## THE SLEEP OF DEATH.

AN ATTACK OF GRIEF PRODUCES UNBROKEN SLEEP.

Cotton Crop Report for November—Big Blaze at Philadelphia—Saved His Life by a Tail Hold—Cutting the Price of Oil—May Result in Lying.

## HE SLEPT HIMSELF TO DEATH.

A Michigan Man Falls to Awake from a Six-Months' Nap.

Two young people, George A. Wyand, of Montague, Mich., and Miss May White, of Stockbridge, Mich., have been married. The bride died recently. His prolonged slumber followed an obstinate case of the grip. For four months he never spoke a word or left his couch. About Aug. 1 he moved slightly and murmured a few incoherent words, but never fully regained consciousness. He suffered from a pain in the back of the head. At death he weighed less than fifty pounds, although when in health he weighed 170 pounds. Miss White has brief intervals of waking nearly every day, when she cheerfully predicts her recovery. Her sleep is so deep that a pin pricking her arm produces no effect. Miss White's remarkable slumber followed a fall in Ypsilanti, Mich., where she was attending a business college. The injury was to an abscess in the left side and this was followed by spinal fever.

## GOT A TAIL HOLD.

Thorothy Ed Jackson Saved Himself from the Consequence of a Bull's Fury.

Ed Jackson, a colored man in the employ of Farmer O. D. Dow, near Scranton, Pa., had a narrow escape from the horns of a vicious Durham bull. Jackson was in the field, and was about to start for the house when the bull made a lunge at him. The colored man jumped to one side just in time to let the bull pass him. Again the mad animal bounded toward him with lowered horns, and Jackson dodged behind the fence and grabbed him by the tail. The bull whirled round and round in his endeavor to gore Jackson, bellowing so loud that the cattle took fright and went cowering to a distant part of the lot, with tails in the air. The bull, however, was not content with a high rate of speed, but his hind was good and he clung to the tail until the bull had become so completely cowed that he started on a run across the field. Then Jackson let go of the tail and took his time to get out of the lot.

## COTTON CROP REPORT.

Returns for November Not Favorable for a Large Yield.

The cotton returns of the Department of Agriculture for November are not favorable for a high rate of yield. The lateness of the crop, the extremes of temperature, the excess of rainfall followed by drought, causing untended fields and loss of foliage and fruit, have been unfavorable for a large crop. On the northern border of the belt killing frosts occurred early. West of the Mississippi there has been some improvement during the past month. The season has been very favorable for picking. Quality is almost everywhere reported high, and the fiber is of good color and unusually free from trash. The yield, as averaged from the county estimates, averages 179 pounds per acre. As killing frosts have not yet been general in the southern and western sections of the belt, it is possible, with favorable weather following, that current expectations may be slightly exceeded.

## \$250,000 IN ASHES.

Lippincott, Johnson & Co., of Philadelphia, Pa., Burned.

At Philadelphia the fire was discovered in the large building occupied by Lippincott, Johnson & Co., dealers in woollens and clothing. The flames spread rapidly, and before the engines reached the scene the whole building was in flames from basement to roof. Lippincott, Johnson & Co. carried a full stock of goods, and the damage to the building and contents is roughly estimated at \$250,000. The origin of the fire is unknown, but the general supposition is that it originated from gas escaping from a leaky main in the street, or a service pipe in the store being ignited by coming in contact with the fire in the hearth in the basement. Adjoining were the dry goods house of Williams, Yerkes & Co. and the hardware house of Graham, Enlen & Passmore. Their goods were considerably damaged by water.

## ANOTHER CUT IN OIL.

The Standard Company Makes a Further Reduction at St. Louis.

At St. Louis the Waters-Pierce Oil Company, the local representative of the Standard Oil Company, made its thirty-fifth reduction in the price of oil since in 1888 it inaugurated a fight against the International Oil Company. Since the beginning of the fight the price of oil in St. Louis has been reduced 64 cents a gallon. The International Oil Company announces it will meet this cut of the Standard Company's representatives and the fight will continue.

## There May Be a Lynching.

At Crothersville, Ind., in an unprovoked quarrel, Henry Murphy, a prominent young business man, was shot twice and probably fatally injured by Allen Bryant, a dissolute fellow. Bryant was hurried across the country in the darkness to jail, but the excitement is intense. Should Murphy die Bryant will probably be hanged by the indignant people.

## Frederick Mathushek Dead.

Frederick Mathushek, the inventor, whose piano improvements are in general use all over the world, died at his home in New York. Although his inventions would have made him enormously rich had he patented them, he gave them to the world, and died a comparatively poor man. He was born in the palace at Mannheim, Germany, in 1814, and early developed great mechanical genius.

## Preferred Death to the Poor House.

Victor Lindholm, a drunken Omaha tailor, committed suicide by hanging while a friend was trying to secure his entrance to the poor house.

## Has Dismissed the Case.

The Court of Claims has dismissed the suits of the States of Indiana, Ohio, and Illinois against the United States to recover the 2 percent. fund retained from the sale of the Cumberland Gap Road.

## New Consul in Venezuela.

The President has appointed Peter Standley United States Consul at Ciudad Bolivar, Venezuela.

## Disastrous Hurricane in Spain.

A hurricane swept over Chicla, Spain, and did immense damage. The town of Segura is inundated, bridges destroyed and its streets impassable. Many cattle have been drowned.

## Bad Wreck in Georgia.

The outgoing Western & Atlantic passenger train was thrown off the curve by train wreckers as a sharp curve, eight miles from Atlanta, Ga., and it is reported that six men were killed.

## Nine Miners Killed.

In the Anacosta copper mine, Butte City, Mont., eight miners were swept off an

ending cage by the fall of another, and were precipitated a distance of 1,320 feet. Death was instantaneous. The mine was closed on account of the accident, and the flags at half-mast.

## THE CHINESE INSURGENTS WIN.

Tehhuu Capitulates to an Attack of 3,000 Rebels.

The steamer City of Rio Janeiro brings particulars of a serious riot in the province of Fokien, China. The scene of the trouble is Tehhuu, which was attacked by 3,000 insurgents. One unfortunate fell into the hands of the insurgents, who nailed his hands and feet to a board and cut him up piecemeal. The city held out for three days. The insurgents seized a favorable moment to send a large force under cover of their own fire to storm the defenses. The walls were low and were easily scaled. A bloody struggle ensued, resulting in favor of the attacking party. Their leader, Chen, was the first to leap over the wall, and rushing straight to the jail he first liberated the prisoners and then searched for the Magistrate and his family. The Deputy Magistrate was last seen fighting hand-to-hand against overwhelming forces, disputing every inch of ground. At last accounts 1,000 imperial troops were on the march against the rebels.

## DICTATOR IN BRAZIL.

Martial Law Proclaimed in the Republic by Congress.

The Brazilian congress has resolved that martial law be proclaimed and the dictator appointed. It is but two years ago that Brazil experienced the greatest of all its political revolutions, when, on the 15th of November, 1889, the monarchy of Dom Pedro gave way to the republic over which

DOM PEDRO DA FONSECA.

General da Fonseca was subsequently made president. The emperor, who had reigned since 1831, and the empress were then placed on board a steamer in the harbor of Rio Janeiro and sent off to foreign lands to pass the remainder of their days. There have been frequent disturbances since the establishment of the republic, but none of them has attained to the full dignity of a rebellion.

## LIVE STOCK EXHIBIT.

Sheep Breeders Favor Reducing the Time to Thirty Days.

Previous to final adjournment of the National Sheep Breeders' Association Convention at Buffalo, John L. Thompson, of Arcana, Ind., and S. H. Todd, of Wakeunan, Ohio, were appointed a committee to pass upon all entries for the next American fat stock show, to be held in Chicago. Resolutions were passed that it would be better to reduce the time of the live stock exhibit at the World's Fair from ninety to thirty days, which would limit the time of ownership of animals previous to the time of exhibition; and that the date of entries close thirty days previous to the opening of the Exposition. The next meeting of the association will be held in Chicago about Nov. 15, 1892.

## LOADED WITH LIGHTNING.

Plight of an Indiana Man Who Gets Charged During a Thunderstorm.

The central portion of Shelbyville, Ind., was thrown into a fever of excitement the other day by the yell of a man at the entrance of the city. Ray, and soon hundreds of people were on the spot. Charley Huffman, a merchant, was the first to arrive, and finding William Loudon prostrate on the stone front and gasping for breath, took hold of him to steady his feet, when he himself was thrown on his back in the midst of the street. It was in the midst of a heavy rain and it was discovered that the business buildings on the public square were heavily charged with electricity and that Loudon had taken hold of an iron post on the gratings at the entrance of buildings and in water on the sidewalks.

## WANTS TO RETALIATE.

Secretary Rusk Anxious to Shut Out Canadian Hides.

Secretary Rusk is very determined to spare no effort in compelling Great Britain to remove her arbitrary regulations now enforced against American cattle. Live cattle from this country must be slaughtered within ten days after arrival in Great Britain, thus affecting shipment at no time to restore the cattle to their former condition. The transportation by rail and water is very wearing on cattle, but with a little time they could recuperate. That little time, then, and the British buyers know that the cattle must be sold within ten days, can, by holding off, secure them at a reduced price. This is what makes the Secretary indignant, and is the cause of his suggesting, in his annual report, the rigid enforcement of the law now in existence prohibiting imports into the United States of all live animals, but which the President suspended as a matter of friendship to foreign governments.

## RECIPROCITY WITH GERMANY.

Details of the Treaty to Be Presented to the Reichstag.

The new reciprocity treaty with Germany will probably be announced at the coming meeting of the German Reichstag. The details have been perfected and the treaty has been made, but the German Minister asked the privilege of making the first formal announcement. Germany desires that the cattle must be sold within ten days, can, by holding off, secure them at a reduced price. This is what makes the Secretary indignant, and is the cause of his suggesting, in his annual report, the rigid enforcement of the law now in existence prohibiting imports into the United States of all live animals, but which the President suspended as a matter of friendship to foreign governments.

## DEFENDS THE CHINESE.

A Female Missionary Writes that They Were Provoked by Insults.

Miss Cassie Fitzsimmons, of Hamilton, Ont., a missionary in China, has written her sister denying the reports lately published about the Chinese uprising against the missionaries. She says they have suffered no serious indignities and that their work has been interfered with very little. She also says that the Chinese were provoked by unwarranted insults from Europeans and that they merely resented these insults as Americans would do under the same circumstances.

## New Atlantic Cable.

It is announced that a company has been formed, funds subscribed, and all preparations made for the speedy laying of a cable from Pernambuco, Brazil, to Senegal, the French dependency of West Africa.

## MRS. CUSTER'S LECTURE.

Addresses a Large Audience Concerning Army Life on the Plains.

Mrs. Custer, wife of General G. A. Custer, talked of army life on the Western plains in the chapel of Grace Reform Church, New York. The lecture was made for the benefit of the church, whose congregation numbers friends of the lecturer. Mrs. Custer necessarily borrowed here and there from books in delineating the soldier's life on the plains, but much that she said was new. She declared that the soldiers had no much greater comfort than in her day and the consequence was that they were a much better class of men.

## THREE TIMES AND OUT.

Matthew Deputy Again Elopes with His Brother's Wife.

For the third time in eight months Matthew Deputy, of Newburg, N. Y., has eloped with the attractive wife of his brother, John M. Deputy, taking with them one child of the woman and leaving the other for her husband to care for. The deserted husband has apparently given up his faithless spouse for good, and has made no effort to find her. John has decided to sell out his household goods and return to Montgomery, N. Y., and board with his brother Matthew's wife and her three small children.

## FORETOLD THE EXPLOSION.

Three Men Blown to Atoms in an Accident Predicted by a Spiritualist.

At Clipperton, Conn., the giant powder works blew up. James Hamilton was blown to atoms, nothing being found of him but one finger. Ah Han, a Chinaman, was killed, and only his queue was found. Joseph Peppin, a resident of Santa Cruz, was badly hurt about the head. He leaves a wife and six children. Building was severely damaged and ruined. It is claimed that the explosion was predicted by a spiritualist who had been threatened with tar and feathers if he did not leave town.

## THOUSANDS OF LIVES LOST.

Details of the Earthquake in Japan Reported from Washington.

A telegram from the Japanese Government has been received by Mr. Tateno, the Japanese Minister at Washington, giving an account of the earthquake in Japan. According to the telegram received by Mr. Tateno, 6,500 persons were killed, 9,000 were injured, 75,000 houses were totally destroyed, and 12,000 were badly damaged.

## EXPLOSION IN A MINE.

One Man Killed and Five Others Injured Near Leadville, Col.

A terrible accident occurred at the Bunk Tunnel near Leadville, Col. A shot of giant powder had failed to explode, and one of the men started to remove the fuse. The explosion followed, being literally torn to pieces. Five others were seriously hurt.

## FLAMES IN A SOAP FACTORY.

A \$50,000 Plant at Boston Destroyed—Two Fires in Virginia.

J. C. Davis & Son's large soap factory at Cambridge, Mass., was lost, \$50,000; fully insured. A fire destroyed the tannery of A. D. Stowell & Co., in Manchester, Va., loss, \$25,000; partially insured. At Luray, Va., the Luray Inn and furniture was destroyed by fire. The loss is about \$125,000, and the insurance \$100,000.

## The Country Circus.

The opening production of the "Country Circus" at McVicker's Chicago Theater was made before an audience that tested the capacity of the house, and was quickly conceded to be a success. Nothing exactly like this entertainment has ever before been offered to the Western public, and no such lavish equipment has ever enhanced a production. At times the stage was a bewildering mass of moving color, gorgeously attired men and women, and costumed horses and other animals. As a stage pageant it has never been equaled in this or any other country. The play can now be seen at McVicker's.

## Fatally Injured.

The sailors on the schooner J. V. Taylor were merrily singing "Helig-no!" as they raised the mainsail four miles out in the lake of Chicago. Without warning, the schooner, holding the centerboard up, was struck by a block and received probably fatal injuries. John Blumer, another sailor, got a bad scalp wound. The Taylor immediately went back to the harbor, and John Blumer was taken to the local hospital. Blumer's wounds were dressed, and he went back to the schooner.

## Two Firemen Killed.

Two Cincinnati firemen were killed and four badly injured by the breaking of a ladder. The picture frame establishment of Oscar Onken caught fire in the cellar and in a few minutes the building was enveloped in flames. An employee named Myers was in the cellar at the time the explosion was cut off, but he was finally rescued by the firemen, who carried him to a place of safety. He was badly burned about the head and upper part of the body.

## Thought to Be Lottery Men.

Depredations upon the mails is complained of by a certain bank and business men at New Orleans, who are believed to be connected with the lottery. An appeal against the action of the postmaster has been made to Postmaster General Wanamaker.

## Religious Riot in Persia.

During a religious riot in the village of Mazanderan, Persia, the house of Gen. Saadat Yooli Chan was set on fire and the General and twenty other persons killed.

## AFTER THE BATTLE.

BOIES, MCKINLEY, FLOWER, AND RUSSELL WIN.

Campbell Defeated by 20,000—Iowa's Enormous Vote—Kansas, Colorado, and Pennsylvania Go Strongly Republican—Working of the Australian Ballot in Ohio and Illinois.

## Here Are the Results.

From returns which appear enough complete to warrant correct judgment, McKinley is elected in Ohio by a plurality of about 12,000 votes. Hamilton County, in which Cincinnati is located, gave McDaniel a majority of 5,000 the successful Newjambury, Cleveland and Cincinnati gave Campbell 300 majority, while Toledo went for McKinley. The vote was not heavy, and the Australian ballot was a success.

The Cincinnati Commercial-Gazette says editorially: "Returns on the Legislature without the saying of the law is Republican, and careful canvass of the members elected indicates that the Foraker ticket is not so strong as it appears. Foraker really has Senators aspirations, his election is assured beyond the shadow of a doubt. A number of the legislators are already outspoken in their choice—notably the three representatives from Lucas County, who state positively that they are for Foraker first, last, and all the time. If Foraker is elected, the Hamilton County delegation ought to be for the governor from motives of local pride, to say nothing of individual preference. By the members of the Hamilton County delegation will in no wise disparage the distinguished services of Senator Foraker, but will express the almost unanimous choice of the Hamilton County Republicans."

In New York Flower's plurality for Governor is placed at 40,512. This is 80,000 less than Tammany's big chief, "Dick" Croker, predicted in a former issue over 58,000 more than the Republican leader, Husted, figured upon. The election of Flower and the whole Democratic State ticket, a possible majority in the State Legislature, besides the election of the entire city tickets in New York and Brooklyn, are among the fruits of the victory claimed by the Democrats. The State Senate is a tie—16 to 16. The returns for the Assembly are not full enough to compute its actual complexion, but reports received from Democratic headquarters indicate the election of a working majority in that body and consequently in joint session.

In Iowa the vote was very heavy. Although claims are made that Wheeler's defeat is not assured, there seems little cause to doubt that Boies is chosen by 5,000 to 8,000 plurality. The total vote reached nearly 420,000, which shows the intense interest taken. Conservative Republicans admit their leader's defeat, but reports received from Democratic headquarters indicate the election of a working majority in that body and consequently in joint session.

The election of the State ticket in Massachusetts was a surprise. The vote was very heavy. Although claims are made that Wheeler's defeat is not assured, there seems little cause to doubt that Boies is chosen by 5,000 to 8,000 plurality. The total vote reached nearly 420,000, which shows the intense interest taken. Conservative Republicans admit their leader's defeat, but reports received from Democratic headquarters indicate the election of a working majority in that body and consequently in joint session.

Of course this hardship came alone to those who had put off the task of voting until the last moment allowed under the law, and then there was not enough time to hand it over properly. Other features of the law commended it to the good opinion of citizens, for in its exercise the mission of the ward banner is forever ended and the political heater is without an occupation. Advice from the rural districts are to the effect that quite a number of votes were lost through the ignorance of the voters, although schools had been established in all the townships for the education of the masses. Very few voters needed the five minutes allotted, and many required only a minute, and some less than a minute. A noticeable effect of the new law was the large
