

FRIDAY JULY 18 1890

Entered at the postoffice at Rensselaer, Ind.
as second-class matter.

DEMOCRATIC CONVENTION.

The Democratic voters of Jasper county, and all other enemies of monopolies, trusts and combines, who believe that the adoption of Democratic principles are essential to the welfare of the whole people, are requested to meet in mass convention at the usual voting places, in the various townships, on

SATURDAY, JULY 26, 1890,
at 2 o'clock p. m., to transact the following business:

1st. Appoint a committee of three, who, with the chairman of township committee shall prepare a complete and accurate poll of the voters of the township, the same to be delivered to the chairman of the central committee on the date of the county convention.

2d. Select such other committees as may in the judgment of the convention be necessary to a complete and thorough organization of the party in the township.

3d. Select one delegate for each ten votes, and one for each fraction over five votes cast for C. C. Matson for Governor at the November election of 1888. The above apportionment entitles the various townships to delegates as follows:

Hanging Grove	4
Walker	7
Marion	20
Newton	7
Kankakee	4
Carpenter	17
Union	8
Gillam	4
Barkley	8
Jordan	7
Keener	3
Wheatfield	6
Milroy	3

The delegates so selected will meet in delegate convention in the Town of Rensselaer, on

SATURDAY, AUGUST 2, 1890,
at 1 o'clock p. m. to nominate a county ticket to be voted for at the November election, 1890, and also to appoint delegates to the various conventions.

By order of County Committee.
DAVID W. SHIELDS,

Chairman.

JAS. W. McEWEN, Sec'y.

We trust our Democratic friends in the several townships of Jasper county will bear in mind that Saturday of next week, July 26th, is the time designated for holding township conventions for the purpose of selecting delegates to the County Convention, to be held in Rensselaer, the following Saturday, August 2, 1890. Turn out! Send in full delegations. Instruct them to select a full ticket of honest, capable, representative men, and Jasper county will be redeemed! There will be no bulldozing this year, thanks to a Democratic legislature, and an election law worthy its labor. Again, we say, turn out!

The Democrats of Marion township are requested to meet at the Court House, in Rensselaer,

SATURDAY, JULY 26, 1890,
at 2 o'clock, p. m., to transact business enumerated in the call, and select 20 delegates to the County Convention.

LEE E. GLAZEBROOK,

Chairman Township Com.

Democrats! Remember July 26!

The Democracy of Jasper and Newton counties will soon be called upon to present a candidate for the suffrages of the people to represent them in the House of Representatives of the State. He should be honest, capable, intelligent, and in full sympathy with the people. We submit the name of LEE E. GLAZEBROOK, of this county. He is an industrious farmer and tills the soil in summer months; he is a capable educator, and in winter months is generally employed by our school officials to instruct the minds of youths. He is no office-seeker, and this announcement will probably be more of a surprise to him than to any other of our readers. He will come nearer meeting the demand at this time than any other that can be named, and we are satisfied, too, he can be elected.

The Democrats of Newton county have placed a good, strong ticket in the field, and we hope it will be elected.

Last week one day we were confronted by an old friend with the information that a report was in circulation that we intended to support a nominee on the county republican ticket. It was decidedly news to us, contrary to our mode of proceeding, never having done such a thing in our life, and we therefore promptly gave it the lie. This week an honest, well-to-do farmer friend was approached by a certain gentleman (?) of more leisure than discretion or means with the proposition: what he thought would be the outcome of a new paper? Is there a connection between the false report and the proposition? Did the originator of the proposition in this case originate and circulate the lie referred to? Evidently

"Satan finds some mischief still
For idle hands to do,"
even during this hot weather.

There is a probability that the republican election force bill which passed the House on such a small margin and has gone to the Senate will not be acted on this session. It is a bill designed to perpetuate republican rule in spite of the people. It places partisan supervisors in charge of election precincts who are responsible to no authority for their actions, and the provisions of the law to be enforced and sustained by bayonets. We do not believe the people will sanction this advance toward the establishment of a despotism. It should be made an issue in the approaching elections.

Read the remarks of Judge Chipman, of Michigan, in the House, on the Lodge infamy—the force bill—in this Sentinel.

Jas. G. Blaine has written another letter, this time to Senator Frye, of Maine, in which he criticizes and severely condemns the McKinley tariff bill. He says:

"There is not a section nor line in the entire bill that will open a market for another bushel of wheat or another barrel of pork."

Referring to sugar, he insists that the tariff should not be taken from it unless Cuba will receive our wheat and flour free. He refers to the retaliatory disposition of England in the encouragement given by that government to the production of cereals by its own people to the exclusion of our products, etc. J. G. B. is imbibing Democratic doctrine.

The Farmers' alliance of Minnesota in its platform adopted the other day denounces the McKinley bill as "the growing infamy of protection."

WAR ON THE FARMER.

[From 1st page—Concluded.]

There was nothing to prove; nothing to doubt. The World said nothing. It merely reprinted, with out charge, the advertisements of these American manufactures circulated in foreign countries. The foreign prices were given in the foreign advertisements, and the latter were photographed.

The only question that might be raised is the genuineness of the advertisements. This cannot be done with those heretofore published, because the World has made provision to supply every doubter with the export edition of the Engineering and Mining Journal in which they appear.

It may be raised—the advocates of protection are desperate enough to do anything and say anything—on the carefully guarded Spanish edition of the American Mail and Export Journal, because no copies of it can be procured in this country; but such a policy would be suicidal. The publishers can be compelled to produce their files in court—if copies can be seen in no other way. There are too many honest men in the Republican party, and the proof is too overwhelming, for denial to succeed.

No man with common sense, whatever his politics, can doubt the genuineness of these advertisements.

And no man with common sense wants one word added to what they tell him of the object of protection.

If the G. A. R. will only employ a clerk at every post to prepare applications for pensions under the new law, it will accomplish two objects—save the "old soldiers" enormous fees, and refute the charge that the organization is controlled by claim agents.

We are all right and I believe we will have a majority of forty or sixty in the next house. The democratic party has much to expect in the way of support this year from the workmen of the country. Our working people are, on the whole, intelligent, and they have learned a good deal since the election two years ago. They know now that the Republican party is a party of corporation and monopoly thieves, owned and controlled by a half dozen corporation managers. The working people have nothing to expect from the corporations. Their only show for relief from their present overtaxed condition is to act with the democrats, and that is what they are going to do.—Roger Q. Mills.

"I see gentlemen rising on that (Republican) side of the house, one contending for a high duty on lead, another for a low duty on lead, each one of them declaring that his particular industry will be ruined unless his theory is carried out. On the other hand, one wants a high duty on glass and another a low duty; and so on throughout the whole of the schedules. It is not a question as to whether the government needs the revenue or not; it is not a question as to whether we are levying duties for the purpose of raising revenues to go into the treasury; it is not a question whether we are levying duties for the purpose of raising revenue to go into the treasury; it is not a question whether the majority of the American people are to be benefitted by this bill; but it is a scramble, a trade and a bargain on the part of gentlemen on that side of the house to see who can get the most of the steal in this bill. It is a mere bargain and sale; a trade, a scramble, a grab game; and it seems that those who have got their maw into it are standing watch so as to crowd all the rest out. The whole thing is a steal and a robbery of the great American people."—James G. Blaine.

C. M. Compere of Fort Wayne called in to see us the other day. He was here in the interest of Henry C. Berghoff, a prominent Democratic candidate for nomination for state treasurer.
