

Ten Good Things to Know
That cool rain water, and soda
will remove machine grease from
washable fabrics.

That ripe tomatoes will remove
ink and other stains from white
cloth, also from the hands.

That a tablespoonful of turpen-
tine boiled with white clothes will
aid in the whitening process.

That boiled starch is much im-
proved by the addition of a little
sperm salt or gum arabic dissolved.

That Kerosene will soften boots
or shoes that have been hardened
by water, and render them as pli-
able as new.

That salt will curdle new milk;
hence in preparing milk porridge,
gravies, etc., the salt should not be
added until the dish is prepared.

That clear boiling water will re-
move tea stains and many fruit
stains. Pour the water through
the stain, and thus prevent it
spreading over the fabric.

That kerosene will make tea kettles
as bright as new. Saturate a
woolen rag and rub it with it. It
will also remove stains from var-
nished furniture.

That blue ointment and kerosene
mixed in equal proportions and
applied to the bedsteads is an un-
failing bedbug remedy, as a coat of
whitewash is for the walls of a log
house.

That beeswax and salt will make
rusty flat irons as clean and smooth
as glass. Tie a lump of wax in a
rag and keep it for that purpose.
When the irons are hot rub them
first with the wax rag, then scour
with a paper or cloth sprinkled
with salt.

THE STAMP FLIRTATION.
Stamp on left corner, upside
down. "I love you."

On left corner, straight up and
down. "I wish to get rid of your
correspondence."

On left corner, crossways. "I
love another."

On left lower corner. "Do you
love me."

On left lower corner, upside
down. "I am displeased."

On left lower corner, crossways.
"I wish to have your acquaint-
ance."

On left side, in center. "Ac-
cept me as a lover."

On left side, upside down. "I
am engaged."

On left side, in center, cross-
ways. "Who cares."

On right lower corner, upside
down. "Yes."

On right corner, upside down.—
"Friendship."

On right corner, straight up and
down. "Business correspond-
ence."

MERIT WINS.

We desire to say to our citizens
that for years we have been selling
Dr. King's New Discovery for Con-
sumption, Dr. King's New Life Pills,
Buckley's Arnica Salve and Electric
Bitters, and have never handled rem-
edies that sell as well, or that have
given such universal satisfaction.—
We do not hesitate to guarantee them
every time, and we stand ready to re-
fund the purchase price, if satisfac-
tory results do not follow their use.
These remedies have won their great
popularity purely on their merits.—
F. B. Meyer, Druggist.

POTATO BALLS.—Four large mea-
potatoes, cold; mash them in a pan
with two table-spoonfuls of melted
butter, a pinch of salt, a little pepper,
one table-spoonful of cream and the
beaten yolk of one egg; rub it together
for about five minutes, or until very
smooth; shape the mixture into balls
about the size of a walnut or small
rolls, dip them into an egg well beaten
and then into the finest sifted bread
crumbs; fry them in boiling lard.

ABOUT GROWING FOREST TREES.—
Considerable attention is being given
to the growing of forest trees. The
condition of our Western plains ren-
ders this necessary. A few facts regard-
ing tree production may prove acceptable
to our readers. There are two
great classes of trees—nut-bearing and
seed-bearing. The nut-bearers are only
increased by planting the nuts. These

Too Troo, Too Troo.

Man that is married to woman is of
many days and full of trouble. In the
morning he draws his salary, and in the
evening behold it is all gone. It is a tale
that is told, it vanishes, and no one
knoweth whither it goeth. He riseth up
clothed in the chilly garments of the
night and seeketh the somnolent pare-
goric wherewith to heal the colicky
bowels of his offspring. He imitateth
the horse or ox, and draweth the chariot
of his posterity. He spendeth his shekels
in the purchase of fine linen and purple,
to cover the bosom of his family, yet he
himself is seen at the gates of the city
with one suspender. He cometh forth
as a flower, and is cut down. There is
hope of a tree when it is cut down that
the tender roots thereof will sprout again,
but man goeth to his home, and what is
he then? Yea, he is altogether wretched.

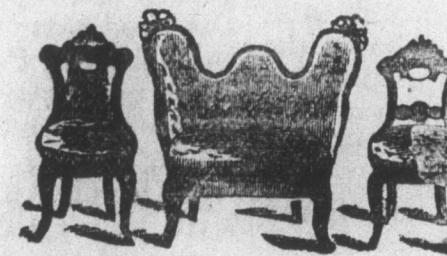

Spring Disorders

Shattered nerves, tired
brain, impure blood,
debilitated system, all
are the natural out-
come in the Spring. A
medicine must be used,
and nothing equals
Paine's Celery Com-
pound. We let others
praise us—you cannot
help believing a dis-
tinguished party.

Brigadier-General W. L. Greenleaf, Burlington,
Vermont, writes: "I have used Paine's Celery
Compound on several occasions, and always
with benefit. Last spring, being very much run
down and debilitated, I commenced taking one
bottle daily. Two bottles made me feel like a new man. As
a general tonic and spring medicine I do not
know its equal."

Color Anything any Color.
