

## In Brief, and to the Point.

Dyspepsia is dreadful. Disordered liver is misery. Indigestion is a foe to good nature.

The human digestive apparatus is one of the most complicated and wonderful things in existence. It is easily put out of order.

Greasy food, too h food, sloppy food, bad cookery, mental worry, late hours, irregular habits, and many other things which ought not to be, have made the American people a nation of dyspeptics.

But Green's August Flower has done a wonderful work in reforming this sad business and making the American people so healthy that they can enjoy their meals and be happy.

Remember: No happiness without health. But Green's August Flower brings health and happiness to the dyspeptic. Ask your druggist for a bottle. Seventy-five cents.

## LITTLE THINGS THAT KILL.

DANGERS THAT ARISE FROM SWALLOWING THE SEEDS OF FRUIT.

[Hartford Times.]

At various times the newspapers have warned the public against swallowing the seeds of grapes, oranges, etc., because of the danger of such substance getting into a small intestinal bag, or cal-de-sac, called by the doctors the appendix vermiformis. This is a little receptacle formed at the junction of the large and small intestines, but its use or object no physician knows. It has been thought to be a rudimentary or incomplete formation, or possibly some meaningless survival of a lost, anterior type. At any rate, its existence, while presenting no apparent "reason for being," as the French say, is on the other hand, a positive and constant source of danger, because of the liability of its becoming the receptacle of some undigested seed or other indigestible substance. In that case it produces a state of inflammation which, in nearly all cases proves fatal.

Fortunately but a few seeds among the great number so heedlessly swallowed seem to get into this little death-trap, although any one seems likely to lodge there. Perhaps more cases of inflammation of the bowels than the doctors suspect may be in reality due to this obscure and disregarded cause. One sad case, which to-day produces a feeling of deep regret among thousands, and which plunges a family into overwhelming grief, occurred in this city Saturday evening in the lamented death of J. Robert Dwyer, the much-esteemed adjutant of the Governor's Foot Guard—a man whose place that ancient corps can not well make good. His case so baffled the physicians that an autopsy was held, and that revealed a piece of peanut shell in the appendix vermiformis.

## Don't Experiment.

You cannot afford to waste time in experimenting when your lungs are in danger. Consumption always seems at first, only a cold. Do not permit any dealer to impose upon you with some cheap imitation of Dr. King's New Discovery for Consumption, Coughs and Colds, but be sure you get the genuine. Because he can make more profit he may tell you he has something just as good, or just the same. Don't be deceived, but insist upon getting Dr. King's New Discovery, which is guaranteed to give relief in all Throat, Lung and Chest affections. Trial bottle free at F. B. Meyer's Drug store. Large Bottles \$1.

A lady in Milton, Pa., who was accosted by a rascal just at dusk the other evening defended herself in a novel way. She was returning home from marketing and had in her basket a piece of bologna sausage which she pointed at the fellow, crying out: "You scoundrel, if you touch me I'll shoot you."—Supposing it was a pistol she had, the man took to his heels.

AND now comes a chemist and explodes the theory that unbolted flour is the most nutritious, by stating that experiments show that it is harder to digest. The most sensible plan to follow is to eat what experience has proved agrees with you.

We take pleasure in calling the attention of our readers to the following extract from a letter to the Eldredge Manufacturing Co., Chicago, written by an English dealer in Sewing Machines:

Gents: I have telegraphed you this day to send on as quick, as possible 50 No. 2 tables and covers. I find I shall be out of these much sooner than the other styles. The stands and heads you can send at earliest convenience.

I am very much pleased to say that these last hundred machines are highly satisfactory. For finish, smoothness and easy running, I really believe they are unequalled by any other Sewing Machine selling in this country.

The machines require less preparation for delivery than any other machines I have handled during the whole course of my experience extending over 20 years.

Yours Truly,

THOS. RHODES.

Mrs. J. W. McEwen is agent for these machines in this county.—Call and see them before purchasing elsewhere.

## A Woman's Discovery.

"Another wonderful discovery has been made and that too by a lady in this county. Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly and could not sleep. She bought of us a bottle of Dr. King's New Discovery for Consumption and was so much relieved on taking first dose that she slept all night and with one bottle has been miraculously cured. Her name is Mrs. Luther Lutz." Thus write W. C. Hamrick & Co., of Shelby, N. C.—Get a free bottle at F. B. Meyer's Drug Store.

THE cross of the Cotswold on the Merino is not as popular as it was a few years ago, except for early lambs. The wool is not liked. The South or Hampshire Down sheep crossed on Cotswold brings a lamb of the finest quality, and there are apt to be a large proportion of twins.
