HANGED BUT NOT DEAD.

A Murderer Recovered After Being Taken from the Gallows.

Rufe Moore (colored) was hanged at Trenton, Ga., in May last for murder. The negro's neck was not broken, but he was pronounced dead by the physicians. He was cut down, confined, and placed in a wagon to be taken over the mountains to his old home for burial. It is now proved that Moore was not dead, and that the shaking up he received in the ride in his coffin over the rough roads revived him, and that he recovered. Several reliable witnesses testify to having seen Moore walking on the streets of his native village just as if he had never been hanged.

Ferguson, of New York, offered \$25,000, securing the youngster. Baby McKee, by Electioneer, out of Nanette, brown colt, foaled March 4, 1890. He is a full brother of the great Arion, for whom it is said that Mr. Forbes paid \$150,000.

HAS LOST MUCH PRESTIGE.

An English Opinion that This Country Should Have Been Active.

In the London Army and Navy Gazette there is an article which says that the United States has lost much prestige in South America owing to the unfavorable comment which naval experts found necessary to make upon the power of the States to immediately back up its somewhat arbitrary demand. It is therefore extremely probable that within a few days a strong American fleet will be concentrated in Chilean waters, and then, if matters are not settled amicably, measures will be taken to demonstrate that backing can be followed by biting.

SOCIETY GIRLS IN A FLUTTER.

They Object to Appear for Charity's Sale in Simulated Bathing Suits.

Springfield (Mass.) society is in something of a stew because twelve of its loveliest girls, who had been selected to take part in a Ben Hur entertainment for sweet charity's sake, have refused to don the tight and abbreviated skirts provided by the management. There are to be 150 persons in the party, most of the important parts have been assigned, and the young society buds had gone to much expense in furnishing costumes of their own, which they wore at the first rehearsal one day last week. The Boston director shocked the girls by saying that their home-made costumes were not suitable for the presentation of the play. Then he reached down into his trunk and hauled forth some gauzy creations of the designer's skill, which one pliant miss described as "a cross between a full dress costume and a bathing suit." They indignantly refused to appear before the public in such garments.

CONDITION OF WESTERN BANKS.

They Make the Best Showing of Any Section in the United States.

Comptroller Lacey remarked at Washington the other day that the abstract of reports showing the condition of 3,992 banks in the United States at the close of business Dec. 2, 1891, was the most satisfactory exhibit of the most satisfactory announcement made since he came into office. For the United States the individual and other deposits aggregated \$1,620,486,537, the reserve fund being 28.88, the law only requiring that it should be 25 per cent of deposits. For country banks, however, the law requires that 15 per cent must be the reserve, and from the Western States the financial showing was the best made in any section of the United States. Only one State, Nevada, was below the 15 per cent, and that by a fraction less than 1 per cent, while in Oklahoma Territory the reserve was shown to be 50.16, more than three times what the law required.

LOSSES IN SOUTHERN IDAHO CATTLE.

Grass on the Ranges Under Deep Snow and the Animals Are Starving.

Thousands of cattle are slowly starving to death in the hills of Southern Idaho. The loss to the stock-raisers will be tremendous. Every blade of grass upon the range is under from twenty-two to sixty inches of snow. The recent winter has not been equalled in severity since 1870. The rigorous season was not anticipated by the ranchers, and they delayed bringing the cattle to the low lands. The delay has proven fatal, and well-known stockmen said to-day that heavy domestic animal feed was not equalled in severity since 1870. CHILLI BACKS OUT.

President Harrison's Ultimatum Seems to Have Had a Wholesome Effect.

The Chilean Government has sent a reply to the ultimatum of the United States. The reply is in effect as follows: Chili agrees to withdraw the offensive note sent by Senator Matthews to the Chilean ministers abroad and acknowledges that its issuance was due to an error of judgment. Chili also withdraws its request for the withdrawal of United States Minister Egan. In addition to this the Chilean Government, in its answer, proposes that the affair of Valparaiso be submitted to the arbitration of some neutral nation. If this proposition is not acceptable to the United States Government the Chilean Government suggests that the matter be submitted to the decision of the Supreme Court of the United States.

END OF THE WORK OF REVISION.

The Presbyterian Committee Completes Its Difficult Task.

The committee on revision appointed by the last general assembly of the Presbyterian Church to take in hand the difficult task of revising the old Westminster confession of faith and preparing a new confession has finished its work, and the new statement of doctrine and belief is ready for presentation to the church. This does not, however, by any means dispose of the question of revision. The new question will have to be referred back to all the Presbyteries throughout the country for their concurrence in it. No further action on revision will be taken until the meeting of the general assembly at Portland, Ore., next May.
