

In Brief, and to the Point.
Dyspepsia is dreadful. Disordered
Ever is misery. Indigestion is a foe
to good nature.

The human digestive apparatus is
one of the most complicated and
wonderful things in existence. It is
easily put out of order.

Greasy food, too h food, sleepy
food, bad cookery, mental worry, late
hours, irregular habits, and many
other things which ought not to be,
have made the American people a
nation of dyspeptics.

But Green's August Flower has
done a wonderful work in reforming
this sad business and making the
American people so healthy that they
can enjoy their meals and be happy.

Remember:—No happiness without
health. But Green's August Flower
brings health and happiness to the
dyspeptic. Ask your druggist for a
bottle. Seventy-five cents.

Democratic War Governor died

Don't Experiment.

You cannot afford to waste time in
experimenting when your lungs are
in danger. Consumption always
seems at first, only a cold. Do not
permit any dealer impose upon you
with some cheap imitation of Dr.
King's New Discovery for Consump-
tion, Coughs and Colds, but be sure
you get the genuine. Because he can
make more profit he may tell you he
has something just as good, or just
the same. Don't be deceived, but
insist upon getting Dr. King's New
Discovery, which is guaranteed to
give relief in all Throat, Lung and
Chest affections. Trial bottle free
at F. B. Meyer's Drug Store. Large
Bottles \$1 6

Gen. Tom Brown, Republican
member of Congress from the
Fifth District this State, strongly
favors a revision of the present
tariff laws, "because there are
many injustices in them, and we
have grown beyond the condition
of affairs of twenty-five years ago,
when the present laws were enacted."

Comfort from Newspapers.

Many years ago, in one of the severest
winters when there was much hardship
among the poor, a city paper suggested
that old newspapers, spread over the
bed, would form an excellent substitute
for blankets and coverlets. This brought
upon the journal a great deal of harmless
ridicule from other papers, but it brought
comfort to many a poor family. In the
matter of bed-clothing, especially, we
are apt to associate warmth with weight,
and do not consider that there is no
warmth in the coverings themselves, but
that they merely prevent the heat of the
body from passing off. Whatever is a
poor conductor of heat will make a warm
covering. Paper itself is a poor con-
ductor, but still poorer are the thin layers
of air that are confined when two or
three newspapers are laid upon one another. A few newspapers laid over the
bed will keep one much warmer than
some of the heavy, close-woven blankets.
We do not propose newspapers as a sub-
stitute for blankets and comforters, but
it is one of those make-shifts that it is
well to know. In traveling one may, by
the aid of a few papers, secure a com-
fortable rest in a thinly-clad bed, and if
we cannot afford to give a destitute fam-
ily a blanket or a comforter, we may
show them how to increase the usefulness
of their thin coverings by stitching a few layers of newspapers between them. It may be well to remind those
who grow window-plants that, by re-
moving them away from the window,
and arranging a cover of newspapers over them, they may be preserved from
harm in severely cold nights. With the
plants, as with ourselves, it is not so
much that cold comes in as that the heat
goes off, and often a slight protection
will prevent the escape of heat.—Amer-

Matrimonial Harmony.

"Are you as happy now as you were
before you were married?" asked Mrs.
Yeast of young Mrs. Crimsonbeak.

"Yes, indeed," replied the lady, "and
a great deal happier."

"That's strange," suggested the phi-
lanthropist's wife.

"Not at all strange," came from the
young married woman. "You see, be-
fore I was married I used to spend half
my time worrying about what dress I
should wear when Daniel called."

"But don't you try just as hard now
to look well when your husband re-
turns home at night?" interrupted Mrs.
Yeast.

"Well, you see," went on the bride
of two summers, "I don't worry any
about it now, as I have only one dress
to my name."—*Leekers Statesman*.

We take pleasure in calling the
attention of our readers to the
following extract from a letter to the
Eldredge Manufacturing Co.,
Chicago, written by an English
dealer in Sewing Machines:

Gents: I have telegraphed you
this day to send on as quickly as
possible 50 No. 2 tables and cov-
ers. I find I shall be out of these
much sooner than the other styles.
The stands and heads you can
send at earliest convenience.

I am very much pleased to say
that these last hundred machines
are highly satisfactory. For fin-
ish, smoothness and easy running,
I really believe they are unequalled
by any other Sewing Machine
selling in this country.

The machines require less pre-
paration for delivery than any other
machines I have handled during
the whole course of my expe-
rience extending over 20 years.

Yours truly,
THOS. RHODES.

ing elsewhere.

A Woman's Discovery.

"Another wonderful discovery has
been made and that too by a lady in
this county. Disease fastened its
clutches upon her and for seven years
she withstood its severest tests, but
her vital organs were undermined and
death seemed imminent. For three
months she coughed incessantly and
could not sleep. She bought of us a
bottle of Dr. King's New Discovery
for Consumption and was so much
relieved on taking first dose that she
slept all night and with one bottle has
been miraculously cured. Her name
is Mrs. Luther Lutz." Thus writes
W. C. Hamrick & Co., of Shelby, N.
C.—Get a free bottle at F. B. Meyer's

ITALY, are you ever have another
wife beside mother?" "No, my boy;
what possessed you to ask such a question?" "Because I saw in the old family
Bible where you married Anne
Dominie in 1835, and that isn't mother,
for her name was Sally Smith."
