff, James T. Abbott, Recorder, D. M. Nelson, County Superintendent, Frank J. Sears, Coroner, Jas. A. Burnham, Deputy Clerk, Oliver P. Robinson, Deputy Sheriff.

On motion, Hon. George W. Burk was called to the chair, and James T. Abbott was elected Secretary.

The chairman stated the object of the meeting to be to take suitable action in relation to the retirement of Ezra C. Nowels as Auditor. On motion the chair appointed Charles H. Price, D. M. Nelson and John W. Powell a committee to draft resolutions, who reported the following which were unanimously adopted:

WHEREAS, By reason of the expiration of the term for which he was elected, Ezra C. Nowels, Esq., retired from the office of Auditor on November 1st, 1883, after four years of faithful service; Therefore be it resolved by his associates in office:

1. That during his administration as Auditor he has been a faithful, painstaking public servant, and has performed the intricate duties of that honorable and important position, with fidelity to the public and credit to himself.

2. That during his incumbency of said office he has been obliging and courteous to all who have had business to transact with him, irrespective of party affiliations or conditions in life, and has through his strict integrity, close application to the responsible duties of the office, and fine business qualifications, levated the office of Auditor of Jasper county, Indiana, to a standard of excellence now recognized to be equal to that of any office in the State.

3. That in his retirement from said office the public loses a popular and efficient officer who was watched with jealous care by his interests, and his associates in office a firm friend and pleasant companion, who join with the general public in saying, "Well done, good and faithful servant."

4. That we will ever cherish a kindly remembrance for Mr. Nowels, and we trust that he may be successful in any business undertaking in which he may embark, and we also express the hope that he may "live long and prosper."

5. That a copy of these resolutions be furnished the Rensselaer Republican, Democratic Sentinel and Remington News for publication, and that a copy of the same be presented to Mr. Nowels.

On motion the meeting adjourned sine die.

GEO. W. BURK, Chairman.

JAMES T. ABBOTT, Secretary.

What will the Republicans do next year? They will be forced to make an honest fight, and they will get "licked." In 1876 they counted Hayes in although he had less votes than our man, and in 1880 Dorsey and greenbacks beat Garfield's election, and "Chet" is about all they have to show for it. Since then Ben Butler and the Democratic party generally have been stripping the "G. O. P." of all its hypocrites. It is about time for a funeral. The Republican party must go.

WOOD! Wood!! Wood!!!—Dear reader, that wood you promised us.

MRS. C. W. THOMAS,

—THE GREAT—

MAGNETIC AND BOTANIC PHYSICIAN!

Will be at the Makeover House until October 5th, 1883, and return October 29th, 1883.

Who cures all kinds of chronic diseases known to the human family, from a cancer down to a felon; and her remedy is chiefly Magnetism, some cases she uses herbs, roots and barks—God's natural remedies—but she cures all her patients who do as she directs.

Below we give some of the names of patient whom she has cured, as references:

In the vicinity of Attica, Ind., Mrs. Catherine Galaway, Cancer on breast and tongue; John Smith, Dyspepsia; and there are living in that vicinity over one hundred people that she has cured.

At Williamsport, Wm. Slaughter, S. Vitus Dance; Mrs. E. A. Tuttle, Cancer on breast.

West Lebanon, Miss Ella Butler, Cancer on arm.

Carbondale, Mrs. Celina Brier, Catarrh; James F. Garnet, Blindness and Asthma; Minny Crusan, of spinal disease and dislocated ankle; Wm. Brier, of dislocated shoulder of 20 years standing, and weak breast, and his son and wife of different diseases.

At Alvin, Ill., many cases of Piles and Female weakness; Mrs. Harper, of Tumor.

Remington, Jasper county, Ind., Thomas Harris' family had Scrofulous sore eyes; his child had not had her eyes open for three months, and one part of her spine appeared to be entirely gone, and Mrs. Thomas said when the spine was cured the eyes would open, so she treated her spine until the place filled up and, on the 13th of September, in the afternoon, her eyes came open, and looked bright and nice as though there had been nothing the matter with them.

His wife, who was nearly blind, is getting well.

A little girl, for whom he has spent six hundred dollars is getting well. Mrs. McDougle, wife of J. O. B. McDougle, had been sun struck, years ago, and the doctors had nearly ruined both her system and mind. She became satisfied that their poisons were killing her, and quit taking them, saying she had rather die a natural death than they should kill her with poison. She employed Mrs. Thomas, and in two weeks was much better to-day she is nearly well, and one of the liveliest ladies in Remington.

Brookston, Ind., John Reed, born deaf, or if he ever heard in his life his folks do not know it; Mrs. Thomas diagnosed the case and said it could be cured, she has treated him three months and he hears everything, but as yet has not learned to talk, but probably will in time. He is nearly 10 years old.

BROOKSTON, IND., Sept 17th, 1883.

Mrs. Thomas came here in June last. I had been suffering with a very bad cough for several months, my wife and daughter were apprehensive that I was going into consumption. Mrs. Thomas said she could cure me, and in 48 hours after treatment the cough was entirely gone, the serenity left my lungs, and I am as well as most men of my age. My wife was sick with disease of the stomach, and shared her completely. My daughter had been quite seriously diseased for several years, and she cured her entirely. Mrs. Thomas cured a great many patients here in my house, and as far as I know, they are all better, and many of them entirely well. Myself and family were treated without medicine, that is, she cured us by Magnetism.

AMERICAN ENTERPRISE.

No invention of the nineteenth century has worked a greater revolution in household economy or conferred more of a benefit on humanity than the sewing machine.

The first productions were crude and uncouth in the extreme, and it was reserved for American skill and ingenuity to bring forth a machine of any practical value.

In order to appreciate the great advancement which has taken place it is only necessary to compare one of the machines built during the infancy of the invention with one of the latest improved "Light-Running New Home."

All the really good points contained in other machines have been utilized in its construction. Many new improvements and devices have also been added, the result of which is a machine as nearly perfect as it is possible to make one.

For simplicity, durability, ease of management and capacity for work, the "Light-Running New Home" has no rival, and the happy possessor of one may rest assured that he or she has the very best the world affords.

All who send for the company's new illustrated catalogue, and enclose their advertisement (printed on another page) will receive a set of advertising novelties, of value to card collectors. Their address is, NEW HOME SEWING MACHINE CO., 50 Union Square, New York.

CONQUERING THE WILDERNESS

In American history there are no more interesting figures than the Heroes and Heroines of the Border.—Bold, dashing, adventurous and patriotic; loyal to friends, to country and to the interests of society, their work was singularly effective in the advancement of American civilization. With seeming recklessness, their efforts were in the interest of law and order, and the people owe them a debt of gratitude they do not forget. Their page in history is as fascinating as it is honorable, and there is a peculiar pleasure in reading the narrative of their wonderful exploits.

The times which produced those heroes and heroines mark a period in American history of absorbing interest—like to old and young. It is proper that it should be so. These hardy pioneers coupled virtue with courage, humanity and love of country with the stern duties of frontier life and battle, and the example of their lives not only interest but strengthens our faith and admiration in human courage and unselfish purpose.

In American pioneer history there are three distinct eras marked as distinctly by three geographical divisions; from the Allegheney Mountains to the Mississippi, marking the first; from the Mississippi to the Rocky Mountains the second; California and the Pacific Slope the 3rd. The settlement of these vast regions developed great leaders, whose achievements have made them justly and widely famous. They have a warm place in the hearts of the people, and a prominent one in their admiration. It is appropriate that their achievements should be recorded, and we note with pleasure the forthcoming of a new book, now ready from the press of N. D. Thompson & Co., Publishers, New York and St. Louis, Mo., called: Conquering the Wilderness, or New Pictorial History of the Life and Times of the Pioneer Heroes and Heroines of America.

It is written by Col. Frank Triplett, an accomplished writer, whose literary qualifications and great experience on the frontiers are said to eminently fit him for so noble a task.

A special feature of the book is its up to date and profuse illustration, embracing 220 superb engravings, illustrating incidents and persons—the latter embracing nearly 100 lifelike portraits, of pioneer leaders, never before given—men and women—which make it a sort of picture gallery, as well as a book of thrilling narratives, and will endow the book a charm and interest not to be overstated.

It is sold by subscription, through universal agents, and presents an opportunity to acquire a valuable money worth of knowledge. We advertise it in our columns.

SUFFER

no longer from Dyspepsia, Indigestion, want of Appetite, loss of Strength, lack of Energy, Malaria, Intermittent Fevers, &c. BROWN'S IRON BITTERS never fails to cure all these diseases.

Boston, November 26, 1881.

BROWN CHEMICAL CO. Gentlemen:—For years I have been a sufferer from Dyspepsia, and could get no relief (having tried everything which was recommended) until, seeing on the advice of a friend, who had been benefited by Brown's Iron Bitters, I tried a bottle, with most surprising results. Previous to taking Brown's Iron Bitters, everything I ate distressed me, and I suffered greatly from a burning sensation in the stomach, which was unbearable. Since taking Brown's Iron Bitters, all my troubles are at an end. Can not say too much without any disagreeable results. I am practically another person. Mrs. W. J. Flynn, 30 Maverick St., E. Boston.

BROWN'S IRON BITTERS acts like a charm on the digestive organs, removing all dyspeptic symptoms, such as tasting the food, Belching, Heat in the Stomach, Heartburn, etc. The only Iron Preparation that will not blacken the teeth or give headache.
