Recitation	Floy Nowels.
Declamation	George Healey.
Song	Children.
Talk	Prof. Reubert.
Song	Nellie Moss, Blanche Alter.
Recitation	Mary Chilcote.
Recitation	Mattie Baker.

In Brief, and to the Point.

Dyspepsia is dreadful. Disordered liver is misery. Indigestion is a foe to good nature.

The human digestive apparatus is one of the most complicated and wonderful things in existence. It is easily put out of order.

Greasy food, sou' h food, sloppy food, bad cookery, mental worry, late hours, irregular habits, and many other things which ought not to be, have made the American people a nation of dyspeptics.

But Green's August Flower has done a wonderful work in reforming this sad business and making the American people so healthy that they can enjoy their meals and be happy men.

Remember:—No happiness without health. But Green's August Flower brings health and happiness to the dyspeptic. Ask your druggist for a bottle. Seventy-five cents.

CURIOSITIES OF NATURE.

The Jumping Gall, the Acrobatic Bean, and Seeds that Explode.

"Here is a curiosity," said a botanist. It was a little ball of wood or fiber that when held in the palm seemed endowed with life, rolling over and over and flying into the air.

"I've had people come to me with these," continued the speaker, "and say they were bewitched. One man believed he had discovered spontaneous generation; another wrote an exhaustive paper which he tried to read at all the learned societies, showing that here was the beginning of both animal and plant life. In fact, the little gall, for that is what it is, has attracted a good deal of attention."

"So it is only a plant," said a reporter.

"Not exactly a plant, but the unnatural growth of vegetable matter on trees, bushes, or shrubs, caused by the secretion in the bark of an insect egg that hatches and causes the growth. In this case, you see, the gall is little larger than a mustard seed."

"The gall is produced in this way: The eggs of a very small dark-colored insect, known as cynips, are deposited in the leaf, and, from some secretion introduced into the wound, the vegetable matter entombs the insect in a ball of fiber separate from the leaf, from which it finally drops. The larva's movements in restraint create the curious activity."

"There are many kinds of galls, and though they are injurious to trees they are invaluable to man, and are staple commodities. The ordinary oak galls of commerce are made by a cynips. When they are green, blue, or black, the insect is in them, but when white it has escaped. England is the center of the trade, and receives galls from Germany, Turkey, Egypt, China, and Bombay. The galls are used for a variety of purposes. One sort of blasting powder is made of powdered galls and chlorate, but the most valuable product is ink. This is made from them entirely."

"Seeds often jump about in the same mysterious way. In Mexico strangers see a curious seed known as devil's bean, or jumping seed. In appearance it is a small triangular body. The first time I saw these seeds I was sure that they were arranged with mechanical springs, as they not only rolled about, but jumped several inches in the air. But open one of the seeds and the mystery is explained. The shell is hollowed out, containing nothing but a white larva, that has eaten out nearly all the interior and lined it with silk. Its motions occasion the strange movements."

"Some seeds move by an entirely different process—that of exploding. A friend of mine got some seeds in India once, and placed them on his cabin table. All at once came an explosion like that of a revolver, and he received a blow on the forehead that drew blood, while a looking glass opposite was shattered. The seeds had become heated, and all at once the covering exploded, scattering the seeds in all directions. That is their manner of dispersal, and a large number of plants have a similar method of scattering their seed."—*New York Sun*.

Topnoody.

Mr. Topnoody sat at the supper table Tuesday evening as his wife cleared away the things, and after a moment's silence he remarked:

"My dear, do you know what day the day after to-morrow will be?"

"Of course I do; it's Thursday."

"I don't mean that, my dear. Do you know what anniversary it will be?"

"I don't recall."

"Why, my dear, don't you know that it is the anniversary of our marriage? On that day, thirty-five years ago, we were made man and wife and—"

"And I've had a grudge against that preacher ever since," interrupted Mrs. Topnoody.

"And," he continued, not noticing it, "since that day, hand in hand, we have gone along the pathway of life, gathering its thorns and flowers, bearing one another's burdens and sharing one another's happiness. Whatever of sorrow we may have had, my dear, has been lightened by dividing it between us, and whatever of joy, has been doubled by mutual possession."

"That sounds like you had been reading a novel. Topnoody."

Paine's Celery Compound

CURES Nervous Prostration, Nervous Headache, Neuralgia, Nervous Weakness, Stomach and Liver Diseases, Rheumatism, Dyspepsia, and all affections of the Kidneys.

WEAK NERVES

PAINES CELERY COMPOUND is a Nerve Tonic which never fails. Containing Celery and Cane, those wonderful nerve stimulants, it speedily cures all nervous disorders.

RHEUMATISM

PAINES CELERY COMPOUND purifies the blood. It drives out the lactic acid, which causes Rheumatism, and restores the blood-making organs to a healthy condition. It is the true remedy for Rheumatism.

KIDNEY COMPLAINTS

PAINES CELERY COMPOUND quickly restores the liver and kidneys to perfect health. This curative power, combined with its nerve tonic, makes it the best remedy for all kidney complaints.

DYSPEPSIA

PAINES CELERY COMPOUND strengthens the stomach, and quietes the nerves of the digestive organs. This is why it cures even the worse cases of Dyspepsia.

CONSTIPATION

PAINES CELERY COMPOUND is not a cathartic. It is a laxative, giving easy and natural action to the bowels. Regularly used, it cures all constipation.

Recommended by professional and business men. Send for book.

Price \$1.00. Sold by Druggists.

WELLS, RICHARDSON & CO., Prop's

BURLINGTON, VT.

"No, dear, it is merely the outgrowth of a pleasant retrospect. Do you know, my dear, it seems to me but yesterday since I saw the orange blossoms in your hair, and heard the music of the mystic words which joined two hearts and two lives in a unity blessed of Heaven. Has time sped on winged feet for you, my dear?"

"Not hardly, Topnoody."

"But, my dear, how long have the joyous moments seemed to you?"

"Well, Topnoody, I haven't figured out quite as fine as hours and moments, but taking it in a lump, I should say it had seemed about four thousand years. I might throw off an hour or two on an exact calculation, but not more than that, Topnoody."

Mr. Topnoody didn't ask for an exact calculation.—*Merchant Traveler*.

Don't Experiment.

You cannot afford to waste time in experimenting when your lungs are in danger. Consumption always seems at first, only a cold. Do not permit any dealer impose upon you with some cheap imitation of Dr. King's New Discovery for Consumption, Coughs and Colds, but be sure you get the genuine. Because he can make more profit he may tell you he has something just as good, or just the same. Don't be deceived, but insist upon getting Dr. King's New Discovery, which is guaranteed to give relief in all Throat, Lung and Chest affections. Trial bottle free at F. B. Meyer's Drug Store. Large Bottles \$1

NOTICE.

Notice is hereby given to Leroy W. Sayer, W. F. Fitzroth, J. R. Van Vleck, Johanna Greenfield, Levi Hodge, George M. Roberts, Amelia E. Moore, Anna Thompson, Thompson & Bro., James Cushing, Mary Walpole, F. Ducker, Ada Coates, L. I. C. R., Alfred Thompson, John M. Goodwin, and all others interested, that we own land as follows: S. E.莫菲特 the southeast quarter of sec. 27, township 31 north, range 7 west; and John Wise owns the northwest quarter of the northeast quarter of section 26, same township and range; and that we will proceed with the Surveyor of Jasper county, Indiana, (in which county the land lies) to make a legal survey of said sections, or so much thereof as may be necessary to establish the corners and lines of our lands. Said survey to begin on Monday the 13th day of March, A. D. 1888.

S. B. MOFFITT,
JOHN WISEMAN.

JAS. C. THRAWLS, Surveyor.

February 24, 1888.—\$5

What They Eat in Africa.

An African correspondent of *Food and Health*, speaking of the habits of the people and incidents, says:

Of course hunter's food, such as elephant foot, buffalo hump, sea cow, griffie, and the hundreds of different kinds of deer that abound in various parts of the country are all more or less good eating, especially when you have a good supply of Dame Nature's sauce, hunger, on hand. I also found the coney or rock rabbit a fair dish, although too much like a large rat to look pleasant on the table. The natives of the country are not, as a rule, great meat eaters, living generally on corn (called there, mealeys), milk, pumpkins, and a sort of sugar cane, now and then going in for a feast of meat. I have often considered whether to this way of living may be ascribed the really wonderful manner in which they recover from wounds.

In the Zulu war I saw four persons wounded in the legs with bullets, one of them especially having received a bullet just below the knee, smashing all the bones, and leaving a hole that you could see through. The doctors said the only hope for any of them was amputation. They refused to allow, and they would do nothing but pour cold water from time to time. When I last saw them all but the worst could walk alone, and his wound looked healthy, the bone having grown together, and knitted quite strongly. No white man could have lived without an operation. On the other hand, these men soon succumb to disease.

We take pleasure in calling the attention of our readers to the following extract from a letter to the Eldredge Manufacturing Co., Chicago, written by an English dealer in Sewing Machines:

Gents: I have telegraphed you this day to send on as quickly, as possible 50 No. 2 tables and covers. I find I shall be out of these much sooner than the other styles. The stands and heads you can send at earliest convenience.

I am very much pleased to say that these last hundred machines are highly satisfactory. For finish, smoothness and easy running, I really believe they are unequalled by any other Sewing Machine selling in this country.

The machines require less preparation for delivery than any other machines I have handled during the whole course of my experience extending over 20 years.

Yours truly,

THOS. RHODES.

Mrs. J. W. McEwen is agent for these machines in this county. Call and see them before purchasing elsewhere.

When Spring Comes

This is the way a horse and a poor blanket look at the end of winter.

Why is it that of two horse blankets which look and feel equally well one won't wear at all, and the other wears well?

This 5/4 Trade Mark shows why.

Horse Blankets which are strong and have a reputation are always imitated in poor qualities which look like them, but having fewer warp threads are not as strong.

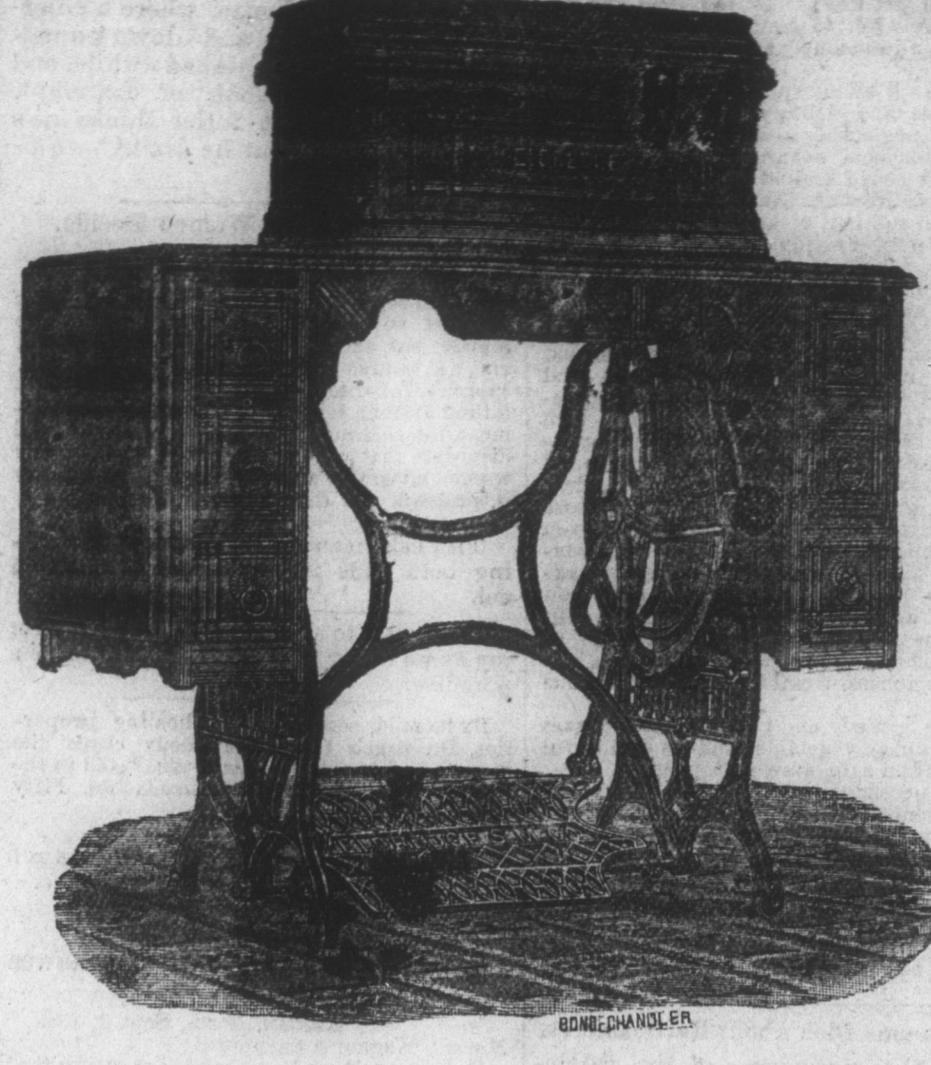

Some dealers buy these poor imitations for a few cents less and by saying they are "just as good," sell them at the same price as the strong blankets to parties who do not know the difference.

You cannot tell whether horse blankets are strong by the look or feel, as the warp threads do not show on the face. How then are you to know?

In order that you can tell a strong blanket from a weak one, the manufacturer of 5/4 Horse Blankets sews the above 5/4 Trade Mark inside of each blanket. This is a guarantee that it is the strongest blanket made for the money and will wear well.

Many poor imitations have been sold as 5/4 blankets. Remember none are genuine unless the 5/4 Trade Mark is sewed inside.

THE ELDREDGE LEADS THE WORLD.

BONEDCHANDLER

MRS. JAS. W. McEWEN, Agent, Rensselaer, Ind.

The BEST

WASHER

We will guarantee the "LOVELL WASHER" to do better work and do it easier and in less time than any other machine in the world. Warranted five years, and if it don't wash the clothes clean without rubbing, we will refund the money.

AGENTS WANTED!

In every county, we CAN SHOW PROOF that Agents working from \$75 to \$150 per month. Farmers make \$200 to \$300 during the winter months. Ladies have great success selling this Washer. Retail price only \$25, equal to those desiring an agency \$32. Also the Celebrated KEYSTONE WRINGERS at manufacturers' lowest price. We invite the strictest investigation. Send your address on a postal card for further particulars.

LOVELL WASHER CO., Erie, Pa.

THE WRIGHT UNDERTAKING ESTABLISHMENT.

T. P. WRIGHT, PROPRIETOR.

1888—EVERY LADY SHOULD TAKE IT—1888
