\$1,000,000 Offered for the Franchise of the Ten Clubs.

A New York dispatch says: A new phase of the base-ball war was disclosed, when it became known that a syndicate of capitalists had offered a cool \$1,000,000 for the franchises of the ten clubs comprising the National League. It is not definitely announced who the capitalists are, but it is widely believed that the men who made the offer for the League franchises are the backers of the Brotherhood clubs and their friends, and their intention is, if the purchase be consummated, to merge the rival leagues.

BURIED TREASURE EXHUMED.

The other day fire destroyed the dwelling of Luther Limerick, near Falmouth, Stafford County, Va. While digging in the ruins Mr. Limerick found, buried a couple of feet under ground, a large tin bucket nearly filled with gold and silver coins, the amount of which he will not tell. Some years ago an old hermit died in a hut on the place, and it is supposed, buried the treasure where it was found.

"There are now," said his Eminence, "about seven million negroes in the United States and the negro question has become a serious problem to the American people. The best solution of this problem, in my judgment, will be found in Christianizing the negroes."

TO TEST HIS RULINGS.

The Courts to Pass Upon Speaker Reed's Rules.

It is understood that the Democratic leaders in the House have held several conferences lately to consider the question of contesting the constitutionality of Speaker Reed's ruling that "members present but not voting shall be counted to make a quorum." Mr. Carlisle virtually foreshadowed such action in his remarks to the House on the 18th inst., when he said: "This question must go to some other forum when a proper case arises." When asked what he meant by a proper case arising, Mr. Carlisle said: "I mean whenever a bill is passed which affects the rights of an individual or of property. Then the person or corporation whose rights are abridged or whose property is affected may seek redress in the courts by testing the constitutionality of the bill passed under Speaker Reed's ruling as to what constitutes a quorum. Of course we cannot take the matter before the courts; we can only refrain from voting on some measure which will involve the rights of some person or property, and so create the occasion for testing the constitutionality of the Speaker's decision. We are all convinced it will not stand."

HE IS NOT THE MAN.

That Cronin Suspect Arrested in St. Louis Proves to Be the Wrong Party.

A Chicago dispatch says that J. B. Kelly, the man arrested in St. Louis on suspicion of being the one who drove Dr. Cronin to the place of his butchery on the evening of May 4 last, was brought to Chicago, and shortly after his arrival Mrs. Conklin and Frank Scanlan, the last two friends of Dr. Cronin to see him alive, and who witnessed his departure from his office on the evening of his death, were called in to see him. They spent half an hour in the private office of Chief Marsh with him, had an opportunity of conversing with him and subjecting him to the closest scrutiny. They not only failed to identify him as the person wanted, but were positive in the opinion that he is not the person who drove the white horse on the occasion referred to. Both were of the opinion that he bears a very striking resemblance to the man wanted, but both agree that there are vital points of difference, and that the prisoner is an older, taller, and stouter man than the one wanted.

THE CRONIN CASE AGAIN.

The Man Who Drove Dr. Cronin to the Cottage Under Arrest.

A St. Louis (Mo.) dispatch says: "Smith," the man who drove the buggy in which Dr. Cronin rode to his death at the Carlson cottage, Chicago, is under arrest here. Lieut. Clark and Officer Collins, of the Chicago police force, who are here, have positively identified him. The arrest of Smith—or Kelly, as the man calls himself—was made by Detective Thomas, of Chicago, assisted by two local detectives. When told by a reporter that he was arrested as a suspect in the Cronin case he said he knew that, but added that he knew nothing about the Cronin case, and did not know any of the persons interested in it except Thomas Desmond of San Francisco. He did not know Bourke, O'Sullivan, the ice man, Alexander Sullivan, Kunze, nor any of those tried for the murder. He had never belonged to the Clann-na-Gael camp, and was not an active Irish sympathizer, although of Irish parentage. He had not been in Chicago for several months. He had been in St. Louis about two weeks, and had been stopping at Fourth street and Christie avenue. The Chicago police authorities believe they have the man who drove the Doctor to his death.

POOR FIRE PROTECTION.

Unsafe Condition of the White House.

A Washington dispatch of the 21st says: The recent fire at the home of Secretary Tracy has caused the Commissioner of Public Buildings and Grounds to give his attention to the White House as a possible fire trap, and he finds that the old mansion will stand a poor show against a good-sized fire. The house is said to be provided now with almost everything that has been invented in the way of fire-escapes. It has been discovered, however, that the nearest fire-alarm box is some distance away, over at the Treasury, and that much valuable time would be consumed in ringing the alarm should the mansion be on fire. Col. Ernst has, therefore, arranged to establish in the White House, free of cost, a system of alarms to be connected with the city fire-alarm service, and when this is done all the precaution possible against fire will have been taken.

SILCOTT HEARD FROM.

The Late Defaulter Said to Be Anxious to Return.

A Washington dispatch says: There is great excitement in Washington. A gentleman well known here and throughout the country came to the city and told a few friends the story of his having met Therman M. Thibault, alias Louise Barrett, in a house in New York City three days ago. Thibault, or Barrett, is the woman who accompanied Silcott, ex-cashier of the Sergeant-at-Arms of the House of Representatives, when he disappeared from Washington at the beginning of December, leaving a deficit of \$70,000 or \$80,000 behind. Barrett then said she was on her way to Washington, and that Silcott would soon follow because "he was tired of playing scapegoat for the real criminal."

About one thousand fishing-boats, with between 2,500 and 3,000 fishermen, drifted out to sea. Nine hundred of these boats with all the men on board were lost. Most of the bodies drifted upon the beach, and were taken care of by their sorrowing relatives.

Many were hurt in making the jump.

No More Bond Purchases for the Present.

No more 4 per cent. bonds will be purchased by the Treasury Department until further notice, the time within which Secretary Windom offered to accept them at 124 in liquidation of public deposits with national banks having expired. The total amount purchased on this account is about \$12,000,000, of which \$7,000,000 was surrendered under the first call for a reduction of the fund. Of the eighty banks included in the second call favorable responses have already been received from sixty-five, which surrendered over \$5,000,000 in Government bonds, thirty-two of the banks going out of the system altogether.

Don't Like the Newspapers.

A Washington dispatch says: Senator Blair has again paid his respects to the press in his speech on his educational bill. The private press, said he, that runs only for its own emolument and has to make money, and that leaves out the most truth—especially if it is unpalatable—is a poor press to rely upon. This great American press of ours is the source of more mischief in this country than there would be if we had no press at all. There may be a time when a dog-fight will not be more important in the opinion of this press than a great school bill, but that time has not been reached.

Said to Be Short \$250,000.

A Jackson (Miss.) dispatch says: "A sensation was created by the rumor that the outgoing State Treasurer, Col. W. L. Hemingway, had not settled in full with the new State Treasurer. Attention was called to the matter on the floor of the Senate and the statement made that the amount not yet paid over was \$250,000. A committee was appointed to investigate the matter and report as soon as practicable. Hemingway had been Treasurer for fourteen years, and no man in the State had enjoyed to a greater extent the confidence of the whole people."

The Timber Act to Be Repealed.

A Washington dispatch says: The House Committee on Public Lands has unanimously agreed to report favorably a bill to repeal the timber culture law. George Francis, the Circumnavigator.

A Boston dispatch says: George Francis Train is busy perfecting his plans for his proposed trip around the world, which he expects to accomplish in sixty days, starting from Tacoma, Wash. THE SENATE AND HOUSE.

NATIONAL LAW-MAKERS AND WHAT THEY ARE DOING.

Proceedings of the Senate and House of Representatives—Important Measures Discussed and Acted On—Gist of the Business.

In the Senate, on the 17th inst., Mr. Dawes presented over 240 petitions from Massachusetts praying that the export of intoxicating liquors to Africa be stopped. Mr. Blair presented petitions signed by 36,000 members of the Grand Army of the Republic in favor of pensions to army nurses, and petitions signed by over 4,000,000 persons in favor of the educational bill. Mr. Frye reported from the Committee on Pacific Railroads the bill providing for the adjustment of the indebtedness of the Union and Central Pacific Railroads. This bill was reported in lieu of two bills which had been referred to the committee. After several unimportant bills were disposed of Senator Blair took the floor and continued his remarks on the educational bill for the space of three hours, when the Senate adjourned. In the House, after the reading and approval of the journal, Mr. Struble reported a resolution making the bill to provide a temporary form of government for the Territory of Oklahoma a special order for consideration on the following day, not to interfere with the World's Fair bills, which were to be taken on Monday, Feb. 21, unless the House shall determine during the debate that there shall be no world's fair. A vote was taken which resulted in 114 yeas to 8 nays, when the Democrats made the point that there was no quorum voting. The Speaker announced that there were 172 members in the hall and that a quorum was therefore present. The decision caused a long discussion between the Speaker and the Democratic side of the House, at the conclusion of which the world's fair resolution was adopted. The House bill for the relief of the Sioux Indians at Devils Lake, N. Dak., was passed, also a bill providing for an appointment of thirty additional medical pension inspectors, but owing to the absence of a bill no result was reached. The House then adjourned.

AMONG the bill reported to the Senate on the 15th from committees and placed on the calendar were the following: Appropriating \$100,000 for a public building at Grand Forks, N. D. To provide for the construction of the State of Idaho into the Union. Senator Blair continued his speech in favor of his educational bill. On motion of Senator Cullom, the Senate proceeded to the consideration of executive business, and after a session of one minute adjourned. The Senate, in executive session, confirmed the extradition treaty with Great Britain. In the House there was no objection from the minority side to the approval of the journal of the previous day's proceedings. Upon motion of Mr. O'Neill of Pennsylvania, the Senate adjourned at 12 noon, March 15, was set apart for the delivery of eulogies upon the late Representative Kelley, of Pennsylvania. Mr. Morrow, of California, from the Appropriations Committee, reported the pension appropriation bill. Referred to the committee of the whole. A conference committee was ordered upon the bill to direct the superintending of the census to collect the statistics of farm mortgages and indebtedness. The House spent the entire afternoon on the bill to organize the territory of Oklahoma and establish courts in Indian Territory.

The Senate passed the following bills on the 19th: Appropriating \$100,000 for a public building at Fort Dodge, Iowa, and \$100,000 for one at Lansing, Mich. Favorable reports have been authorized on bills introduced in the House making appropriations for the erection of public buildings as follows: Baton Rouge, \$100,000; Fremont, Neb., \$60,000; New London, Conn., \$75,000; Allegheny City, Pa., \$25,000; Hudson, N. Y., \$75,000; Lafayette, Ind., \$80,000; Burlington, Ia., and Milwaukee, Wis., \$30,000 each. The bill increasing the appropriation for the building at Milwaukee by \$20,000 and that for the building at Scranton by \$15,000 were also favorably reported. The Secretary of the Treasury sent to the Senate a detailed report of the negotiations for a site for a public building at Buffalo, N. Y., saying the appropriation of \$200,000 is not adequate, and suggesting that the site be purchased by condemnation to avoid difficulty over the question of value. The bill appropriating \$20,000 for a building at Fargo, N. D., will be reported favorably to the Senate. Bills were passed by the House as follows: Dividing the judicial district of North Dakota into four divisions, the sessions of the courts to be held at Bismarck, Grand Forks, Fargo, and Devils Lake, with amendments providing for the division of South Dakota into three divisions, sessions of the courts to be held at Sioux Falls, Pierre, and Deadwood; authorizing the President to confer brevet rank upon army officers for gallant services in Indian campaigns since 1877.

AFTER some routine business had been disposed of on the 20th inst., the Senate took up Mr. Chandler's resolution calling on the Attorney General for information as to the assassination at Quincy, Ill., of United States Deputy Marshal Saunders. Mr. Pasco concluded his remarks and Mr. Hale replied to him, after which the resolution was adopted. Mr. Blair then took the floor and closed his remarks on the educational bill. In concluding his argument he said the measure had been part of the National Republican platform since 1884. It had been incorporated in the platforms of several States. It had been approved by the action of State Legislatures in quite a number of the Northern States, and in some of the Southern States. It had been approved by President Harrison, who had voted twice for it (almost exactly as it now stood) in 1884 and 1886. In fact, the President's hand had been conspicuous in fashioning many of its details when the bill first passed. In spite of all opposition he believed that the sense of self-preservation would cause the bill to be enacted into law. The House on the 20th inst. devoted the day to the discussion of the World's Fair bills. Chicago's claims were presented by Messrs. Hitt, Adams, Taylor and Lawler, of Illinois; Messrs. Cutcheon and Chapman, of Michigan; Mr. Perkins, of Kansas, and Mr. McCready, of Kentucky. Mess
