The Indianapolis Sentinel Co. is offering as a premium with the Indiana Stat. Sentinel, a magnificent engraving of Munkacy's "Christ before Pilate," Rosa Bonheur's "Horse Fair" and the "Lion at Home," by the same artist. Subscribers can obtain any one of these by paying a nominal sum to cover the cost of putting up and forwarding the picture. The engravings are readily sold at \$1, but it is proposed to ask an advance of little more than one-tenth of that amount over the regular subscription price for the weekly Sentinel and the picture. The Sentinel Co. will send any one of the pictures to new subscribers, or old subscribers renewing their subscriptions, and the Weekly one year for \$1.15. This is only 15c. to cover express charges from New York, postage, wrapper, clerical work and other incidentals. The picture is given free. It is a remarkable offer.

**About Camels.**  
 A writer says: "The camel is the most perfect machine on four legs that we have any knowledge of." A sacred creature, indeed, to the Arab is this "padding-footed pride of the desert." The expression on the face of a camel is rather pathetic. His eyes are large and liquid, and above them are deep cavities large enough to hold a hen's egg. The aquiline nose, with long, slender nostrils that he can close tightly against the sand storms and hot, burning winds of the desert, give a very sorrowful expression to the face. The under lip is pointing and puckering, and you are not at all surprised when the poor beast bursts into tears and cries loud and loud like a vexed child. The feet of the camel are of very singular construction, with a tough, elastic sole, soft and spongy as they fall noiselessly on the earth and spread out under his tottering weight. This form of the foot prevents the animal from sinking in the sand, and he is very sure-footed on all sorts of ground. The average rate of travel for a caravan is between two and three miles an hour; and the camel jogs on, hour after hour, at the same pace, and seems to be almost as fresh at night as in the morning when he started on his travels. The Arabs say of the camel: "Job's beast is a monument of God's mercy." The camel sheds his hair regularly once a year, and carpets and tent-cloths are made from it; it is also woven into cloth. Some of it is exceedingly fine and soft, though it is usually coarse and rough, and is used for making coats for the shepherds and camel-drivers, and huge water bottles, leather sacks, two sandals, ropes, and things made of its skin.  
**Bright Prospects.**  
 Visiting friend—How are you and your husband coming on?  
 Mrs. Hopeful—O, he is a model husband! There is no species of vice from which he has not sworn on several times. I feel much encouraged.

**POOH.**  
 The transition from long, lingering and painful sickness to robust health marks an epoch in the life of the individual. Such a remarkable event is treasured in the memory and the agency whereby the good health has been attained is gratefully blessed. Hence it is that so much is heard in praise of Electric Bitters. So many feel they owe their restoration to health to the use of the Great Alterative and Tonic. If you are troubled with any disease of Kidneys, Liver or Stomach, of long or short standing, you will surely find relief by use of Electric Bitters. Sold at 50c and \$1 per bottle at F. B. Meyer's Drug Store.

There has been another walking-match. The only walking-matches that we now take any interest in are those that disappear mysteriously from our match-safe. That necessitates our blackmailing all our friends for a light for our cigarettes.

Young man, remember that a friend is another self. The one needs the assistance of the other. If you have found a true friend be thou true to him, for ye know not at what hour that friend will prove himself to you a friend indeed.

A Texas young man shot himself because a young lady refused to dance with him. In his blind rage he probably mistook himself for a rival.
