### SHARPE'S STUMP PULLER.

I purchased a one-fourth interest in one of Sharpe's Practical Grub & Stump Extractors from John Mellette, on the 2d day of April, 1884.—Since then I have used the Machine five and one-half days, grubbing three acres of heavy grubs in that time. I have taken out one green jack-oak grub that measured two feet in diameter at the ground, with single power. I can endorse the machine as doing more than is claimed for it by the agents. When I have used the machine five days more it will have paid for itself.
