

FRIDAY, AUGUST 5 1887

Entered at the postoffice at Rensselaer, Ind., as second-class matter.

Seventy-five tons of hay, in the stack, in Barkley township, belonging Hon. G. H. Brown and son and F. C. Moore, together with about a mile of fence, was destroyed by fire last Saturday.

A number of the republican judges of election boards at Indianapolis say they took possession of papers to which the inspectors were entitled, in obedience to instructions contained in the Carnahan circular. Try Mr. Carnahan.

Any one to read the charge of Judge Woods to the jury, in the election conspiracy case, shorn of its indicating head, would naturally conclude that it was a very zealous and pains-taking effort on the part of one of the prosecuting counsel to convict.

The Indianapolis News says: "While the evidence in the election forgery case proves beyond all controversy of rational denial that the forgery and committed by the democratic members or agents of the canvassing board, and thus fixes the crime immovably on the 'gang,' without the testimony of Perkins, his revelation was needed to fix it on individuals and thus enable the law to punish it."

The ruling of Judge Gresham knocked the trial of any "election forgery case" outside of Judge Woods' jurisdiction. Under a change of title to that of "election conspiracy," Judge Woods managed to get it into his court for trial. All admit that while no effort was made to fix a "conspiracy" strenuous exertions were made to draw out evidence relating to "forgery." As to the result, the News, in the same article says: "No guilt was formally fixed upon any individual." The men were indicted for "conspiracy" but tried for "forgery"—the very thing ruled out by Judge Gresham or the ground of jurisdiction.

We have felt all along that so far as the individuals indicted for "election conspiracy" were concerned, their acts were chargeable only to themselves, not having been advised and prompted by the Democratic organization, and if rightly and clearly proved guilty, we were prepared to approve prescribed punishment. Our opponents, however, from the beginning have been clamorous for conviction without reference to guilt, and lead in their denunciation of the Democratic party for crimes charged against individuals. In the language of the Indianapolis News, a republican paper: "No guilt was formally fixed upon any individual." A majority of the jury were prepared to return a verdict of acquittal. The News says they were predetermined by political feeling." That can be applied with more justice, however, to the republican members of the jury.—In the history of the republican party, its existence has been based upon its successful practice of fraud, forgery, perjury, intimidation and murder. Its advent to power was followed by the precipitation of the country into civil war. Its continuance in power, even when the people had pronounced in thunder tones against it, was accomplished by the bold and daring theft of the Presidency. The republican party, saturated with fraud, corruption and crime, desired to create odium

against the Democracy. It has ignominiously failed in its attempt to successfully use a U. S. Court for that purpose.

JOHN S. MCLEWEN,
Father of the editor of this paper, died at his residence, in Lewistown, Mifflin county, Pennsylvania, Sunday evening, July 31, 1887, aged 82 years and 2 months.

He was kind, indulgent and faithful in his family relations, and as a neighbor was held in high esteem. He enjoyed membership with the Presbyterian church of that place for about sixty years.—

The rights and privileges of citizenship he claimed by virtue of birth, and as an inheritance from his revolutionary sire, one of that iron band that endured the privations and dangers of that most noted expedition in the history of the revolutionary war, the campaign, through the wilderness of Maine, against Quebec, where, wounded and a prisoner he incurred disease which years afterward resulted in death.

Firm in his convictions, our father did not obtrude his views upon others. Politically, he was a life-long Democrat—casting his first Presidential vote for Andrew Jackson, and his last for Grover Cleveland. For seventy years he was a resident of Lewistown, well known, and beloved and respected by all who knew him. Peacefully and without a struggle he departed, a son, a loving and devoted daughter, and other relatives and friends at his bedside.

State Superintendent LaFollett humiliated the 1,500 Indiana teachers at the National Educational association recently held at Chicago, by his gross neglect to make an exhibit of the Indiana school system and work. At these annual associations an exhibit has been made for the past several years and Indiana always stood in the first rank. Under the superintendence of Hon. James H. Smart this State rose into National prominence, and the exhibits made by him gave the Indiana school system a rank second to no State, and our schools were second to no State in the Union. These annual exhibits have been creditable to this State until this year. Mr. La Follett could have had the assistance of every county in the State to make the exhibit. The only reason for his not making it, his time has all been taken in writing opinions trying to get its republican county superintendents in office. All of his opinions have been in favor of Republicans. He could as well decide that white is black. He has never been recognized as a very erudite lawyer.—

The teachers of Indiana will see to it that the State is properly represented at the next association.

On the 3d of March, 1887, after a persistent effort, Congress passed an act restoring the ownership of real estate in any of the territories of the United States to bona fide American citizens. This measure was fiercely opposed by the Republicans in the lower House of Congress, and was favored by but few of the Republican Senators. It was promptly signed by the President, and is now the law of the land. This is an instance of the good faith of the Democratic party in legislating in the interest of the bread winners of this country, and is in happy contrast with the legislation of the past twenty-five years by the Republican party manipulators, whose sole aim seems to have been to turn the resources of the permanent wealth of this country over to monopolies and foreign syndicates. It will take time to reform all the evils brought about by the vicious legislation of the Republican party but this reformation will be made.—Anderson Democrat.

In Brief, and to the Point.

Dyspepsia is dreadful. Disordered liver is misery. Indigestion is a foe to good nature.

The human digestive apparatus is one of the most complicated and wonderful things in existence. It is easily put out of order.

Greasy food, tough food, sloppy food, bad cookery, mental worry, late hours, irregular habits, and many other things which ought not to be, have made the American people a nation of dyspeptics.

But Green's August Flower has done a wonderful work in reforming this sad business and making the American people so healthy that they can enjoy their meals and be happy.

Remember: No happiness without health. But Green's August Flower brings health and happiness to the apothecary. Ask your druggist for a bottle. Seventy-five cents.

DRS. STARKEY and Palens' advertisement of Compound Oxygen in this issue of this paper should be read by all of our readers. The cures which this treatment is effecting are almost miraculous. In the few years since its discovery they have treated in all parts of the world upwards of fifty thousand patients. Thousands of these have given testimonials that they are cured, and a large proportion of the others report great benefit from its use. Their offer to send a two hundred page book free, giving a history of the treatment, with a large number of testimonials, is a liberal one. Read the advertisement and send for the book now.

The "penny walk" is a Buffalo institution, and the Courier explains it: "You see a couple or perhaps a party set out for a walk. Well, when they reach a corner the leader tosses up a cent—heads, they go to the right; tails, to the left. Next corner they do the same thing. Sometimes when they get ready to stop they don't know where they are. Lots of fun."

A Sound Legal Opinion.

E. Bainbridge Monday, Esq., County Atty., Clay Co., Tex., says: "Have used Electric Bitters with most happy results. My brother was also very low with Malaria Fever and Jaundice, but was cured by timely use of this medicine. An satisfied Electric Bitters saved his life."

Mr. D. I. Wilcoxson, of Horse Cave, Ky., adds a like testimony, saying: "I positively believe he would have died, had it not been for Electric Bitters."

This great remedy will ward off, as well as cure all Malaria Diseases, and for all Kidney, Liver and Stomach Disorders stands unequalled.—Price 50c. and \$1. at F. B. Meyer's. 6c.

At the last State election some Orange county Republicans were indicted for buying votes and perpetrating election frauds. A Republican judge promptly dismissed the cases. Carnahan is under indictment but the Republican press is not clamoring for his trial or conviction. It did not howl because the indicted Republicans of Orange county were not tried.—They rant for the conviction of the indicted Democrats of Marion county. The Republican press makes party superior to law. It is party first. In its every action, thought and purpose, the party is paramount.—Anderson Democrat.

D. LANGE'S ASTHMA AND CATARRH REMEDY.

SOLD BY ALL DRUGGISTS.
Having struggled 20 years between life and death with ASTHMA or PHthisic, treated by eminent physicians, and receiving no benefit, I was compelled during the last 5 years of my illness to sit on my chair day and night gasping for breath. My sufferings were beyond description. In despair I consulted a physician by compounding roots and herbs and inhaling the medicine thus obtained. I fortunately discovered this WONDERFUL CURE FOR ASTHMA AND CATARRH, warranted to relieve the most stubborn case of ASTHMA IN FIVE MINUTES so that the patient can lie down to rest and sleep comfortably. Please read the following condensed extracts from unsolicited testimonials, all of recent date:

Oliver V. Holmes, San Jose, Cal., writes: "I Oliver the Remedy all and even more than represented. I receive instantaneous relief."

E. M. Carson, A. M., Warren, Kan., writes: "Was treated by eminent physicians of this country and Germany; tried the climate of different states—nothing relieved like your preparation."

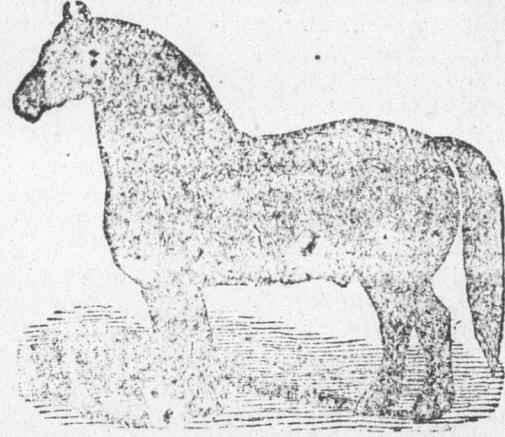

L. B. Phelps, P. M., Griggs, Ohio writes: "Suffered with Asthma 40 years. Your medicine in 3 minutes does more for me than the most eminent physician did for me in three years."

H. C. Plimpton, Joliet, Ill., writes: "Send Catarrh Remedy at once. Cannot get along without it. I find it to be the most valuable medicine I have ever tried."

We have many other hearty testimonials of cure or relief, and in order that sufferers from Asthma, Catarrh, Hay Fever, and kindred diseases may have an opportunity of testing the value of the Remedy, will send any address TRAVELING FREE ON CHARGE. If your druggist fails to keep it do not permit him to sell you some worthless imitation by his representing it to be just as good, but send directly to us. Write your name and address plainly.
