

LOSS OF POWER

And Manly Vigor, Nervous Debility, Paralysis, or Palsy, or any of the ailments resulting from the system, resulting in dulness of mental faculties, impaired memory, low spirits, morose or irritable temper, fear of impending calamity, and a thousand and one derangements of both body and mind result from pernicious secret practices, often indulged in by the young, through ignorance of their ruinous consequences. To reach, re-claim and restore such unfortunate to health and happiness, is the aim of an association of medical gentlemen who have prepared a book, written in plain but chaste language, treating of the nature, symptoms and curability, by home treatment, of such diseases. The World's Dispensary Medical Association, Proprietors of the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., will, on receipt of this notice, with 10 cents in stamps for postage, mail sealed in plain envelope, a copy of this useful book. It should be read by every young man, parent and guardian in the land.

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers, and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

The Greatest Medical Discovery of the Age.

KENNEDY'S MEDICAL DISCOVERY.

DONALD KENNEDY, OF ROXBURY, MASS., Has discovered in one of our common pasture weeds a remedy that cures every kind of Humor, from the worst Scrofula down to a common Pimple.

He has tried it in over eleven hundred cases, and never failed except in two cases (both thunder boils). He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston. Send postal card for book.

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the right quantity is taken.

When the lungs are affected it causes shooting pains, like needles passing through them; the same with the Liver or Bowels. This is caused by the ducts being stopped, and always disappears in a week after taking it. Read the label.

If the stomach is foul or bilious it will cause squamous feelings at first. Eat the best you can get, and take a pinch of Dose, one tablespoonful in water at bedtime. Sold by all Druggists.

"Almost as Palatable as Milk"

This is a fact with regard to Scott's Emulsion of Cod Liver Oil. The difference between the oil, in its plain state, is very apparent. In

Scott's Emulsion

you detect no fish-oil taste. As it is a help to digestion there is no after effect except good effect. Keep in mind that Scott's Emulsion is the best promoter of flesh and strength known to science.

Prepared by Scott & Bowne, N. Y. All druggists.

WALTER BAKER & CO.

COCOA AND CHOCOLATE

Highest Awards (Medals and Diplomas) World's Columbian Exposition.

On the following article, namely: BREAKFAST COCOA, PREMIUM NO. 1 CHOCOLATE, GERMAN SWISS CHOCOLATE, VANILLA CHOCOLATE, COCOA BUTTER.

For "purity of material," "excellent flavor," and "uniform even composition."

SOLD BY GROCERS EVERYWHERE. WALTER BAKER & CO., DORCHESTER, MASS.

Ely's Cream Balm

QUICKLY CURES COLD IN HEAD

Price 50 Cents.

Apply Balm into each nostril. N. Y. 1100, 56 Warren St., N. Y.

PISO'S CURE FOR CONSUMPTION

Consumptives and people who have weak lungs or Asthma, should use PISO'S CURE FOR CONSUMPTION. It has cured thousands, it has no injurious effects, it is the best cough syrup. Sold everywhere. 50c.

DOLE STRIKES BACK.

ANOTHER CHAPTER IN THE HAWAIIAN CASE.

Specifications Demanded by Minister Willis Are Furnished Without Hesitation—Our Representative Charged with Withholding Information and Playing a Boaster's Part.

Talks Very Plainly.

Advices received from Honolulu by steamer Alameda give the full text of President Dole's letter to Minister Willis in reply to the latter's request for specifications and statements made in a previous letter from Dole in regard to the attitude of the United States Government. Dole's letter is very lengthy. He says: "In compliance with your request for certain specifications concerning my letter of Dec. 27, I reply thereto as follows: You inquire as to the meaning of the word 'attitude' as used in my letter. I reply that word was used by me in its ordinarily accepted sense, meaning bearing, posture, as indicating purpose of those referred to. You further say, 'Will you point out where and when and how a representative of the United States assumed any attitude toward supporters of the Provisional Government other than one essentially and designedly expressive of peace?' In reply I would say that the attitude of a person is to be ascertained only by inferences drawn from known words and acts of such person and conditions and circumstances under which they take place."

President Dole then cites the withdrawal of the treaty of annexation from the Senate by President Cleveland without any notice to the Hawaiian representative; the appointment of Blount as his visit as a secret emissary of the United States and the refusal of Secretary Gresham to explain to the Hawaiian representative the object of Blount's mission or even that he had been commissioned. He also criticized Blount's actions while in the country and the report which he subsequently made to President Cleveland.

President Dole next refers to Gresham's letter to President Cleveland last October, and says: "You have intimated that the foregoing letter, being a domestic transaction, is not a proper subject for inquiry on the part of this Government as to the intentions of your Government concerning the subject matter."

On Nov. 14 Mr. Thurston, the Hawaiian minister in Washington, called upon the Secretary of State and inquired if the above letter was authentic, and was assured by Mr. Gresham that it was. Mr. Thurston then said: "I wish, then, to further ask whether it is the intention of the United States Government to carry out the policy therein indicated by force, or, in other words, whether, if the Provisional Government decline to accede to the request of the United States Government to vacate the throne of the Queen, United States troops will be used to enforce the request?" Do we need to state that Mr. Thurston received no satisfactory reply to this question?

President Dole then recalls the arrival of the United States dispatch boat Corwin at Honolulu last December with private copies of the President's Hawaiian message to Congress for Mr. Willis, and says: "Up to the time of the arrival of the Corwin the United States naval officers in port were in the habit of coming ashore in citizen's dress, the crews received their usual liberty on shore, and no unusual warlike preparations were visible on board. Immediately on the arrival of the Corwin the liberty of the crews was stopped, and the officers of the Corwin were in uniform. Rifles were stacked. Cartridge belts were filled with ball cartridges and knapsacks packed for immediate use were worn by the officers on the decks of the ships and were seen there by visiting citizens, who in reply to an inquiry as to the meaning of such preparations were informed by the officers that they were ready to land at a moment's notice to protect or fight as the officers of the Philadelphia was that no one on board knew what orders would be received."

MURDERER STONE HANGED.

Slayer of the Wratton Family Pays the Penalty of His Revolting Crime.

James E. Stone, commonly known as "Bud" Stone, was executed at midnight in the Indiana State prison south by Warden J. B. Patton. The prisoner was the son of the late James E. Stone, as he was familiarly known, was convicted was committed near the village of Glendale, nine miles east of Washington, Ind., the night of Sept. 18, 1893, and was the perpetrator of a bloody murder of Mrs. Elizabeth Wratton, her son Denon Wratton, and his wife and three children. All were killed instantly with the exception of the little girl Ethel, who lived for several days. Arming himself with a corn knife, he went to the home of his victims at a late hour the night of the crime. Stone knocked on the door and was answered by the younger Mrs. Wratton. He struck her a blow on the head with a corn knife that rendered her lifeless, and then he turned to the prostrate woman he killed, the children as he came to them, and going to the bed upon which Denon Wratton lay sick, with typhoid fever, he dealt him a blow that ended his life. The older Mrs. Wratton slept in an adjoining room, and finding her door locked he kicked in the window and, entering the room, finished his bloody work. Stone confessed the crime to his wife, and she, being unable to keep the awful secret, when summoned before the coroner's jury told all she knew. ELIZABETH WRATTON, a plea of guilty, and within three hours' time had been tried, convicted, and sentenced to be hanged.

A short time ago he added another horror to his crime by stating to his aged father who visited him in prison

that he had smothered the little girl Ethel with an apron at a bedroom house, where she had been removed in a dying condition, while the folks were at dinner, as he feared if she recovered her evidence might convict him. The murder was undoubtedly planned for robbery, but, being frightened at the enormity of the crime, the murderer fled, leaving over \$800 untouched in a bureau drawer. His father is a respected farmer, and up to the time of the murder Bud Stone had led a quiet, uneventful life.

GREAT OUTPUT OF GOLD.

Over \$150,000,000 Worth of the Yellow Metal Mined in 1893.

Returns received at the Treasury Department indicate that the gold output for 1893 will reach the almost unprecedented amount of \$37,000,000, an increase over 1892 of \$4,000,000. In Colorado the output has increased from \$2,000,000, in 1892, to \$5,000,000 in 1893, while the gains in other gold-producing sections are unusually large. The Australian product, which carries the production of the world, is thought to be \$150,000,000, which is a gain of \$12,000,000 for the year. With one exception—this is the largest output ever known. The gold fields of South Africa seem to be rapidly taking the place of the California and Australian fields as the banana lands of the present decade.

Reports from the Witwatersrand region alone show a total product for 1893 of 1,474,478 ounces of gold, yielding a product of refined gold of a value in excess of \$25,000,000. The production in this region is increasing at an astonishing rate and South Africa bids fair during the present year to push her way to the head of the gold-producing countries. The figures for 1892 put Australia at the head of the list with a production of \$35,570,800, the United States second at \$33,000,000, Russia third at \$24,866,000, and Africa fourth at \$23,740,000. The full returns from South Africa for 1893 will probably show a production in excess of \$30,000,000, which will force her into third place, and if the increase continues she will pass Russia during 1894, and will be beaten by the United States in aggregate production only by means of a large increase in this country.

The production of silver, according to the reports received at the mint, has fallen off during the last year and will not exceed \$17,000,000, a falling off of \$2,000,000. As the coinage value is now more than twice the market value the actual mercantile value of the silver mined will drop below \$90,000,000, the smallest figure for many years.

KEEP YOUR MOUTH SHUT.

Not Merely on the Score of Silence, But Out of Regard to Health.

Don't be offended. The admonition is not meant as a reflection upon your talkativeness. Talk as much as you please, but keep your mouth shut when you are not talking. People who keep their mouths closed except when they are talking, eating or drinking, rarely contract colds or coughs. Savages, even those living in northern latitudes, seldom take cold. So scientists say it is because they are close-mouthed.

Disease germs floating in the air find a direct route into the lungs of a person who breathes through his mouth. They are arrested by the fine, sieve-like network of hair in the nostrils of the individual who breathes through his nose. Keep your mouth shut and you may defy pestilence. The teeth suffer from too much and too frequent exposure to the atmosphere. Sudden changes of temperature, whether liquid or atmospheric, are hurtful to the throat. The best teeth in the world are those of the savage tribes whose members always keep their mouths shut except when talking or eating. Throat and lung diseases are often contracted by persons who go about open-mouthed. The frosty air of winter is inhaled directly into the lungs through the mouth is a frequent cause of bronchial disorders. Taken through the nose it is modified and sifted of many of its dangers. Keep your mouth shut.

AN OVERSIGHT.

There was one oversight at the Great Exposition at Chicago in not having in full view, by easy arrangement, some comparative vital statistics of our own general health as compared with other nations, and of our scientific facilities for the relief of human suffering. Then it would have appeared how much we are misrepresented and how, even in all those minor ills which beset mankind, we are masters of cure and alleviation. In the line of general ailments which all nations have in common, such as rheumatic or neuralgic affections, there is no prompt and permanent cure in the world the equal of what we could have shown. St. Jacobs Oil, for instance, for this purpose, would have taken any premium that might have been offered. It has done so at many of the great fairs of the world. As for the ordinary casualties of every-day, busy life, such as sprains, bruises, burns, wounds, or cuts, of course it is well known as the superior remedy of the age. Perhaps doctors disagree, but the people are never mistaken in knowing what is best.

A CONSOLATORY CHANCE.

One evening, just about dark, I rode up to a cabin in the Tennessee mountain and asked to stay all night.

"I'm sorry, mister," said a woman who had responded to my request, "but yer can't stay here."

"Why not?" I asked. "I'll pay for it."

"Tain't the pay I'm afraid uv, mister," she said, "but ther ain't no menfolk in the house and we can't keep yer."

"What am I to do?" I asked, helplessly.

"Go on to the next place, I reckon."

"How far is it?"

"Two or three miles, I reckon."

"But it's dark," I urged; "I never was here before and I'll be sure to lose the road."

"I reckon ther's a chance uv that," she said, and then, more encouragingly, "but this s'ch a tangle bad road, mister, that you'll be glad uv yer lost hit, afore you've gone a mile."

TO FOLLOW VAILLANT.

The Anarchist Who Hurlled the Bomb at the Barcelona Theater.

The next dynamite to follow Vaillant to the scaffold, if he lives, will probably be Jose Salvador Franch, the man who hurled the bomb at the Barcelona Theater.

Like Vaillant, Franch has a deplorable record of antecedents. He is a respectable family at Castellon, where he ran away when only 14 to Barcelona, where Jose Salvador Franch joined the anarchists and has lived from hand to mouth ever since. His wife Antonia was obliged to go out earning, and, according to her own account, she lived in fear of her husband poisoning her lest she should divulge anarchist secrets. Franch was a great friend of Pallas, who threw the bomb at Marshal Campos, and was the prime mover in a grand conspiracy for a general rising at Barcelona, where the anarchists were to burn the houses of the upper classes, loot the shops, and massacre indiscriminately. The anarchists were afraid to carry out the project, so Franch conspired himself by throwing the bomb in the Liceo Theater, whence he escaped in the confusion. He remained in his hiding place until the police pounced upon him in a garret, when he tried to kill himself.

WOMAN SUFFRAGISTS.

Annual Convention of the National Association in Washington.

The twenty-sixth annual convention of the National American Woman Suffrage Association began in Washington with a large attendance of delegates representing all parts of the country. The session was devoted to the presentation of reports. The report of the Executive Committee recommended that the special effort of the association be concentrated on the campaign in Kansas and New York, the two States where there is to be a test vote this year. Mrs. Lillie D. Blake, the member of the Executive Committee from New York, spoke of the work there, and predicted success for woman suffrage in New York. Mrs. Laura M. Johns, of Kansas, said that the work for the enfranchisement of women had progressed farther in Kansas than in New York.

The night session of the convention was very largely attended, and those seated on the platform included District Commissioner Ross, Senator Teller, of Colorado, and Representatives Pence and Bell, of the same State. The President of the convention was then delivered by Miss Anthony. A brief, interesting, and critical review of the cause of woman suffrage, with frequent caustic allusions to the action of the courts in their decisions affecting the suffrage, was then delivered by Miss Anthony.

JUDGE GRESHAM'S PENSION.

It Is Still Accumulating in Chicago—Now Amounts to \$570.

A Chicago dispatch says: If Secretary of State Gresham has relinquished his pension of \$30 a month the information has not been conveyed to Pension Agent Anderson, whose pension-rolls are open for inspection in the federal building. Judge Gresham's name has been erased from the list, and the entry there that he drew his pension in July, 1892.

Appearance in July, 1892. The pension in Gen. Anderson's office with a certificate, he would receive a check upon the Subtreasury for about \$570, the amount due him since the last payment. July 29, 1891, Judge Gresham's pension was transferred from the jurisdiction of the pension agent at Indianapolis to the Chicago office. Unless word is received from Commissioner Lochren, the name of Judge Gresham will remain upon Gen. Anderson's roll until the time specified by law for the expiration of an undrawn pension—three years had this morning, lacking one day from the date of the last payment.

Reynolds Baking Powder

ABSOLUTELY PURE

An Abandoned City.

A poet could write on "The Deserted Village" with Virginia City as a subject and surpass Goldsmith's immortal production on the same topic," said E. L. Hearne, of San Francisco. "The first time that I was ever there the population of Virginia City was greater than that of the entire State. Everything ran wide open. Magnificent hotels and opera halls, palatial residences, stores that would have done credit to New York, millionaires who spent money freely, maintaining a society that for brilliancy and gayety could not be equaled in the United States. I was there a short time ago. The hotels and opera houses are closed, the residences empty, the stores removed to other and more prosperous places. Dwellings that cost hundreds of thousands of dollars are given over to the bats, and the broken panes of glass, the shutters hanging up in the wind, give a gruesome sense of loneliness. In years to come it will afford magnificent spectacles of ruins, and even now in some sections of the town there is a sense to the beholder of being in a city of the past. Millions were made and lost, and the history of Virginia City would be one of the most thrilling stories ever written."—Globe-Democrat.

Where He Got His Information.

Agent—Beg pardon, ma'am, but I have been requested by number of persons to call here and show you our new patent electric wakened door-bell. It's very hard on hands to have to knock, ma'am, and everybody says the only reason why you haven't a bell is because you are too lazy to get it.

Housekeeper—That's very true, I really had forgotten that there was no bell. Put one in.

Agent (half an hour later)—It's all done, ma'am. Here's the bill. Thank you, I'll accept it.

Housekeeper—Would you object to telling me who the persons were who complained that I had no bell?

Agent—They were peddlers, ma'am. Good-day, ma'am.—New York Weekly.

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. O'BRYEN & CO., Props., Toledo, O.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Price 75c per bottle. Sold by all Druggists. Testimonials free.

Small Dishes.

Oswald Northingens, the artist, is said to have made 1,400 dishes that could be stowed away in a common tin. This must be true, for we are told that Pepe Paul V. counted them with the aid of a pair of spectacles made by the dish artist.—St. Louis Republic.

Have You Heard Of

the marvelous young city of Great Falls? It has water-power greater than Niagara. Most extensive coal fields in the West. Electric power generated in the city. Mountains of precious and base metals. Big pay-roll, enterprising people, healthful climate. Smelters, Refineries, Manufacturing, Flouring, Lumbering, Mining, Stock-growing, Agriculture. A place for investment and homes. Write E. Crutcher, Loans and Realty, Great Falls, Mont.

THE TEMPERING OF STEEL IS A DELICATE PROCESS.

A workman washed his hands in a tank of water used for that purpose in a Massachusetts factory and a whole batch of steel was sold as second grade.

By TRIFLING WITH A COLD, many a one allows himself to drift into a condition favorable to the development of some latent disease, which thereafter takes full possession of the system. Better cure your cold at once with Dr. D. Jayne's Expectant, a good remedy for Throat-ills and Lung affections.

ELECTRIC LIGHT IS BEING USED AS A BAIT BY FISHERMEN who ply their calling along the Pacific coast.
