### Smoke the Mascot.

The Indianapolis Sentinel Co. is offering as a premium with the Indiana State Sentinel, a magnificent engraving of Munkacy's "Christ before Pilate," Rosa Bonheur's "Horse Fair" and the "Lion at Home," by the same artist. Subscribers can obtain any one of these by paying a nominal sum to cover the cost of putting up and forwarding the picture. The engravings are readily sold at \$1, but it is proposed to ask an advance of little more than one-tenth of that amount over the regular subscription price for the weekly Sentinel and the picture. The Sentinel Co. will send any one of the pictures to new subscribers, or old subscribers renewing their subscriptions, and the Weekly one year for \$1.15. This is only 15c. to cover express charges from New York, postage, wrapper, clerical work and other incidentals. The picture is given free. It is a remarkable offer.

### No Musical Sense in Horses.

An interesting report regarding the development of the musical sense in horses has just been made by a committee of German zoologists and botanists. The report says: "The investigations as to the musical sense of horses have shown that that sense is very poorly developed in these animals. It has been proved beyond doubt that horses have no notion whatever of keeping time to music and that at circuses they do not dance according to the tune, but that the musicians have to keep time according to the steps of the animals. Other investigations show that horses do not understand military trumpet signals. It is only the older or the animal's instinct of imitation which induces horses to make the moves required by the signal, but no horse without a rider, however carefully trained, takes the slightest notice of a trumpet signal and the same observation has been made on a large number of cavalry horses without riders."

### Plain Talk About Tramps.

The cause of tramps is found in the absolute worthlessness of the individual. As a rule the tramp is good for nothing, made so by his own motion, for which no other man, power, corporation, or Government is responsible, in this country, since its formation, for over a century, every man in it could if he would earn enough to comfortably feed, clothe, and educate himself and his family. And if he was economical and industrious he could and would grow rich. Our past history proves this fact. No other country on the face of God's earth gives to the laboring man, to all classes, such advantages as this. No other country has shown so many who have risen from poverty to affluence. Why, then, this continuous whining? Go to work.

**POCH.**  
 The transition from long, lingering and painful sickness to robust health marks an epoch in the life of the individual. Such a remarkable event is treasured in the memory and the agency whereby the good health has been attained is gratefully blessed. Hence it is that so much is heard in praise of Electric Bitters. So many feel they owe their restoration to health to the use of the Great Alterative and Tonic. If you are troubled with any disease of Kidneys, Liver or Stomach, of long or short standing, you will surely find relief by use of Electric Bitters. Sold at 50c and \$1 per bottle at F. S. Meyer's Drug Store.

There has been another walking-match. The only walking-matches that we now take any interest in are those that disappear mysteriously from our match-sack. That necessitates our blackmailing all our friends for a light for our cigarettes.

 Young man, remember that a friend is another self. The one needs the assistance of the other. If you have found a true friend be thou true to him, for ye know not at what hour that friend will prove himself to you a friend indeed.  
 A Texas young man shot himself because a young lady refused to dance with him. In his blind rage he probably mistook himself for a rival.
