ALLEN IS A SENATOR.

NEBRASKA POPULISTS ELECT HIM.

Dynamite, Red-Hot Stove, Undertaker—Gen. Beauregard on His Last Campaign—Desperate Work of a Bad Indian—Anti-Options Slim Chance,

Nebraska's Agency Ended.

The Nebraska senatorial agency is ended and William V. Allen, Judge of the Ninth Judicial District, said to be an independent in politics with Democratic leanings, will represent Nebraska in the United States Senate for the coming six years, and can claim the distinction of being the first Populist Senator from the State. The Republicans, The Democrats and the independents voted solidly together for the Populist nominee, giving him seventy votes. Paddock received fifty-nine votes, two of the Republicans straying away, Kyner to Vandervoort and Ricketts to Crouse. Every one of the hundreds within the hall knew the result within ten seconds after the conclusion of the roll call. When the announcement was made it was followed by a wild burst of applause from the Populists. Mr. Allen was escorted to the platform and said: "Gentlemen of the Legislature, I thank you for this distinguished mark of your confidence and esteem. When I came into this city (Lincoln), less than a week ago, I had no thought of becoming a candidate for this office. I am deeply sensible of the great honor, and I am equally sensible of the great responsibility I am permitted to enter upon in the discharge of my duties. I assure you that it will be with caution and care and the conservatism it carries with it. It would be improper for me on this occasion to say more. I thank you heartily and cordially again for this distinguished honor."

ANTI-OPTION BILL DEAD.

At Least That is the Opinion of Old Members of Congress.

According to a Washington correspondent the anti-option bill is regarded by the oldest members of Congress as dead. Mr. Hatch doesn't agree with that conclusion. But he wouldn't believe himself to be all the other members in the House told him they would vote against the bill. The most conservative members, however, say that while Mr. Hatch may, with his magnetism, electrify the corps into life it will be for a moment only, and that it will then return to the grave in which it was laid by Speaker Crisp last week. It is pretty certain that Mr. Hatch cannot muster a two-thirds vote for suspension, and even if he could, Mr. Kilgore has proved that he can prevent legislation on suspension day. "Hatch still has the chance of getting a day set for consideration," said Amos Cummings, "but we filibusters have shown what we can do, and there is absolutely no show for him." Mr. Hatch did not make any attempt Tuesday to get up the bill. Some members think that he will try to tack it on to the pure food bill, but the opponents of the measure are awake and when he tries they will prevent the passage of the pure food bill.

FIVE OF THE CROW DROWNED.

Norwegian Bark Wrecked at Long Branch, N. J.—Eleven Men Saved.

Sup. of the New York District life saving service at Point Pleasant says that the Norwegian bark Alice, from Dunkirk for New York in ballast, came ashore at Long Branch (N. J.) life saving station. Before an attempt was made to rescue the crew by the life saving station five of the crew of the bark attempted to land in their own boat, but it was capsized in the surf and all were drowned. The life saving men finally succeeded in getting a line attached to the bark, and by use of the breeches buoy rescued the eleven remaining members of the crew, including Capt. Jacobson. The bark's forecastle is gone and she will probably prove a total loss. The Alice is a double deck vessel of 975 tons, 165 feet long, 35 feet breadth of beam. She was built in Maine in 1865 and is owned by the captain. Her hailing port is Arental, a seaport of Norway.

DYNAMITE ON THE STOVE.

Terrible Result of a Texas Farmer's Carelessness or Foolhardiness.

Jame Sebastian, living a few miles west of Sherman, Texas, brought home some dynamite to clean his hardware while Dan Brown and William Denton were at Sebastian's house in the same room with Mrs. Sebastian and three children. Sebastian dropped some dynamite on the stove. The house was demolished and the ruins caught fire. The neighbors, by hard work, saved the inmates from a horrible death, although several will probably die of their injuries. Brewer's eyes are burned out and one cheek blown off. Sebastian's left hand was blown to pieces. Mrs. Sebastian and the three children are seriously injured.

Killed Three Deputy Marshals.

News has reached Muskogee, I. T., of the killing of Deputy Marshals Rusk, Brunner and Knight, near Tahlequah, by Bill Pigeon, an Indian desperado. Pigeon lives in a fortified house in the Cherokee Nation, and his capture has been attempted many times without success. Ned Christy, another member of the gang, was killed a short time ago by these marshals.

General Beauregard Very Ill.

General G. T. Beauregard is very ill at his residence in New Orleans, and, while there seems to be no immediate cause for alarm, it is said that the old soldier cannot survive his present illness.

Emma Egan, of Chicago, Killed.

Emma Egan, a young woman from Chicago, was killed and fifteen persons injured, some of them seriously, by an accident on the Union Pacific near Weiser, Idaho.

Death of Alphonso Sartoris.

Alphonso Sartoris, who married Nellie Granton, died Friday at Capri, Italy. He had not lived with his wife for some years.

Nice for a Watch Charm.

A ledge of moss agate, six inches thick, five feet wide, and running half a mile, has been discovered a hundred miles north of Cheyenne, Wyo., and but nine miles from the railway. The agate as quarried is worth over \$200 a ton. The owner is J. M. Grogan, who was prospecting for copper.

Treasury Accepts the Monterey.

The Union Iron Works, San Francisco, have been notified that the coast defense vessel Monterey, now at Mare Island navy yard, was officially accepted by Secretary Gray.

Southern Governor to Meet.

Governor Fishback of Arkansas issued a circular letter to the Governors of the Southern States, inviting them to meet in convention at Richmond, Va., April 12, for the purpose of formulating a plan for developing the resources of the South and offering inducements to capital and labor.

Submitted for His Americanism.

At the annual meeting of St. George's Society, of Toronto, notice of a motion was given to ask Professor Goldwin Smith to resign from life membership in the society, owing to his attitude on the annexation question and his having accepted the presidency of the Continental Union Club.

RAMPANT REDS.

Four Cowboys Slain by Two Sticks and His Band.

Two Sticks, one of the most unruly of the Oglala Sioux, and his band, left Pine Ridge Agency Saturday morning and attacked and killed four cowboys. As soon as Agent Brown learned of it he sent a strong detachment of Indian police after the murderers, who were in No-Water's camp. A sharp fight ensued. Two Sticks and his son being wounded, and White-Face—another member of the band—killed. Had it not been for the prompt and firm attitude taken by Young-Man-Afraid-of-His-Horses the conflict between the Indian policemen and the disaffected band led by Two Sticks would have led to a scene of carnage second only to that at Wounded Knee in its awful horror. No-Water, the chief at whose camp the fight occurred, flew into a frenzy and called his followers to avenge them. It was at this stage that Young-Man-Afraid-of-His-Horses showed tact and generalship. He hurriedly got his band together and marched his people between the police and No-Water's followers, and in this way prevented another Indian war. All is now quiet, but a close watch is being kept.

WANT TO CLOSE THE MINTS.

Indian Merchants Present Resolutions to Lord Lansdowne.

At Calcutta a deputation of native and European merchants and others waited and submitted to him the resolutions adopted a few days ago at a meeting of the representatives of all the mercantile classes demanding that in view of the failure of the Brussels monetary conference to arrive at any conclusion on the bimetallic issue the government of India should immediately close the mints to new coinage. Lord Lansdowne said that the Indian Currency Association had strengthened the case by leaving the proposals to change the standard for future consideration. The opponents of the change must now show that while a change of the currency standard of value from silver to gold would befit other nations it would damage India.

THE FIRE RECORD.

Bad Blazes at Montreal, Glencoe, Minn., and Ponca, Neb.

The total loss occasioned by a fire in St. James street, Montreal, will reach at least \$300,000. The insurance is in the neighborhood of \$175,000. Several of the firemen were frozen, and some were injured by falling timbers. The McLeod Company Bank Block, Glencoe, Minn., and the Court House were burned. The loss is \$23,000. Five horses and cattle were lost at Ponca, Neb., burned to the ground. Fifteen carloads of flour and 30,000 bushels of wheat were consumed. Loss about \$25,000. Fully covered by insurance.

FIVE HUNDRED KILLED.

Five Hundred Wounded in a Riot at Bogota.

There has been a serious riot at Bogota, which lasted two days. One hundred men were killed and 500 wounded. The riots are in no sense political. The trouble grew out of a publication in La Cristina of an article by J. Ignacio Gutierrez, a professor in a local Jesuit college, alleging widespread ignorance among the laboring classes. The capital is still in a state of siege, although it is officially announced that quiet has been restored. A strict local press censorship has been established.

Hear Fears Despite Prosperity.

R. G. Dun & Co.'s weekly review of trade says:

Actual business is surprisingly large for the season, and yet grave fears about the future are entertained. Congressional uncertainties cause the fears, but the prosperity of the country is not perceptibly lessened than it is.

Nowhere has there been this distribution of products to consumers been larger than it has been than for this year. Hence industries are remarkably prosperous. The value of trade measured by weight in January was nearly 12 per cent larger than in any previous year, and the railway movement shows a great increase in the tonnage transported. Yet it is probably safe to say that rarely, if ever, except in a time of public, but business more cottony and less cottony, has been regulated. Monetary uncertainties are excused by the continued outgo of gold, but the passage of the anti-option bill by the Senate has had no effect upon the market yet at all.

Dakota Legislature Frozen Out.

At Bismarck, N. D., the vote in joint convention Tuesday was: Casey, 20; Klingman, 9; Anderson, 1; Smith, 4; Walsh, 4; Benton, 36; Roach, 2; Muir, 1. Five Republicans were sick, one paired, and one Populist was absent. A blizzard was raging and members ran their ballots with hats and overcoats on. The Democrats and Populists resisted the resolution for the joint convention to dissolve, being beaten on Benton, but were defeated.

Condemed a Reformatory.

The Huntington, Pa., reformatory was condemned by an opinion by Judge Hatch as an ill-managed institution. It is alleged that 150 boys live in enforced confinement, being compelled to construct them in useful trades being hopelessly inadequate.

The inmates are further declared to be exposed to corrupting influences. This condition of things is charged to the unwillingness of trades to come into competition with prison industry.

This Combine Should Hold Together.

Cement companies of Louisville and surrounding country have formed a combine with \$1,200,000 capital. J. B. Speed is president. Prices are to be advanced.
