AUSTIN & CO., W. B. Austin, A. H. Hopkins, G. K. Hollingsworth will loan you money on personal mortgage, or chattel security, for long or short time at local bank rates. These loans can be paid back at any time, and are more desirable than bank loans, because interest is rebated. We have unlimited capital and can accommodate everybody.

TRUSTEE'S NOTICE.

Notice is hereby given that I will be at my office at John A. Knowlton's, in Jordan township, on the Fourth Saturday of each month for the transaction of business connected with the duties of Trustee.

JAMES H. CARR,  
Trustee Jordan Township

Wonderful Success Obtained by Using Herb Remedies in Treating Chronic Diseases.

MAN-O-WA.

WHO IS HE?

He is the Great Indian Doctor. He is the benefactor of humanity. He is the world's greatest Doctor who has cured so many suffering people around Rensselaer during the past 20 years.

How can so many people be expected to die?

How can so many people with the terrible Chronic Diseases be expected to die?

How can so many people expected to die?

It is recommended by the highest scientific, ecclesiastic and educational authority as being a most attractive, meritorious, pure and enabling exposition of our ornithology yet given to the public.

Dr. Elliott Coues, author of Birds of the North West, says: "It is a really notable work." Prof. C. J. Maynard, author of the "Birds of North America," says: "It contains the descriptions of the species which I have ever seen." Thomas G. Gentry, author of "Life Histories of Birds," and "Nests and Eggs of Birds of the United States," says: "It is the cheapest and best publication on ornithology in this country. The drawings are of a very high order, and rivals in beauty of design and finish the more costly works published abroad or in this country. It should be found in our homes and libraries generally." And according to Dr. Theodore Gill, a member of the National Academy of Sciences, it is not only a meritorious volume, but is altogether handsome as to make it a very appropriate presentation book or ornament for the family table.

It is an imperial quarto volume of engraved figures of all our species, artistically reproduced, true in all hues of color to their natural plumage and botanical surroundings. It also includes a copious text description of their habits and characteristics and embracing in general the observations made by the most eminent ornithologists of the world, and a systematic arrangement according to the classification adopted by the American Ornithologists' Union, includes all the additions and corrections of our North American species which have been made to date, with an index to page, plate and figure of each species according to the A. O. U. number. It is illustrated with one hundred and nineteen full page colored plates, each representing from one to thirty or more species. It is the finest book on American birds issued since Audubon, and is pronounced by some critics superlative in art and work.

It is bound in half and full binding in Rus-  
sia, seal, or morocco, at the net price of \$40 and \$45 respectively; but in response to a special letter, the association authorized me to say that a special discount will be made to such of our A. O. U. members and others as are working naturalists.

We commend this work especially to members of the Wilson Ornithological Chapter.

It is also a very useful and appropriate addition to the home and reference library, and for presentation purposes generally. Address regarding it, The Natural Science Association, 114 Fifth Avenue, New York, N. Y. Samples of plates and text can be had by sending twenty-five cents in postage stamp.

It is a very useful and appropriate addition to the home and reference library, and for presentation purposes generally. Address regarding it, The Natural Science Association, 114 Fifth Avenue, New York, N. Y. Samples of plates and text can be had by sending twenty-five cents in postage stamp.
