

Postal Points.

[From First Page—Concluded.]
of letters received there daily
is about 15,000.

A newspaper is not forwarded in the mails unless postage is fully prepaid, so don't think you can beat Uncle Sam by attaching a one cent stamp when two are required.

Third and fourth class matter can be mailed in the same package, provided it does not exceed four pounds in weight but it subjects the entire package to fourth-class rates.

Postal cards are handled with as much care and promptness in the matter of dispatch and delivery as though they were letters, even though the matter thereon is printed.

Don't forget that all parcels deposited for mailing must be so wrapped that they can be examined without destroying the wrapper, otherwise letter rates of postage are charged.

There are thousands of little articles now sent by express which can be more safely, quickly, and carefully carried by mail if registered. The fee is only ten cents in addition to the postage.

In making a present of a book it is permissible to write an inscription or dedication upon the cover or one of the blank leaves, but it must not contain anything that partakes of personal correspondence.

Written visiting cards are regarded as first class matter and subject to letter rates. If they are printed they can be sent at the rate of one cent for each two ounces, that is, if the card is of an embellished design.

In all your correspondence, whenever it can be done, give the street and number as well as county and state. This save much time and is a sure preventive against errors of delivery. It is much better to spell the name of the state in full.

A box with its lid nailed on is held as being closed against inspection and is therefore subject to letter rates. Postmasters have no right to pry open such a box and then nail it up again. Even if they had the right to do so, they have not the time.

A tax bill, a receipt, an abstract of title, a power of attorney, a promissory note, mortgage, a draft or check, cancelled checks, coupons, an invoice bill, a statement, a pension voucher, a telegraphic dispatch, a bank note, or any document with writing upon it, is subject to letter rates.

Teacher's State Certificate.

At a recent meeting of the State Board of Education authority was given to the County Superintendents of the State to hold examinations for TEACHERS' STATE CERTIFICATES. The examination will be divided into three parts, and the questions prepared by the State Board will be presented to applicants on the last Saturday of February, March and April.

Applicants will be examined as follows:

On the last Saturday of Feb.—In Arithmetic, Grammar, Physiology, Geography, Physics and U. S. History.

On the last Saturday in March.—In Algebra, Reading, Science of Teaching, Physical Geography, Zoology, U. S. Constitution and Moral Science.

On the last Saturday in April.—In Geometry, Literature, Orthography, Rhetoric, Botany, General History and Penmanship.

Applicants for State Certificates must have taught school not less than forty-eight months, of which not less than sixteen shall have been in Indiana—they shall present to the County Superintendent, before entering upon the examination, satisfactory evidence of good moral character, and professional ability, and pay the sum of five dollars, each the sum prescribed by law, which in no case can be refunded.

The manuscripts, fees and testaments will be sent immediately to the Superintendent of Public Instruction, and here be examined and graded by the State Board of Education. Certificates will be granted to applicants who make a general average of seventy-five per cent, and do not fall below sixty per cent, in any subject.

To the teachers of our county who desire to obtain State Certificates, I will say, that these examinations will be held in connection with the Regular Monthly Examinations, at the time stated.

D. M. NELSON, Co. Supt.

A Great Discovery.

Mr. William Thomas, of Newton, Ia., says: "My wife has been seriously affected with a cough for twenty-five years, and this spring more severely than ever before. She had used many remedies without relief, and being urged to try Mr. King's New Discovery, did so with most gratifying results. The first bottle relieved her very much, and the second bottle has absolutely cured her. She has not had so good health for thirty years." Trial Bottles Free at F. B. Meyer's Drug Store. Large size \$1.00. 35-6

Judge Ward returned from Missouri morning and resumed his seat on the bench. Judge Huff added in his absence.

Who Killed Cock Robin?

Aside from the damaging effects of the "Mulligan letters" and Blaine's unsavory reputation as a stock-jobber, at least dozen murderous agencies are required to have conspired to encompass the political death of the Republican Presidential cand'd te, to wit:

1. Rev. Mr. Ball's slanders against Cleveland, fomented by Blaine and circulated by his managers.

2. The libel suit against the Indianapolis Sentinel for publishing a truthful history of his marriage.

3. The letter to William Walter Phelps, wherein he substantially confessed to every material allegation of the Sentinel.

4. His dodging the vote on the prohibitory amendment at the Indiana State election, and the puerile reason assigned therefor, in an extraordinary speech to his neighbors.

5. The unexpected strength of the St. John movement.

6. The wide-spread revolt of the mud-wamps.

7. The retaliatory bolting of the "Folger avengers" in New York State.

8. The "hot blast of Conkling's silence" in response to Blaine's "turkey-gobbler" speech.

9. The bombshell launched into the Blaine camp by Mrs. Merrill.

10. The "feast of millionaires" at DeMolay's and the raising of an enormous corruption fund for the purchase of New York, New Jersey and Connecticut.

11. Dr. Burchard's telling all terrible utterance of "Run, Romanism and Rebellion."

12. Last though not least, a lack of the requisite number of votes.

These are the conspirators that killed Cock Robin,

NO NOTICE is hereby given that notice is given by the undersigned, Miller & Tanner, to the Rotisserie Machine Co. will not be paid.

JOHN E. MILLER.
