

In Brief, and to the Point.
Dyspepsia is dreadful. Disorder of liver is misery. Indigestion is a foe to good nature.
The human digestive apparatus is one of the most complicated and wonderful things in existence. It is easily put out of order.
Greasy food, too h food, sloppy food, bad cookery, mental worry, late hours, irregular habits, and many other things which ought not to be, have made the American people a nation of dyspeptics.
But Green's August Flower has done a wonderful work in reforming this bad business and making the American people so healthy that they can enjoy their meals and be happy.
Remember:—No happiness without health. But Green's August Flower brings health and happiness to the dyspeptic. Ask your druggist for a bottle. Seventy-five cents.

A Good Opportunity.
The deacon had been threatening to repair that well-curb for the last thirteen years, but something had always occurred to prevent. He was not, therefore, greatly surprised one day when the boards gave way as he was hauling up the bucket, and he found himself going for the bottom. He bumped around a spell, dodged the bucket as it followed after, and finally brought up in good shape with his feet under him, and the water up to his chin. The well was forty feet deep, and the house five rods away; but nevertheless, the deacon called his wife by name about 6,000 times before he got tired of playing on that string, and began abusing her relatives clear back for seven generations. He had dropped this and was threatening to mortgage the farm and run away with the Widow Taylor, when his wife appeared at the well and called out: "Deacon, are you down there?" "Of course I am, and have been for the last three hours!" he yelled. "Well I thought so, but I was busy and couldn't look. Say, deacon, being as you are down there, you'd better stir around and look for that table-spoon which slipped out of my hand the day Joel Skinner's barn got afire!"

Don't Experiment.
You cannot afford to come in experimenting when the lungs are in danger. Consumption always seems at first, only a cold, and you permit any dealer to sell you some cheap imitations of Dr. King's New Discovery. Be sure you get the genuine. It can make more profit for him than he has something just the same. Don't insist upon getting the New Discovery, which will give relief in all chest affections. Free at F. B. Meyer's. Large Bottles \$1.

The Tables Turned.
Wendell Phillips had one eminent quality as an orator—he was never flustered. During the delivery of his first public speech at Faneuil Hall, in 1837, there was one moment when the whole audience, friends and foes, turned against him, and there was a universal roar of dissent.
It was when he said that the cause for which Washington fought was far beneath that for which Mr. Lovejoy, the abolitionist, died. The young orator was by no means disconcerted. No opposition ever disconcerted him. He waited for a lull in the storm, and then resumed his address thus:
"One word, gentlemen. As much as thought is better than money, so much better is the cause for which Lovejoy died nobler than a mere question of taxes. James Otis thundered in this hall when the King did but touch his pocket. Imagine, if you can his indignant eloquence had England offered to put a gag upon his lips."
This happy turn brought the assembly over to his side again, and the hall resounded with applause. There was no more opposition, and he concluded his speech in triumph.—*Youth's Companion.*

Files.
In a file twelve inches long, the first six inches from the point does the most of the work. In a machine-cut file the teeth of this part are shorter, and in practice will not bite as well as they will further up. This is because of the shape of the files, in many instances making it impossible for the machine to work on all parts with the same effectiveness. Out of a dozen or more machine-cut files you will not find more than one that is perfect-looking, and very few machine-cut files will bite as well as the hand-cut article. For this reason their teeth break out less easily—because they won't bite.

We take pleasure in calling the attention of our readers to the following extract from a letter to the Eldredge Manufacturing Co., Chicago, written by an English dealer in Sewing Machines:

Gents: I have telegraphed you this day to send on as quick as possible 50 No. 2 tables and covers. I find I shall be out of these much sooner than the other styles. The stands and heads you can send at earliest convenience.

I am very much pleased to say that these last hundred machines are highly satisfactory. For finish, smoothness and easy running, I really believe they are unequalled by any other Sewing Machine selling in this country.

The machines require less preparation for delivery than any other machines I have handled during the whole course of my experience extending over 20 years.

Yours Truly,
THOS. RHODES.

Mrs. J. W. McEwen is agent for these machines in this county.—Call and see them before purchasing elsewhere.

A Woman's Discovery.
"Another wonderful discovery has been made and that too by a lady in this county. Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly and could not sleep. She bought of us a bottle of Dr. King's New Discovery for Consumption and was so much relieved on taking first dose that she slept all night and with one bottle has been miraculously cured. Her name is Mrs. Luther Lutz." Thus write W. C. Hamrick & Co., of Shelby, N. C.—Get a free bottle at F. B. Meyer's Drug Store.

"*William, and you ever have another wife beside mother?*" "No, my boy; what possessed you to ask such a question?" "Because I saw in the old family Bible where you married Anno Domini in 1835, and that isn't mother, for her name was Sally Smith."

DRS. STARKEY and Palens' advertisement of Compound Oxygen in this issue of this paper should be read by all of our readers. The cures which this treatment is effecting are almost miraculous. In the few years since its discovery they have treated in all parts of the world upwards of fifty thousand patients. Thousands of these have given testimonials that they are cured, and a large proportion of the others report great benefit from its use. Their offer to send a two hundred page book free, giving a history of the treatment, with a large number of testimonials, is a liberal one. Read the advertisement and send for the book now.
