

FRIDAY OCTOBER 16, 1885.

A Michigan judge has decided that publishers have not a right to print complaints as filed in court, and by so doing they assume responsibility for all the allegations in them.

Donavin's Tennesseans have sung 178 nights (about equal to seven months) in New York City and Brooklyn—something never done before or since by any musical organization. They promise us as good an entertainment here Saturday evening of next week as they give any place.

Many farmers are taking precautionary measures to prevent the killing of quails on their farms this fall and winter. The last severe winter nearly exterminated them, and indiscriminate slaughter now would almost result in their extinction. Protection will afford them an opportunity to multiply. Let them be protected.

Foraker, the Republican candidate for Governor, carries the State of Ohio by about 15,000 majority. The Legislature will probably be Democratic. Blaine carried the State last fall by 32,000 majority.

The republican and prohibition candidates for Mayor of Indianapolis bear the same name—Denny. It is claimed many scratched ballots were counted for the republican Denny that were more probably intended for Prohibition Denny. A recount will throw out these ballots and count in the Democratic Mayor.

One of the reasons Donavin's Tennesseans are so popular is because their program is so varied that all tastes get something to please them. Sacred, secular, classic and mirthful music, and no long tedious waits during the performance. You are sure to be pleased. Go.

An exchange states that the latest swindle relating to spurious money is the split bank note fraud. A twenty-dollar bank note is taken, and by some ingenious method the note is slit in two and the raw side is "doctored up," and each half is passed as a genuine twenty-dollar note. The work is done so artistically in most cases that it is difficult at first to detect the fraud.

Commenting on the result of the recent election in Indianapolis the Sentinel of that city says:

Our candidate for Mayor is defeated only by a trifling majority, but we have elected the City Clerk and broken up the large majority heretofore against us in the City Council and Board of Aldermen. Comparing the result with the old days when the police and ballot boxes were manipulated by an unscrupulous gang of ward politicians in the Republican party, and when, in consequence, majorities almost reaching into the thousands were rolled up against us—the city Democracy are to be generously congratulated upon yesterday's achievements. This indicates that Indianapolis is gradually shaking herself loose from Republicanism and that Marion county may safely be placed in the list of the reliable Democratic counties of the state.

Again it says:

It may be regarded as a remarkable coincidence that the two parties yesterday elected an equal number of candidates. On the city ticket proper the Republicans elected the Mayor and the Democrats the Clerk; in the Aldermanic District each party elected five members, and in the Councilmanic races each elected twelve members and both contributed to the election of the 25th member, Henry Smith, the Independent candidate.

Monticello Herald: O. S. Dale, the new postmaster, took possession of his office at the close of business last Saturday night. The retiring postmaster was appointed in February, 1871, at which time the salary was \$590 per annum. The office then belonged to the fourth class and continued as such until April, 1877, when the salary exceeding \$1,000 it became a third class or Presidential office. The pay is based upon the receipts of the office and is at present \$1,200 per year, which is \$200 less than it was a year ago. This falling off is due to the reduction of postage and not a decrease in business. Taking the postoffice receipts as an index to the commercial affairs of the town, Monticello has more than doubled in growth within the past fifteen years. That we have made rapid strides in building up the place is fully attested by the many handsome and substantial improvements of recent date. The large increase of business noted as to the postoffice we think will be found to exist in every other branch of business and that the former may be regarded as a very fair criterion of the town's growth.

Bro. Huff, of the Herald, made a very creditable postmaster served long, gave very general satisfaction, retires without a murmur, and presents his readers with a very happy valedictory.

Goodland correspondent of the Kentland Gazette: Rensselaer is kicking for an extension of the C. & G. S. to that place. Some years ago a few of our people did the same thing, but don't it now. If Rensselaer gets the road, and with it, such a fleecing as we got, she will kick harder the other way by and by.

Kentland Gazette: Conductor Button who has been in the employ of the Pan Handle for near twenty-five years was laid off last week on account of color blindness.

White County Democrat: J. W. McEwen, editor of the Rensselaer Sentinel, paid our office a call Monday. Mr. McEwen is one of the kindest hearted men we know. His has been a long and faithful service in the cause of democracy and we are glad to learn that he is liable to reap the reward of his devotion in the shape of the Postmastership at Rensselaer. If constancy deserves reward, then our old friend deserves the position to which he aspires, and the democrats of Jasper county will make a mistake if they do not recognize the claims of the veteran editor of this Congressional district.

The Tennesseans Coming.

Donavin's Original Tennesseans, the old and only Colored Concert Company which assisted in building Central Tennessee College, will give one of their incomparable concerts in the Opera House, Rensselaer, Saturday, October 24th.

Rev. E. P. Baker, of Chicago, conducted the services at the Presbyterian church last Sunday, and so pleased the people that an effort will be made by the congregation to secure his services.

The Donavin's Coming.

Donavin's Original Tennesseans are all of extraordinary voice, brought by the best culture and years of constant practice to a high state of cultivation. They are no humbug no burnt cork artists, but genuine, first class singers. No lover of song, the best of all music, should fail to hear them. They appear at the Opera House, Rensselaer, Saturday, October 24th.

What the Tennesseans Claim.

That they have the best shouting tenor living.

That they have the purest and sweetest colored soprano travelling.

That they have the very best basso with any company.

That they have the best colored tenor travelling in America.

That the present is the best chosen and most novel program of any colored company.

That as a chorus they are unapproachable.

That as a company they are the best.

He was with a party on their way to Beaver Lake and the Kankakee river on a hunting expedition. The boy died in two or three minutes after receiving the wound. Excitement in Texas.

Great excitement has been caused in the vicinity of Paris Tex., by the remarkable covey of Mr. J. E. HOW VOLTAIRE CURED THE DECAY OF HIS STOMACH.—In the "Memoirs of Count Segur" there is the following anecdote: "My mother, the Countess de Segur, being asked by Voltaire respecting her health, told him that the most painful feeling she had arose from the decay in her stomach and the difficulty of finding any kind of aliment that it could bear. Voltaire, by way of consolation, assured her that he was once for nearly a year in the same state, and believed to be incurable, but that, nevertheless, a very simple remedy had restored him. It consisted in taking no other nourishment than yelks of eggs beaten up with the flour of potatoes and water." Though this circumstance concerned so extraordinary a person as Voltaire, it is astonishing how little it is known and how rarely the remedy has been practiced. Its efficacy, however, in cases of debility, cannot be questioned, and the following is the mode of preparing this valuable article of food as recommended by Sir John Sinclair: Beat up an egg in a bowl, and then add six table-spoonfuls of cold water, mixing the whole well together; then add two table-spoonfuls of farina of potatoes; let it be mixed thoroughly with the liquid in the bowl; then pour in as much boiling water as will convert the whole thing into a jelly, and mix it well. It may be taken alone or with the addition of a little milk in case of stomachic debility or consumptive disorders.—Scientific American.

Hundreds of testimonials attest their great curative powers. Only fifty cents a bottle at F. B. Meyer's. Aug 29-2.

For toothaches, where a cavity exists, there are many remedies in common use, but, says an exchange, none seem to relieve as equal parts of hydrate of chloral and gum camphor rubbed together. Saturate a piece of cotton with the mixture and put it into the cavity of the tooth covering it with dry cotton. Care must be taken not to allow the remedy to come in contact with the inside of the mouth, as it may produce severe burning.

Thousands Say So.

Mr. T. W. Atkins, Girard, Kansas writes: "I never hesitate to recommend your Electric Bitters to my customers, they give entire satisfaction and are rapid sellers." Electric Bitters are the purest and best medicine known and will positively cure Kidney and Liver complaints. Purify the blood and regulate the bowels. No family can afford to be without them. They will save hundreds of dollars in doctor's bills every year. Sold at fifty cents a bottle by F. B. Meyer.
