

A Michigan Central Railroad Employee Wins His Case, After Seven Years' Contest.

While employed as agent of the Michigan Central Railroad Company, at Augusta, Mich., my kidneys became diseased and from an impoverished and impure state of the blood my general health was entirely undermined. I consulted the leading physician of this city and Ann Arbor and all pronounced my case Bright's disease. In October last I began taking Hibbard's Rheumatic Syrup and to-day a well man, it affords me pleasure to render suffering humanity any good that I can, and I wish to say that I think it the greatest blood, kidney and liver medicine in the world.

FRENCH scientific men and engineers are discussing the feasibility of a railroad across the desert of Sahara. It is claimed that such an enterprise is necessary to confirm the hold of France upon her possessions on the west coast of Africa and to develop the North African provinces that she holds.

Miss LARKINS was bilious and feeble and sick, and it seemed as if nothing would ever relieve her. Her liver was clogged with impurities thick, and her stomach was constantly burning with fever.

Of the great G. M. D., she bought a supply. And directions for taking pursued to the letter. 'Twas the best thing on earth she could possibly try.

And soon, very soon, Miss Larkins was better. The G. M. D., which she took was Dr. Pierce's Golden Medical Discovery, the great remedy for bronchial, throat and lung diseases, sick headache, scrofula, dyspepsia, and all diseases that have origin in impure blood and a disordered liver.

The cleansing, antiseptic and healing qualities of Dr. Sage's Catarrh Remedy are unequalled.

The construction of the pillars and foundations of the great Forth bridge consumed 21,000 tons of cement and 707,000 cubic feet of granite. The total amount of resulting masonry is 117,000 cubic yards. The weight of the steel in the bridge proper is 51,000 tons.

A Natural Conclusion.

Prosecuting Attorney (holding up an uncertain-looking object before the jury)—Gentlemen, my client was struck over the head with this bit of sheet iron by the foreman of the composing-room.

Opposing Lawyer (after a hurried consultation with his client)—Your honor, the gentleman opposing me is in error; that is not sheet iron.

Judge—What is it, then?
Opposition—It is the office towel.—*Philadelphia Press.*

The Clangor of an Alarm Bell
Close by, in the stillness of the night, could scarcely startle the ordinary individual more than the trifling noise the nervous invalid. But once the nerves are braced and the system invigorated with Hostetter's Stomach Bitters, this abnormal sensitiveness is succeeded by a tranquillity not to be disturbed by trivial causes. Impaired digestion is a fertile cause of nerve weakness and unnatural mental gloom, and a vigorous renewal of the action of the stomach is one of the surest means of invigorating and quieting the nerves. Inasmuch, or sleeplessness, a form of nervous disease, is unquestionably benefited by sedatives, when it is prolonged, or of frequent occurrence, but its permanent removal is more effectually achieved with the Bitters. This medicine is also signally efficacious for malaria, rheumatism, constipation, liver complaint, and torpidity of the kidneys and bladder.

Trousers and Skirts to Go.

Lady Florence Dixie in the London *Daily Graphic* speaks with great force of the evils arising from the custom of women to wear heavy clothing suspended from the waist, but unhesitatingly declares that the day is fast approaching when "the hideous and senseless long skirt," as her ladyship terms it, will die a natural death.

But it is important to know that this clever and much-traveled lady would not have women wear trousers. She thinks they are hideous at any time, even on men, though she makes an exception in favor of the Zouave pattern for women. Lady Florence says a man looks better in kilts than in trousers, and suggests a somewhat similar dress for ladies, or what may be called the Rosalind costume.

Susan Rhoda Cutler graduated at the Adelbert University, Cleveland, Ohio, taking the honors—valedictory, oration, Latin poem, etc. Shortly after the University decided against co-education. The two facts seem to have been connected. Miss Cutler then devoted two years to studying Italian in Florence, Italy. She is now connected with Biddle University, Charlotte, N. The Excitement Not Over.

The rush on the druggists still continues, and daily scores of people call for a bottle of Kemp's Balsam for the Throat and Lungs for the cure of Coughs, Colds, Bronchitis, Asthma and Consumption. Kemp's Balsam, the standard family remedy, is sold on a guarantee and never fails to give entire satisfaction. Price 50c and \$1. Trial size free.

A REMARKABLE story is told in connection with the explosion at Morfa colliery in Wales. It is stated that recently the foreman of the pit—men who are always selected for gravity and responsibility—have heard inexplicable noises, "shoutings" as they are described, in the workings, and that these have not been heard by one person alone, but by several, when in company examining the pit. Further, a miner returning to the surface felt himself to be accompanied by some invisible presence, which, although not seen by him, was perceived by the banksman to land on the bank and hastily make its way to the shed where the injured and dead are now carried. It is alleged that these strange phenomena were described previously to the explosion, and caused several colliers to refuse to descend, in spite of their thus becoming liable to prosecution.

Hibbard's Rheumatic and Liver Pills.

These Pills are scientifically compounded, uniform in action. No gripping pain so commonly following the use of pills. They are adapted to both adults and children with perfect safety. We guarantee they have no equal in the cure of Sick Headache, Constipation, Dyspepsia, Biliousness; and as an appetizer, they excel any other preparation.

"Forward."

Comparatively few persons in ordinary life have ever been thoroughly sleepy; so sleepy, for instance, they could drop off, as the common saying is, while pistol shots were being fired all about them. Old soldiers, however, know only too well what such a state of exhaustion is like.

During the latter part of this day's experience, writes a Massachusetts soldier, describing a forced march in North Carolina, many became so tired that they slept while standing in the road during the numerous little halts when we were cautiously advancing; and when softly the order "Forward!" was given they would topple like tenpins before they could recover themselves.

Whenever we were permitted to lie down, in spite of the roar of cannon, the rattle of musketry and bursting of shells, the majority would be asleep in an instant, only to be awakened by that recurring "Forward," which seemed to be the only sound that reached their comprehension.

There was something so curious about this that it excited universal comment.

On the Goldsboro march a soldier, sleeping, thoroughly tired out, with his feet to the burning stump of a tree for warmth, rolled over upon it, and set his clothes afire.

Two of three of his comrades seized him and shook him vigorously, shouting themselves hoarse in trying to awaken him and warn him of his danger; but he rolled like a dummy in their hands, and slept on undisturbed till some one mischievously uttered the command "Forward!" when he was on his feet in an instant, rubbing his eyes, and gathering himself together ready to march.—*Exchange.*

A LOVELY WOMAN

overheard one say of her, "By Heaven, she's painted!" "Yes," retorted she indignantly, "and by heaven only!" Ruddy health mantled her cheek, yet this beautiful lady, once thin and pale, and suffering from a dry, hacking cough, night-sweats, and a dry, hacking cough, seemed destined to fill a consumptive's grave. After spending hundreds of dollars on physicians, without benefit, she tried Dr. Pierce's Golden Medical Discovery; her improvement was soon marked, and in a few months she was plump and rosy again—a perfect picture of health and strength.

This wonderful "Golden Medical Discovery," now world-famed as a remedy for consumption, which is really lung-scurf, is not only an acknowledged remedy for that terribly fatal malady, when taken in time and given a fair trial, but also for all forms of Scrofulous, Skin and Scalp diseases, as White Swellings, Fever-sores, Hip-joint Disease, Salt-Rheum, Tetter, Eczema, Boils, Carbuncles, Erysipelas and kindred ailments. All scaly, crusty, itching, troublesome eruptions yield readily to its curative powers. It invigorates the liver, enriches

One Reason

Why nearly everybody should take a good medicine in the spring is because at this season the system is especially susceptible to the benefit to be derived from a reliable preparation like Hood's Sarsaparilla. In the winter various impurities accumulate in the blood, the effect of which is most felt when spring comes on, in general weakness and languor. The system craves assistance to maintain the health tone and expel impurities, which Hood's Sarsaparilla readily gives. Try it.

"For five years I was sick every spring, but last year began in February to take Hood's Sarsaparilla. I used five bottles and have not seen a sick day since." G. W. SLOAN, Milton, Mass.
