

A LIBERAL OFFER.

Five Thousand Dollars to Any Charitable Institution,

If It Cannot Be Done as It Is Stated.

Rochester, N. Y., Union and Advertiser.
Friends of ex-President Arthur are very much disquieted.

Of course he is not going to die! He is in the hands of a very particular physician. His doctor does not call it Bright's Disease! No, it is stomach disorder that he is suffering from now, and every few hours he takes a cold, and from time to time many other symptoms are developed. These symptoms the public should know are really secondary to Bright's Disease.

His physicians say that everything that medical skill can do for him is being done.

This is not so.
The case is a prominent one because the General is an ex-President; and yet there are thousands of farmers quietly dying, in their farm-houses, of secondary symptoms of Bright's Disease, called by every other conceivable name; thousands of workmen, likewise dying, leaving helpless families; hundreds of thousands in all walks of life who have sickened, and are likewise dying, helpless victims of powerless physicians.

Eight years ago a very well-known gentleman was about to enter upon large commercial transactions. His medical adviser quietly dropped into his office one day and told his confidential clerk that he would be dead in three months, and that he ought to settle up his business affairs at once.

That man is alive and well to-day, yet he was given up as incurable with the same disease that is killing General Arthur.

Our reporter met this gentleman yesterday, and in conversation about the General's case he said:

"I will give \$5,000 to any charitable institution in the State of New York, to be designated by the editor of the New York World, the editor of the Buffalo News, and W. E. Kisselburgh of the Troy Times, if Warner's safe cure (taken according to my directions), which cured me eight years ago, can not cure General Chester A. Arthur of Bright's disease, from which he is suffering."

"Now I want you to understand," he said, "that we do not profess to make new kidneys, but we do know from personal experience, and from the experience of many thousands of similar cases, that we can stop the consumption of the kidneys. Many a man has gone through life with one kidney without inconvenience. Thousands of people have lived a majority of their life with one lung. They did not have a new lung made. We do not make new kidneys, but if the kidney is not consumed too much we can stop disease and prolong life if taken in time."

This offer comes from H. H. Warner, proprietor of Warner's safe cure, of this city. Mr. Warner also said: "My dear sir, there are Governors, Senators, Presidential candidates, members of Congress, prominent men and women all over the country whom I personally know have been cured of disease, such as General Arthur suffers from, by our Warner's safe cure, but owing to the circles in which they move they do not care to give public testimony to the fact."

Mr. Warner is interested in General Arthur's case because he is personally acquainted with him, and he says that it is a shame that any man should be allowed to die under the operation of old-fashioned, powerful cathartics, which have no curative effects, rather than that a modern, conceded specific for kidney disease, whose worth is acknowledged world-wide, should save him.

"If you doubt the efficacy of Warner's safe cure," say the proprietors, "ask your friends and neighbors about it. This is asking, but little. They will tell you all you want to know." "We have kept a standing offer before the public for four years," says Mr. Warner, "that we will give \$5,000 to any person who can successfully dispute the genuineness, so far as we know, of the testimonials we publish, and none have done it."

Were General Arthur a poor man, unable to be left "in the hands of his physician," he would use that great remedy, as many thousands of others have done, and get well. How absurd, then, for people to say that everything that can be done is being done for the ex-President, when the one successful remedy in the world that has cured, or that can cure, a case like his has not been used by them.

Moved to Tears.

"John?"

"Yes, dear."

"Do you remember coming home last night and asking me to throw you an assorted lot of key-holes out of the window, so that you might find one large and steady enough to get your latch-key in?"

"Yes, dear."

"And do you remember the night before how you asked me to come down and hold the stone steps still enough for you to step on?"

"Yes, dear."

"And the night before that, how you tried to jump into the bed as it passed your corner of the room?"

"Yes, dear."

"And still another night, when you carefully explained to me that no man was intoxicated as long as he could lie down without holding on, and then attempted to go to bed on a perpendicular wall?"

"Yes, dear."

"John, do you realize that you have come home sober but two nights in the past week?"

"Have I, dear?"

"That's all, and you ought to be ashamed of yourself, too. The idea of a man of your age—But, John, why, you're crying. There, there, dear, I didn't mean to be too severe. After all, you did come home sober two nights."

"Yes, that's what makes me feel so bad."

And then the meeting adjourned.—Chicago Rambler.

Our Worst Enemies,

Next to our vices, are our follies. Among them is the imperiling of future bodily comfort, and the average tenure of life to which persons of moderately good constitutions are presumably entitled, by imprudence in eating and drinking, and the reckless use of drugs. It is one of the happy capabilities of Hostetter's Stomach Bitters that it can repair damages thus inflicted. When the blood is thin and watery, the bowels out of order, the complexion and tongue both giving evidence of biliousness, there is a necessity for repairs upon the human temperament obvious enough to startle its possessor. A course of the Bitters, the abandonment of "drugging" for relief, and a common-sense diet and mode of life—these will speedily produce a change for the better. What quinine for fever and ague, and mercury for biliousness and constipation, won't do, the Bitters will. It also relieves rheumatism and neuralgia, and inactivity of the kidneys.

The Children.

I know that a sweet child is the sweetest thing in nature, not even excepting the delicate creatures that bear them.—Charles Lamb.

Important.

When you visit or leave New York City, save baggage, expressage, and \$3 carriage hire, and stop at the Grand Union Hotel, opposite Grand Central Depot.

Families can live better for less money at the Grand Union Hotel than at any other first-class hotel in the city.

Scholastic.

Speaking of school stories, I went to school myself once, and one day when visitors were present the teacher thought he would show off the spelling and defining class. Things went on well until the word "singular" was given out. There seemed to be a diversity of opinion as to the meaning of the word, one saying it meant one thing and another another, until the teacher, by the way of throwing light upon the matter, asked:

"Now, if I should say a man was a singular man, what should I mean?" whereupon a bright boy shouted, "A man that didn't have any wife!"

A teacher asked one of her pupils the other day to give her the sum of five and six.

"Leven," was the reply.
"You shouldn't say 'leven,'" she said. "Say 'eleven' always. Next boy, how many are five and seven?"

"E-twelve!" was the prompt reply.

This must prove that Gen. Walker is right when he says that our public-school children learn logic rather than numbers in their study of arithmetic.—Louisville Courier-Journal.

The true secret of success is merit. This is so with Red Star Cough Cure, a purely vegetable compound, entirely free from opiates, poisons and narcotics, and which has received the public endorsement of physicians and chemists everywhere. Twenty-five cents.

The New Judge Charges a Jury.

He said: "Gentlemen of the jury, charging a jury is a new business to me, as this is my first case. You have heard all the evidence as well as myself; you have also heard what the learned counsel have said. If you believe what the counsel for the plaintiff has told you, your verdict will be for the plaintiff; but if, on the other hand, you believe what the defendant's counsel has told you, then you will give a verdict for the defendant. But if you are like me, and don't believe what either of them has said, then I'll be—if I know what you will do. Constant, take charge of the jury."—Medical and Surgical Reporter.

The Vice President of the City Brewery, Mr. J. Helms, of Louisville, Ky., was entirely cured in one week of a severe attack of rheumatism by St. Jacobs Oil.

A GLASGOW physician tells of a patient who was troubled with foul eruptions, the odor of the gas coming from his stomach being disagreeable to himself and all about him. Once his breath caught fire from a lighted match coming near the mouth; doubtless due to the development of carburetted hydrogen in a very disordered stomach. Now that the country is so prolific in useful gas wells, men's stomachs can be devoted to better purposes than developing their own illuminating gas.—Dr. Foote's Health Monthly.

"Blood Will Tell."

Yes, the old adage is right, but if the liver is disordered and the blood becomes thereby corrupted, the bad "blood will tell" in diseases of skin and throat, in tumors and ulcers, and in tuberculosis in the lungs (first stages of consumption) even although the subject be descended in a straight line from Richard Cœur de Lion, or the noblest Roman of them all. For setting the liver in order no other medicine in the world equals R. Pierce's "Golden Medical Discovery." Try it, and your "blood will tell" the story of its wonderful efficacy.

A Cure of Pneumonia.

Mr. D. H. Barnaby, of Owego, N. Y., says that his daughter was taken with a violent cold which terminated with pneumonia, and all the best physicians gave the case up and said she could live but a few hours at most. She was in this condition when a friend recommended DR. WM. HALL'S BALM FOR THE LUNGS, and advised her to try it. She accepted it as a last resort, and was surprised to find that it produced a marked change for the better, and by persevering in its use a cure was effected.

My wife was taken sick with rheumatism. The good effects of Athlete's ointment were felt with the first dose, and after twenty-four hours, use all pain had disappeared. After using one bottle she could sit up. L. R. Stricklin, Raleigh, Ill.

At times I have been a great sufferer. I tried all kinds of remedies, but found no relief for my complaint until I commenced using Ayer's Sarsaparilla. Ten bottles of this medicine completely cured me."

"For thirty-eight years I suffered with Scrofula. When a child I had running sores on my knees and ankles, from which pieces of bone worked out. After these were healed, my eyes became sore and painful, and although I tried many remedies, nothing did me any permanent good until I commenced taking Ayer's Sarsaparilla. Four bottles of this medicine performed wonders for me."—EMMA TIPTON, Alton, O.
