DA GAMA NEAR DEATH

REBEL ADMIRAL IN A CRITICAL CONDITION.

Suffering from Severe Wounds Received During the Battle of Armacao-Embeizer Armstrong Gets Away at Kokomo—Death of a Noted Patriot.

Rebel Leader May Die.
Admiral Saldanha da Gama, the Brazilian rebel commander, who was wounded in the neck and arm by Mannheim bullets during the battle of Armacao-Embeizer, is in a critical condition. It was at first supposed that the Admiral's wounds were insignificant; but it is now said that he may die. Every effort is being made to save the Admiral's life. Admiral da Gama was not one of those who originally rebelled against President Peixoto's authority. Previous to September of last year there had been revolutions of considerable proportions in Rio Grande do Sul and other provinces, but the insurrection against Peixoto's government was precipitated by Admiral da Gama. He was in command of the Government fleet, and his defection deprived Peixoto of his entire naval force.

MURDERED WIFE AND SON.

St. Louis Millionaire Dr. Arthur Duestrow
Commenced a Double Execution.
Dr. Duestrow, of 1724 South Compton avenue, St. Louis, walked into the reservoir police station the other evening and surrendered himself, stating that he had accidentally shot his wife. At the house it was found that the child was dead, with a bullet in its head. The mother had received two bullets in her head, and was unconscious. Her recovery is impossible, so the physicians say. The exact reasons Arthur Duestrow has for committing the deed is not known, but it is said that for some time past he had been living happily with his wife. From a wound on the prisoner's head it is thought that he attempted to kill himself after shooting the other members of his family.

BROKE OUT OF KOKOMO JAIL.

Calvin Armstrong, the Embelizing Country Cashier, Makes a Dash.
Calvin Armstrong, Tipton County's Deputy Treasurer, convicted of embezzling \$43,000 of the public funds, escaped from jail at Kokomo, Ind., the other evening. While the jailer was feeding the prisoners he pretended to be asleep, and while the sheriff was in a remote part of the jail he slipped out a bar previously sawed off, ran down the corridor to the street entrance and was gone. He was not missed until morning. Watson Pitzer, of Tipton, who was in the jail with him, and while before, was arrested suspected of furnishing him money and a saw while attending the trial. Armstrong was to have been taken to the prison on the day of his escape.

COMMERCIAL CONGRESS.

Delegates from Transmississippi States Meet at San Francisco.
Delegates from all United States territory west of the Mississippi River and of the portion of Louisiana lying east of that river assembled at San Francisco in the sixth annual session of the Transmississippi Commercial Congress. The object of the Congress is to consider questions relating to irrigation, arid lands, the silver issue, mining laws, public lands, matters relating to the department of the interior and to the Pacific and Gulf coasts, as well as the question of the Nicaragua Canal. Over twenty States were represented. W. J. McConnell, of Boise City, Idaho, was the President of the Congress.

Death of Von Bulow.

Hans Guido von Bulow, the distinguished German pianist and composer, is dead, in Cairo, Egypt. Von Bulow's career is one of the most remarkable among those of the great modern masters of music in Europe. He was born at Berlin in 1832. He was an early child prodigy, the slightest indication of the remarkable gifts with which nature had endowed him. It was not until after a serious illness of his childhood, the fourth year that he evinced a taste for musical study.

Mrs. Goodwin Gets a Verdict for \$5,000.

At Cedar Rapids, Iowa, in the case of Mrs. Artie Goodwin of Chicago against the Providence Savings Life Assurance Society of New York and the Mutual Reserve Fund Life Association, also of New York, to recover on policies held by her husband, Matt Goodwin, who died in Chicago in November, 1891, the jury returned a verdict of \$5,000, with interest amounting to \$600. The trial occupied two weeks and eminent counsel were engaged on both sides.

Killed by a Widow.

A sensation was developed in the Italy murder case at Dubuque when Mrs. Fanning, a widow employed in the sheriff's office, was discovered for rushing upon the body of the slain man, and kissing him, at the same time presenting him with a bank note and a basket of fruit, in the bottom of which was found a letter. The scene occurred while Robb and his wife were in the jail. Robb is under life sentence for murdering Polkman Frith.

Bombard on a Farm in Indiana.

Two experts from Chicago, who have been in Brazil, Ind., for the past few days examining the ore found on the M. W. Carpenter's farm, south of the city, claim it is rich with gold and silver. In examining the location where the ore was found they discovered that the ground was full of the precious metal, which means thousands of dollars for Mr. Carpenter.

Buried in a Coal Pit.

Thirteen lives were lost in a mine at Plymouth, Pa. The men were caught by a cave-in. All the bodies, with the exception of two, have been found. One of the lost life was only a month ago, and four little children survive them. Consequently the disaster may show eleven widows and thirty-six children on the world's charity.

Turkey Concludes to Yield.

Constantinople advises that United States Minister Alexander W. Terrell, after taking a vigorous stand in the matter and threatening to ask the United States Government to send one or more war ships to Iskanderan, Northern Syria, has been ordered to leave.

Bushwhacked Farmer Ford.

Twenty miles from Brenham, Texas, Wednesday night, Peter Ford, a well-to-do farmer 60 years old, while sitting in his house was fired upon and killed by some one in the dark outside. Son-in-law Andrew Washington, who has long desired to get possession of the old man's property, has been arrested charged with the crime.

French Relief Defeat.

A dispatch received from Paris from the Governor of Senegal states that a French flying column is reported to have been surprised by the Tarekars, near Timbuctoo, and defeated. No further details are given.

PLOT TO KILL PEIXOTO.

Reported Conspiracy to Murder the Brazilian President.

Advices have reached London from Rio Janeiro that a plot had been discovered to assassinate President Peixoto. Many persons were arrested on a charge of being concerned in the conspiracy and several of them have been shot. The conspirators were reported to be approaching Porto Alegre, the capital of that state. It is declared that the decision of Peixoto to decree calling for a Presidential election, as well as for an election for members of Congress, was only reached after the President had been badly frightened by the discovery of the plot to murder him. Influential people, including several officers, are said to have been among the conspirators. The police arrested the right-aiders, whose trial is said to have followed closely upon their arrest.

FOUR FROM ONE FAMILY.

Secret-Service Men Capture a Gang of Brooklyn Counterfeiters.

The special agent of the United States secret service, with the assistance of two deputy marshals, raided a counterfeiters' den at 822 Atlantic avenue, Brooklyn, and made four arrests. They took into custody Carlo Buonadonna, and Josephine, Annie and Dufiled Lamont, the last three being mother, daughter and son. Dufiled Lamont is only 15 years old. In their apartments in the rear of a "dummy" barber shop the officers found thousands of counterfeit dimes and quarters, plaster molds, crucibles, and all the necessary equipment paraphernalia. The prisoners were arrested before United States Commissioner Morie, in Brooklyn, and held in \$2,500 bail for examination. They were committed to Raritan street jail. The agent then went to New York City and arrested Albert Lamont, another son of Josephine, in his father's grocery store. The person had been taken by the agent and his men for several weeks. Their victims were all small storekeepers. Albert Lamont was taken to Brooklyn and locked up with his alleged confederates. This is the third gang of counterfeiters captured in Brooklyn within a fortnight.

SMALLPOX STRIKES THE SISTERS.

Faithful Attendants at the Chicago Pest-House Fall Ill.

The faithful Sisters of Charity who have been nursing the patients at the hospital for contagious diseases in Chicago have been themselves stricken with smallpox. The doctors at the United States Pest-House, at 100 North Dearborn street, are so seriously sick that their life is in danger, of the other quite ill, but not dangerously so. These sick sisters are Sister Kate Schleich and Sister Albina Hummert. Sister Hummert has the disease in its early stage, and is very comfortable if she will recover. Sister Schleich is more advanced, and it is thought she will recover. There are now ninety-one cases of the disease in the hospital, not including the two sick Sisters. There were 342 cases of the disease in the hospital during the month of January. During this time the average number of new cases per day has been about four.

ALLOWED TO DISMISS THEIR CASES.

The Peters Actions Against the Kansas City Live Stock Exchange Are Ended.

At the annual meeting of the Kansas City Live Stock Exchange, W. J. Peters and W. G. Peters were allowed to dismiss their cases against the exchange on the payment of costs. This was virtually the last act in the disposal of the celebrated American Live Stock Commission Company's charges, which had been pending the course of the courts during the last few years, and which has in every instance proved to be a signal victory for the exchange. It was the case wherein the Peters Brothers, representing the American company, sought to enjoin the exchange from enforcing the rule against dividing commissions.

INSANE WOMAN AT THE THROTTLE.

Miss Emma Boulton, of Findlay, Ohio, while temporarily insane, perpetrated an attack of the grip, jumped out of bed, threw up a window, and leaped to the ground, a distance of some ten feet. Before she could be stopped she had clambered over a fence, run all the way to the yards of the Ohio Central Railroad, and dashed into the cab of a yard engine, which was temporarily deserted by its crew. The insane woman pulled on a lever, and started out the yards toward Toledo. She evidently did not understand the meaning of the locomotive, for she was unable to send the engine forward at a high rate of speed, and was overtaken before the engine was far out of the yards.

QUEEN VICTORIA STILL BELIGNS.

Queen Victoria, who is temporarily sojourning at Osborne House, her residence on the Isle of Wight, is in good health. An unfounded rumor to the contrary gained currency and was widely disseminated that her Majesty was dead, and from all parts of the world inquiries have been received. Tuesday evening she gave a large dinner party at which were present the Prince and Princess of Wales, the Prince and Princess of Wales and their daughters, Princesses Victoria and Maud, and Prince and Princess Henry of Battenberg. No doctor has been seen in attendance upon the Queen since the receipt of her household physician, Dr. James Reid, who was present at the dinner last night.

Girls Are Going to Carry Cane.

The young ladies of Wesleyan College have created a mild sensation by announcing that they will carry canes.

Many Deaths from Cholera.

There has been a recurrence of cholera at Warsaw, and many deaths have occurred.

MILLIONS IN BONDS.

HOW YOUR UNCLE SAM BORROWS MONEY.

All About the Recent Fifty-Million-Dollar Loan—The New Issue of Two Kinds, Coupon and Registered—Great Fortunes Invested.

Odd Things in Securities.

Washington correspondence:
The new 5 per cent. bonds will soon be scattered all over the United States. They are not a drop in the bucket with what Uncle Sam has borrowed since he began business a little more than one hundred years ago. The total amount of bonds sold by the Government from the beginning of the Union down to the year 1880 was ten billion six hundred and ninety million dollars, a sum which makes the mind dizzy, and which would buy up a dozen of the small monarchies of Europe. This vast sum was borrowed by the Government from the United States up to that time. Many of them were made to fund previous loans, but interest was paid on every one of
