**ASTONISHING SUCCESS!**  
 It is the duty of every person who has used BOSCHER'S GERMAN SYRUP to let its wonderful qualities be known to their friends in curing Consumption, severe Cough, Croup, Asthma, Pneumonia, and in fact all throat and lung diseases. No person can use it without immediate relief. Three doses will relieve any case, and we consider it the duty of all Druggists to recommend it to the poor, dying consumptive, at least to try one bottle, as 80,000 dozen bottles were sold last year, and no one case where it failed was reported. Such a medicine as the GERMAN SYRUP cannot be too widely known. Ask your druggist about it. Sample bottles to try, sold at 10 cents. Regular size, 75 cents. Sold by all Druggists and Dealers in the United States and Canada.

In England hay is considered so necessary that notwithstanding the difficulty of curing it there it constitutes an important food for stock. In the West, with our hot, dry harvests, the curing of hay is comparatively simple. As a rule the hay may be cut down in the morning and raked the same afternoon. If allowed to lie in the heaps until sweating has fairly commenced, it may then be removed to the stack, and it will come out bright, sweet and comparatively free from dust. When clover constitutes a considerable part of the hay more care is necessary. The leaves form the important part of the value.
