MASOULINTIES.

Man who lays wagers hatch disappointments.

"Many happy returns," said the wedding guest to the Chicago bride.

The man who claims to be clean in heart ought to have a clean mouth.

Do not forget your children while you are worshipping your ancestors.

Men are sure to break him, but they are also pretty sure to break him.

A Brooklyn inventor proposes to tap the earth's interior for heat, and thus save fuel.

The physician is the man who tells you that you need change, and then takes all you have.

The man who has never done any harm has always had to do where he couldn't get an opportunity.

The objection to most perfect people is that they spoil their perfection by knowing how perfect they are.

Never expect women to be sincere so long as they are educated to think that their first aim in life is to please.

When a man can't make a fool of you in any other way, he can do it by repeating in earnest what you said in fun.

The happiness of married life depends upon the power of making small sacrifices with readiness and cheerfulness.

Hey, "Can you keep a secret?" She: "Yes, but I don't want to. What's the good of having a secret that you can't tell?"

Wirt is a young lady just from boarding-school like a building committee; because she is ready to receive proposals.

An English wedding recently the bride in default of a male relative to perform that office, was given away by a younger sister.

Russia is Very Poor.

Russia is supposed to be the richest country in the world. He Emperor has an income of more than \$10,000,000 a year, and the annual revenues of the government are almost half a billion dollars. In its natural resources there is no country which compares with it, and it could, if it developed these, be more independent of the outside world than China is to-day. The truth is, however, that Russia is land poor. It has more country than it knows what to do with, and its finances are administered in such a shiftless way that it runs behind millions of dollars every year, and its government debt constantly increases. It already owes more than \$2,500,000,000, or more than 5,500,000,000 roubles, and its paper money is worth par value of 75 cents.

Always the Same Answer.

A witty individual one morning wagged that he would ask the same question of fifty different persons and receive the same answer from each.

The wit went to the first one, then to another, until he had reached the number of fifty. And this is how he won the bet. He whispered, half-audibly, to each:

"I say, have you heard that Smith has failed?"

"What Smith?" queried the whole fifty, one after another, and it was decided that the bet had been fairly won.
