

FRIDAY APRIL 22 1887

Entered at the postoffice at Rensselaer, Ind., as second-class matter.

A genuine case of leprosy is reported in Louisville, Ky. It is said to have been contracted in the Sandwich Islands, three years ago.

In the pension bureau the are now employed more ex-soldiers than ever before. This state of things has been brought by the Commissioner bouncing Republican civilians and filling the places with Democratic soldiers.

On Wednesday last in the Jackson Circuit Court Judge Collins sustained the demurrer to the answer to the Bohemian oats note cases. This is an important matter, for by the ruling the collection of all these notes is made void.

"I know that my Democratic fellow citizens," said John Sherman to the Birmingham folks, "are just as honest and serious as I am." In response to which the Hartford Telegram promptly and truthfully responds: "Yes! and a thousand times more so."

The South Bend Times says the "Multiplex wheat," a companion swindle to Bohemian oats, is the latest dodge for catching the unwary farmer who is too poor to subscribe for a newspaper, and relieving him of his hard-earned dollars.

A Frankfort paper is in favor of Cal. Matson as the democratic candidate for governor in '88. What's to become of usurper Smith?—Monticello Herald.

It is very probable Mr. S. will be returned to the Senate from his district, which will be more annoying to the Republicans than if elected Governor. He made capital work in thwarting the radical thieves in their attempt to steal the offices of United States Senator and Lieut. Governor.

A Democrat who has not the honor and manhood to concede Lieutenant Governor Robertson's right to discharge all the duties devolving upon the office to which he was elected is not entitled to respect or recognition as a law abiding citizen. Such a cowardly politician deserves the supreme contempt of the entire community.—Monticello Herald.

Judges Hawk and Mitchell of the Supreme Court, and Circuit Judge Ayres all agree that the election of Lieutenant Governor was unconstitutional and invalid. The Democrat who would concede what the Herald suggests would be a coward indeed, and deserving of "supreme contempt."

The Republican aspirants to the Presidency are pilgrimage in the interest of their respective booms: Sherman has been South; visited, shed tears and strewed flowers over the grave of 'Lize Pinkston, then arranged details with her heirs in regard to his candidacy.

Blaine has been wist to ascertain to what extent his "Mulligan Letters," "Little Rock" and other questionable transactions would figure against him. While absent the wires have been freighted with bulletins regarding his health, the object being to ascertain the extent of anxiety and sympathy they might occasion. At most he had a slight cold, from which he suddenly recovered on ascertaining that Conkling and Edmunds understood his trick, and would expose it in due time. On passing thro' Indianapolis he did not inquire as to the status of his libel suit.

WANTS!—Ben Harrison wants his fee, and Bob Robertson wants President A. G. Smith to pay it.

A FALSE REPORT.

VALPARAISO, IND., April 17, 1887. To the Editor of the Sentinel:

A Chicago Inter-Ocean special from Wabash, Ind., of the 15th inst. says: "A serious epidemic is raging among the students of the Normal school at Valparaiso. A few days since the body of Charles Purdy, of Wabash county, was brought home from the Normal school for burial. He had died from cerebro-spinal meningitis. Thirteen of the students of the Normal are now down with the scourge, and the closing of the school seems inevitable. Mr. Lincoln Gwynn, a well-known educator, is among the number critically ill." The charge that "a serious epidemic is raging among the students of the Normal school at Valparaiso" is a lie manufactured out of the whole cloth. There is not a single case of sickness in the school. The young man Purdy, from Wabash county, whose death from cerebro-spinal meningitis is made the cause of this malicious slander, came to Valparaiso sick, and never entered the Normal school.

There is not a single case of cerebro-spinal meningitis in the city. The health of the Normal students has never been better than at the present time. No epidemic of any kind; no sickness of any kind. The school is more largely attended than at any previous time. The attendance aggregates over 2,000 this term. There is no "well-known educator" by the name of "Mr. Lincoln Gwynn" connected with the school; hence he could not possibly be "among the number critically ill." The special is a malicious libel upon Valparaiso and the Northern-Indiana Normal school.

Fraternally Yours,
E. ZIMMERMAN,
Editor of the Messenger.

The recent bit of political enterprise on the part of the New York Tribune seems to have been quite unfortunate. To array the soldierly element against the Democracy that paper attempted to have polled the various posts of the Grand Army of the Republic to ascertain the feeling against the President's private pension vetoes. With the answers received it was hoped that political capital might be made against the next year's contest. The scheme was nipped in the bud as soon as it came to the knowledge of the grand commander, who forthwith issued instructions to the posts not to make any response to the overtures of the Tribune. It is said that before action was taken by the grand commander that the commander of the Wisconsin department had already forbidden any reply to be made to the inquiry. Those who were in favor of unlimited pensions at the last national gathering of the Grand Army post were largely in the minority.

The Scott Festival and Entertainment.

This entertainment was a grand success, especially when considered from a financial standpoint. And everyone that partook of the bounteous supper pronounces it excellent. The pupils in the literary part of the programme, taking into consideration the short time spent in the preparatory work, did well. The costumed characters all made a beautiful and representative appearance, the representation being characteristic of the one represented.

We surely are grateful to all who so kindly assisted us, and so liberally donated for the supper. Our thanks to all. The money will be spent as judiciously as possible, and for the best standard works only.

The receipts and disbursements are as follows:

Receipts of the evening	\$222.53
Disbursements:

ASTONISHING SUCCESS:

It is the duty of every person who has used BOSCHER'S GERMAN SYRUP to let its wonderful qualities be known to their friends in curing Consumption, severe Cough, Croup, Asthma, Pneumonia, and in fact all throat and lung diseases. No person can use it without immediate relief. Three doses will relieve any case, and we consider it the duty of all Druggists to recommend it to the poor, dying consumptive, at least to try one bottle, as 80,000 dozen bottles were sold last year, and no one case where it failed was reported. Such a medicine as the GERMAN SYRUP cannot be too widely known. Ask your druggist about it. Sample bottles to try, sold at 10 cents. Regular size, 75 cents. Sold by all Druggists and Dealers in the United States and Canada.

ENJOY LIFE

What a truly beautiful world we live in! Nature gives us grandeur of mountains, glens and oceans, and thousands of means of enjoyment. We can desire no better when in perfect health; but how often do the majority of people feel like giving it up with disease, when there is no occasion for this feeling, as every sufferer can easily obtain satisfactory proof, that GREEN'S AUGUST FLOWER will make them free from disease as when born. Dyspepsia and Liver Complaint are the direct causes of seventy five per cent. of such maladies as Biliousness, Indigestion, Sick Headache, Costiveness, Nervous Prostration, Dizziness of the Head, Palpitation of the Heart, and other distressing symptoms. Three doses of AUGUST FLOWER will prove its wonderful effect. Sample bottles, 10 cents. Try it.

Rev. B. F. Ferguson, of Rensselaer, delivered an able sermon at the M. E. church Sunday night, to an interested and crowded house. Mr. Ferguson is well known and highly respected in this town, having lived here several years ago.—Francesville Era.

A WONDERFUL BOOK.

An agency for one of J. W. Bush's books is about as valuable as a well-stocked farm without any mortgages. He seems to know by intuition what sort of books will suit the people, and he writes for the masses. He has never yet written a book that was not a great success, but we predict that his latest work, "SEA AND LAND," just issued by DAN. LITMAN & CO., of St. Louis, Mo., will outstrip all his previous efforts. It deals with subjects that are always interesting, and he has treated them in a way that adds fascination to interest. The Christian Reflector says: "The book is a revelation to us. We had no idea that the subject could be treated in such an intensely interesting manner. It is a great work, and we are almost persuaded to turn book agents ourselves and help to circulate it for the good it will do." (See advertisement in another part of this paper.)

The Indianapolis News enjoys the distinction of having been the first successful attempt to found a 2 cent paper west of Pittsburgh and has witnessed the demise of thirteen would be competitors in its own city, where several hundred thousand dollars have been sunk by cheap papers trying to get a foot hold by the side of the News. The successful 2 cent papers of Chicago, Detroit, Cleveland, Cincinnati, St. Louis and Louisville have been close students and in most instances very close imitators of The News' method, though none of them reaching its elevated tone as a family newspaper.

Very Remarkable Recovery.

Mr. Geo. V. Willing, of Manchester, Mich., writes: "My wife has been almost five years, so helpless that she could not turn over in the bed alone. She used two bottles of Electric Bitters and is so much improved, that she is able now to do her own work." Electric Bitters will do all that is claimed for them. Hundreds of testimonials attest their great curative powers. Only fifty cents a bottle at F. B. Meyer's. Aug 29-2.
