A MEDICAL journal states that the average Chinese baby weighs but five pounds. The journal did not state whether the Chinese baby's capacity for squalling was less, in proportion to weight, than that of any other baby, but if they howl in the Chinese language as loud as the American kid does in the United States language, how the poor mother must suffer. If any one has ever heard two Chinamen holding a convention in their native tongue, they can readily see that a child who is just learning to lisp a few syllables in the Chinese language would make Rome howl.—Pech's Sun.

Because he can make more profit he may tell you he has something just as good, or just the same. Don't be deceived, but insist upon getting Dr. King's New Discovery, which is guaranteed to give relief in all Throat, Lung and Chest affections. Trial bottle free at F. B. Meyer's Drug store. DRS. STARKEY and PALEN'S advertisement of Compound Oxygen in this issue of this paper should be read by all of our readers. The cures which this treatment is effecting are almost miraculous. In the few years since its discovery they have treated in all parts of the world upwards of fifty thousand patients. Thousands of these have given testimonials that they are cured, and a large proportion of the others report great benefit from its use. Their offer to send a two hundred page book free, giving a history of the treatment, with a large number of testimonials, is a liberal one. Read the advertisement and send for the book now.
