

AROUND THE WORLD.

INTELLIGENCE FROM EVERY PART OF THE GLOBE.

News from Foreign Shores—Domestic Happenings—Personal Portraits—Labor Notes—Political Occurrences—Fires, Accidents, Crimes, Etc.

A TUMULT IN THE HOUSE.

Mr. Mills Charges the Speaker with Intentionally Practicing Fraud.

The House, on the 20th, experienced the stormiest scene of a very stormy Congress. The trouble arose over a motion to approve the Journal without debate. Hard words passed between Mr. Mills and Mr. McKinley, and it was not until the Sergeant-at-Arms and some friends had forced Mr. Mills into his seat was order restored. The row has significance from the fact that the leaders of both sides of the House were the principals. The scene in the House was re-enacted in the Senate, when Mr. George, of Mississippi, refused to yield the floor to Mr. Aldrich, who was anxious to present the cloture resolution. Mr. George had the floor, and the Senate adjourned the previous night, and parliamentarianry rules gave it to him at reassembly. Mr. George's plan is apparently, to hold the cloture off indefinitely. The prospective struggle over the force bill is the all-absorbing topic. Both sides are anxiously counting noses.

Furniture for Fuel.

Governor Humphrey, at Topeka, received through the Board of Railroad Commissioners a dispatch from Rawlins County stating that the suffering in Northwest Kansas due to hunger and cold was greater than had been reported, and that immediate steps must be taken to render assistance. A message was hastily drawn up and submitted to the Legislature advising an emergency bill, by which coal could be shipped at the State's expense from the coal-mines near Leavenworth. Dr. York, the Representative of Rawlins, was given permission to lay before the House the condition of affairs in his county. He said that he was in receipt of a long dispatch, which stated that many of the settlers were burning their furniture, and that more than twelve inches of snow covered the ground.

Death of King Kalakaua.

King Kalakaua, who came to this country about a month ago, died at the Palace Hotel in San Francisco. There had been no hope of the King's recovery since Sunday, though his alarming condition was not generally known until the attending physicians announced that his malady was Bright's disease of the kidneys and anemia. Kalakaua's visit to this country was made on account of his failing health. He commenced to gain strength soon after his arrival here, but the improvement was only temporary, and soon after his return from a trip to Southern California his condition became much worse. During the last few days the King was unconscious nearly all the time, and his life was prolonged only by the use of stimulants.

Peace at Pine Ridge.

The excitement over the Ten Tails murder has died out. The commanding General's talk to the chiefs has resulted in a thorough understanding on their part that the civilian murderer will be brought to justice. All the troops, barring the First Infantry, will be drawn up for review at Wolf Creek. The place selected is just two miles from the agency and is shut out from sight of the Indians by a ridge of hills. The particular reviewing ground was selected on account of the fact that the bucks if they saw the troops in such array might misunderstand its meaning.

Teachers Averted a Panic.

At St. Louis the cool-headedness and presence of mind displayed by the teachers of Shaw School averted what would otherwise have developed into a panic, attended with loss of life among the pupils. Fire was discovered in the basement, and the children became greatly excited, but were all gotten out safely. Loss, \$3,000.

Shot and Killed His Wife.

At Syracuse, N. Y., John Baker, a Chicago drummer, shot and killed his wife in a school in which she was employed as a teacher. The deed was done in the presence of the children, and the murderer held his own 16-months-old child in his arm when he fired the shots.

Decided Against Pullman.

In the United States Court at Chicago Judges Gresham and Blodgett refused the application of the Pullman Palace Car Company for an injunction to restrain the Lake Shore and Michigan Central railways from using the Wagner vestibuled trains.

The Row in Chili.

The latest arrivals received from Chili show that there is no improvement in the state of affairs in that disturbed republic. It also seems possible that a portion of the British fleet in the South Pacific Ocean may soon be investigating the disturbance.

Bancroft's Funeral.

Funeral services over the remains of the late George Bancroft, the venerable historian, were held at St. John's Protestant Episcopal church at Washington.

To Test the Tariff Law.

Several St. Louis importers have filed suit against the United States Government to test the constitutionality of the McKinley law.

Wanted to Swing a Wife-Beater.

An unsuccessful attempt was made at Lombard, a suburb of Chicago, to lynch a wife-beater named Miller.

A Motor Company's Loss.

The plant of the Standard Motor Company of Chicago was destroyed by fire. The loss is \$187,000; insurance, \$30,000.

Another Bank Failure.

The Bank of Downs, at Downs, Mitchell County, Kan., has suspended.

A Collision at Sea.

The American ship Sea King arrived from Pisagua, Peru, badly damaged. The Sea King was run into in Pisagua harbor by a French iron ship. A court of inquiry attached the blame to the Sea King and Capt. Setchell was ordered to pay damages.

Fear an Ice Failure.

The Missouri River is still open in South Dakota, with the temperature at 65 degrees. As the river usually breaks up in February fears are entertained that there will be no ice crop.

KOCH'S CURE FOR CONSUMPTION.

The Berlin Doctor Tells the World How It Is Made.

Prof. Koch's report describing the composition of his lymph is comparatively brief. It says the lymph consists of glycerine extract derived from the pure cultivation of the tubercle bacilli. Prof. Koch says: Since publishing, two months ago, the results of my experiments with the new remedy for tuberculosis, many physicians who received the preparation have been enabled to become acquainted with its properties through their own experiments. So far as has been able to review the statements published and the communications received by letter, my indications have been fully and completely confirmed. The general consensus of opinion is that the remedy has a specific effect upon tubercular tissues, and is therefore applicable as a very delicate and sure agent for discovering latent and diagnosing doubtful tuberculosis processes. Regarding the curative effects of the remedy, most reports agree that, despite the comparatively short duration of its application, many patients have shown more or less pronounced improvement. It has been affirmed that, in not a few cases, even a cure has been established. Standing quite by itself is the assertion that the remedy may not only be dangerous in cases which have advanced too far—a fact which may forthwith be conceded—but also that it actually promotes tuberculous process, being therefore injurious.

BUSINESS PICKING UP.

Reports Indicate an Increase in Volume During the Week.

R. G. Dun & Co.'s weekly review of trade says: How far the situation and prospect may be changed by the passage of a Free Coinage bill by the Senate is as yet mainly a matter of conjecture. Reports of the state of trade at different points reflect mainly a situation prior to that vote, and show general improvement in the volume of business, easier money markets, and a more cheering outlook. The exports of merchandise have heavily exceeded imports in value; at New York for January thus far the increase in exports over last year has been \$1,400,000, or about 12 per cent, while the imports here show a decline of \$2,900,000, or about 15 per cent. The preliminary reports of exports of cotton, breadstuffs, provisions, cattle, and petroleum in December were almost unprecedented. Hence it appears that the excess of exports in December was very large in spite of the decline in movement of breadstuffs which higher prices tend to prolong. For the last week, with wheat 1 cent higher, corn and oats practically unchanged, and three-cent advance in higher export wheat has been only about half of last year's, of four less than a quarter, and of corn only one-eighth, while the exports of cotton show a decrease for the week in spite of a considerable increase in receipts. Pork has not changed, but lard and hogs are lower, oil is 1 1/2 cents lower, and the speculative markets are generally weak outside of those above mentioned.

IT'S A REAL SURRENDER.

Hostiles Turn Over a Lot of Good Guns.

A lot of arms have been turned in to Captain Pierce by the hostiles. They informed him that a systematic search was being made in their tepees for weapons, and these found would be turned over immediately. The exact number of arms surrendered can not be ascertained from the custodian, though the latter placed the number at about 500. At headquarters it is claimed the arms turned over exceed in number any received by them under similar circumstances in the history of the army. General Miles will leave for the East some time next week, unless something unusual should take place, and General Brooke will assume command of the forces which may remain in the field. It is rumored that four companies of the Second Infantry from Omaha, General Wheaton, will remain during the winter and that the other four companies will return home.

TO BE EXPELLED FROM THE NATION.

Non-Citizens in the Chickasaw Territory to Be Exiled.

A meeting of the squaw-men of the Chickasaw Nation was held in Purcell, I. T., to oppose the allotment of tribal lands to the Indian Nation. The convention endorsed Gov. Bryan's policy and promised to aid him in expelling intruders from the Nation. They urged that the editors of leading papers favoring the allotment and Statehood movements be exiled. There are 35,000 non-citizens in this country, and this element is too powerful for the Indian Government to force the collection of the tribal tax or put them out of the country. The non-citizens are uneasy at this proposed wholesale expulsion, as they feel that the Government is in earnest and fear that the United States may accede.

SELL PORK TO CANADA.

Canadians Buy a Large Share of Our Hog Product.

When the tariff changes were announced last year Canada pork-packers estimated that the duty imposed on pork would be something like \$6 per barrel, and this they thought would enable them to compete successfully with their American confreres, but their success has not materialized, and its failure to do so is alleged to be due to the interpretation of the tariff by the Minister of Justice. The tariff is to have all pork but mess, which was to pay one and one-half cents per pound, pay three cents per pound, but that through an oversight the schedule, instead of reading mess pork, read simply pork one and one-half cents.

FARWELL ISN'T IN IT.

Oglesby the Republican Candidate for Senator from Illinois.

Richard J. Oglesby is for the second time in his life the candidate of the Republican party of Illinois for a seat in the Senate of the United States. His nomination was made on the first regular ballot of the Senatorial caucus at Springfield. He received more votes than were necessary to make him the choice of the party, and on motion of Senator Charles H. Crawford the nomination of Gov. Oglesby was made unanimous. The result was not unexpected—in fact, little or no surprise was expressed at the result. Senator Farwell was opposed by the farmers because he was a millionaire, and the farmers were mainly instrumental in defeating him.

Hard Times Made Him a Robber.

At Belts, Tex., George Smith, a farmer, entered a saloon and compelled seven men at the point of a revolver to hand over their money and valuables. As he was leaving the saloon Jim Sibel, the Town Marshal, fired, but missed him, and Smith returned the shot and the bullet entered Sibel's head. He will die. Smith was afterward captured and placed in jail in spite of the efforts of the mob to lynch him. He said that hard times and poor crops decided him to become a robber.

Indians Cause Trouble in Washington.

Indians near Coulee City, Wash., are in war paint, and the young bucks are all eager to go on the warpath. The people are alarmed all along the line of the railroad, and especially on the border of the

reservation. The following petition was sent from Spring Coulee, Okanogan County, to the commander of Spokane Post: "We, citizens of Okanogan, ask and demand that you send troops to protect us against Indians who are preparing for an outbreak. There is imminent danger of trouble. There will probably be fighting ere you get this. Indians here and from British Columbia are all armed for war."

George Bancroft Gone.

The news of the death of George Bancroft, the great historian, comes from Washington. Mr. Bancroft had been in bad health for over two years and the increase

Geo Bancroft

ing infirmities incident to his old age at last brought about his death. He was born in Worcester, Mass., in 1800, and became famous through his History of the United States.

To Move on the Cherokee Strip.

Since the introduction in the Kansas House of Representatives by Congressman Mansur of a bill to open up the Cherokee Strip to settlement immediately and treat with the Indian afterward, the "boomers" in the vicinity have been actively at work sending out circulars to that point for an immediate invasion of the strip. The colony consists of 3,000 members, and a private letter has been mailed to each one to assemble on or before Jan. 23, and be prepared to make their permanent home in the Cherokee Strip.

Declines a Big Offer.

Senator Spooner is said to have declined an offer of \$25,000 a year to locate in Chicago and become Solicitor General of the Chicago and Milwaukee Railway after his retirement from the Senate. It is said to be his desire to remain a resident of Wisconsin, and Milwaukee will be his future home. He has already been retained as counsel by some of the heaviest iron houses of Cleveland, and will devote himself almost exclusively to corporation business.

Collapse of Ohio Gas Fields.

Columbus, Ohio, is without a single natural-gas fire, and numerous cases of great inconvenience are reported on account of the sudden cut-off of the supply. The company says that in all probability the gas will never be turned on again, as the supply will not be sufficient for practical use. In speaking of the value of the plant of the company, the superintendent said he did not regard it as worth \$1 at the present meter rate of gas.

Charged with Express Robbery.

Detectives have arrested H. W. Mumford, of Cleveland, Ohio, on the charge of being the accomplice of Frank Smith in the bold express robbery on a Cincinnati, Sandusky and Cleveland train near Urbana, Ohio, last fall. Mumford is the uncle of Smith. The latter has been in jail at Urbana for some time. Mumford was tracked to Kansas City and back, and was caught in Athens County. He was arraigned at Urbana and released in \$1,500 bail.

Effect of Cold Weather in London.

The statistics published by the London Record Office for the week ending Jan. 12 show that the recent stress of weather has caused the mortality from diseases of the respiratory organs to increase from 487 to 991, while the total mortality of the city is 490 above the average for the same week during the last ten years. It is a curious fact, too, that in the same week the births have decreased 305 from the average.

Northwestern Wheat Statistics.

The Minneapolis elevators report to the Northwestern Miller a stock of 2,734,000 bushels of wheat, and it is estimated that the aggregate private stock amounts to 4,400,000 bushels, or a gain of 180,000 over last week. The Market Record estimates the stock in country elevators of Minnesota and the two Dakotas at 8,540,000 bushels, a decrease of 235,000 compared with last week.

Unpublished Letters of Thackeray.

Among the most interesting literary sales which always form so important a feature of the London season proper is one which cannot fail to attract a great many Americans, for a number of unpublished letters of Thackeray will be brought under the hammer. These, which his admirers will have an opportunity of examining in due course, are understood to form a portion of the collection of manuscripts of Lord Crawford's library.

Will Make Sewing Machines.

The stockholders have decided to start Tibbles' sewing-machine plant at Tibbles, Ia., in the near future. A new company has been formed to buy up all the claims. The company has a \$150,000 plant there that has been idle two years on account of litigation over certain subscriptions made to C. E. Tibbles.

Two Towns Destroyed.

Further details of the destruction wrought by the severe earthquake in Algeria have been received. The towns of Gouraya and Villebourg were practically destroyed by the shocks and forty persons were killed by the falling of walls. The amount of damage done to property is estimated at \$20,000.

A Building Blown Up.

At Omaha, Neb., a building occupied by Klein & Spiegel as a wholesale liquor store was completely demolished by an explosion together with \$12,000 of liquors. In the ruins the body of an unknown man was found burned to a crisp. The cause of the explosion is unknown.

A Reported Gas Trust.

It has been reported that a natural gas trust was being formed, and that the action of the gas company at Columbus, Ohio, recently, in shutting off the supply on the plea that the wells were exhausted was part of a scheme to extort higher prices from consumers.

A Massachusetts Storm.

Massachusetts has had a genuine ice-storm similar to that of six years ago. Damage on a large scale to buildings or

shipping was nowhere done, as, but the telegraph, telephone, fire-alarm and electric-car service is nearly every part of the State was thoroughly demoralized.

Big Offer from Englishmen.

Interested parties have confirmed the rumor that an English syndicate had offered \$2,000,000 for the Durango-Mining Company's plant in New Mexico. Besides the plant, the company has 43,000 acres of land. The capital stock is \$5,000,000. The offer will probably be accepted.

Russia Buying Gold.

The Russian Minister of Finance is buying up all the gold that he can obtain abroad. It is believed he has accumulated as much as 15,000,000 rubles. It is stated that the Russian Government meditates a law to prohibit foreign vessels engaging in the Russian coasting trade.

Convicted of Heresy.

The Rev. J. R. J. Milligan, on trial at Pittsburgh, Pa., for heresy, was found guilty by the Pittsburgh Presbytery of the Reformed Presbyterian Church. The trial of the Rev. Mr. McClurkin on the same charge will be taken up next. The convicted minister will appeal to the General Synod.

A Big Bank Failure.

National Bank Examiner F. E. Marshall, for the State of Missouri, has taken charge of the American National Bank of Kansas City. The capital stock of the bank is \$1,250,000. No statement of the assets and liabilities has yet been made.

Buried Under a Mountain.

A disastrous landslide occurred on the line of the Northern Pacific near Palmer, Wash. A mountain of earth and rock now covers the tracks of the road for a distance of over 300 yards, and travel has been completely shut off.

Shot While Resisting an Officer.

June Castillo, one of the convicts who broke jail Nov. 30, at Tucson, Ariz., was captured leaving Gila Bend by Officer Perrin. He was well armed and resisted arrest. He was shot through the leg and will probably die.

Shot His Son-in-Law.

Judge G. A. Warder, City Attorney of Chattanooga, Tenn., shot and instantly killed his son-in-law, S. M. Foyette, cashier of the South Chattanooga Savings Bank. Whisky did it.

Confessed to Poisoning Coffee.

At Lexington, Ky., Daniel Frazier and wife and Peter White and wife, all colored, were poisoned, the first named dying. White's daughter was arrested, and confessed putting arsenic in the coffee.

Horton's Big Fire.

Horton, Kan., came near being entirely destroyed by fire. A row of buildings on East Main street was entirely wiped out, entailing a total loss of \$200,000.

Damages from a Railroad.

Peter Kremer, of Blue Earth County, Minnesota, has been granted a verdict of \$4,755 against the Milwaukee Road for damage to his farm through a right of way.

One Woman Killed.

A colored woman whose name was unknown was instantly killed by an explosion of sewer gas on State street, in Chicago. Several others were injured.

A Baby with a Gun.

Mrs. Wilson, of Ottawa, Kan., left her three young children alone in the house. Nora, the oldest, found a pistol and accidentally shot her sister Sylvia.

Earthquake in Mexico.

Earthquakes occurred Friday at Parral, in the State of Chihuahua. The gallery at the convent of the Sacred Heart gave way, killing six persons and wounding nine.

Identified a Crook.

Barker, alias Britton, one of the College of Music twin crooks, has been identified at Cincinnati as the man who shot "Blinky" Morgan in Detroit in 1886.

Blew Out Her Brains.

Hettie Fontaine, aged 16, living near Seymour, Ind., blew out her brains because her father forbade her to keep company with a young man.

Ethel Towne at Liberty.

After being out five hours the jury in the Ethel Towne case at Terre Haute brought in a verdict of not guilty.

Literally Cut to Pieces.

At Braddock, Pa., Jacob Walters and his son Harry were literally cut to pieces by a train while walking on the track.

Fitzsimmons Is Champion.

At New Orleans Bob Fitzsimmons, the Australian middleweight, knocked out Jack Dempsey in the thirteenth round.

Senator Hearst Is Better.

Senator Hearst is feeling brighter and better, and prospects are good for yet a longer lease of life.

Nevada Legislature Convenes.

The fifteenth session Nevada Legislature is in session.

STREETER IS THE MAN.

ILLINOIS FARMERS WANT HIM FOR SENATOR.

The F. M. B. A. Members of the Legislature Nominate the Mercer County Farmer to Succeed Senator Farwell, and Announce Their Determination to Stand by Him.

(Springfield, Ill., dispatch.)

Alson J. Streeter of New Windsor, Mercer County, is the candidate of the F. M. B. A. party of Illinois for United States Senator for the term of six years, to succeed Charles B. Farwell.

This was unanimously decided upon at the caucus of the F. M. B. A. party, and Mr. Streeter was at once advised of the honor which had been conferred upon him. He was in consultation with the three F. M. B. A. members, and they have agreed to support him for an indefinite time, in the belief that one or the other of the two old political parties must come to their support.

Mr. Streeter was born in Rensselaer County, N. Y., Jan. 18, 1823, and will be 63 years old next week. He has been an active figure in Illinois politics since 1872, when he was elected as a member of the House of Representatives. Always a farmer, having no other calling or profession, he is known to the agriculturists of the entire West. He owns 8,000 acres of excellent farming land in

A. J. STREETER.

Mercer County and is a well-known breeder of fine stock. In 1884 Mr. Streeter was elected as an independent to the State Senate of Illinois. There he distinguished himself in the Senatorial contest by refusing to vote for William B. Morrison, the Democratic candidate. Morrison held that Streeter should support him because the Democrats of the Twenty-fourth Senatorial District had generally supported Mr. Streeter in the previous election. Two days before the United States Senator was elected Mr. Streeter, who had been constantly voted for Gen. John C. Black for United States Senator, finally agreed that he would support Mr. Morrison if the latter would withdraw when his inability to be elected became apparent. This arrangement was carried out. Both Mr. Streeter and Speaker Haines, the Independent Democrat, voted for Mr. Morrison, and he twice received the full vote of the party, but was unable to be elected. Then he was dropped for Lambert Tree, who had no better success, the final result being that John A. Logan was re-elected. During Mr. Streeter's service as a legislator he refused all favors to corporations and invariably sent back railroad passes tendered him. He led the fight several years ago in the Railroad and Warehouse Commissioners to compel railroads to sell him mileage tickets at the same rate given traveling men. In this fight he was finally successful.

In 1888 Mr. Streeter was the United Labor candidate for Governor of the State of Illinois, and polled an unusually large vote. His public life has been characterized by his opposition to corporations and his championship of the farmers in
