

In Brief, and to the Point.

Dyspepsia is dreadful. Disordered liver is misery. Indigestion is a foe to good nature.

The human digestive apparatus is one of the most complicated and wonderful things in existence. It is easily put out of order.

Greasy food, too h food, sloppy food, bad cookery, mental worry, late hours, irregular habits, and many other things which ought not to be, have made the American people a nation of dyspeptics.

But Green's August Flower has done a wonderful work in reforming this sad business and making the American people so healthy that they can enjoy their meals and be happy.

Remember:—No happiness without health. But Green's August Flower brings health and happiness to the dyspeptic. Ask your druggist for a bottle. Seventy-five cents.

Brignoli's Explanation.

Sig. Brignoli tells that once while he was singing in concert for a charitable object, the prima donna was suddenly attacked with singer's sore throat, and it became necessary that some one should apologize to the audience. The manager declared he was suffering from nervousness and could not do it, and he begged Brignoli to make the explanation. The tenor, going forward, said:

"Ladies and gentlemen, I regret to say that Mrs. N—— eez a leetle horse dis evening."

Peals of laughter greeted this announcement, and the tenor looked puzzled, thinking the audience misunderstood him. He advanced once more, and with thundering emphasis roared out:

"I say that Mrs. N—— eez a leetle horse dis evening."

Another roar of laughter, amid which a voice in the gallery cried out: "Then, if she is a horse, why not trot her out?"

Then the mistake was plain to him, and Brignoli laughed as heartily as any one.—*Boston Herald.*

We take pleasure in calling the attention of our readers to the following extract from a letter to the Eldredge Manufacturing Co., Chicago, written by an English dealer in Sewing Machines:

Gents: I have telegraphed you this day to send on as quick as possible 50 No. 2 tables and covers. I find I shall be out of these much sooner than the other styles. The stands and heads you can send at earliest convenience.

I am very much pleased to say that these last hundred machines are highly satisfactory. For finish, smoothness and easy running, I really believe they are unequalled by any other Sewing Machine selling in this country.

The machines require less preparation for delivery than any other machines I have handled during the whole course of my experience extending over 20 years.

Yours Truly,

THOS. RHODES.

Mrs. J. W. McEwen is agent for these machines in this county.—Call and see them before purchasing elsewhere.

A Woman's Discovery.

"Another wonderful discovery has been made and that too by a lady in this county. Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly and could not sleep. She bought of us a bottle of Dr. King's New Discovery for Consumption and was so much relieved on taking first dose that she slept all night and with one bottle has been miraculously cured. Her name is Mrs. Luther Lutz." Thus write W. C. Hamrick & Co., of Shelby, N. C.—Get a free bottle at F. B. Meyer's Drug Store.

American Cooks and Cooking.

From the dreadful corned beef and cabbage and the fearful fishballs of crude American cookery, the family of Delmonico has, by degrees, led the American public to the consideration of higher things. The favorite dishes of the great republic have been concentrated in New York, and recent arrivals have been hospitably challenged to compare anything in the old world with them. Politeness prevents such comparisons, which would hardly be in favor of either hemisphere. In fish and game, despite its wide area of river and prairie, America can in no way compare with the raw products of this country. But it has its specialties. The oysters of Blue Point and Shrewsbury River may not be denied, any more than the canvas-back nourished on the marshes of the Potomac, the terrapin captured on the shore of the Delaware, the snapping turtle from the far West, the gumbo soup of New Orleans, or the panpano fish which rejoiceth the Mexican Gulf. What the Delmonicos have done is to bring the enjoyments of the two hemispheres into combination. They have known how to make the clams, the oysters, the sheephead, and other strange fishes familiar to the great army of gastronomists who reach Manhattan Island.—*Lor.*
