IS IN YOUR OWN HAND.
Palmetty assume to tell what the lines in your hand indicate. It will amuse you, if nothing more. The above diagram, which explains itself, shows the length of the LINE OF LIFE indicates probable age to which you will live. Each BRACELET gives you thirty years. Well-marked LINE OF HEAD denotes brain power; clear LINE OF FORTUNE, fame or riches. Both combined mean success in life; but you must keep up with modern ideas to win it. You will find plenty of these in Demorest's Family Magazine, so attractively presented that every member of the family is interested. It is a dozen magazines in one. A CLEAR LINE OF HEALTH denotes a straight, straight LINE OF FATE, peaceful life; the reverse if crooked. A well-defined LINE OF HEALTH spurs you doctors' bills; so will the health hints in Demorest's. No other magazine publishes so many stories to interest the home circle. You will be subject to extremes of high spirits or despondency if you have the GIRDLE OF VENUS well marked; keep up your spirits by having Demorest's Magazine to read. By subscribing to it for 1894 you will receive a gift of exquisite work of art of great value, besides the superb premium picture, "The Daisy," which is almost a real baby and equaled only in the world for its beautiful illustrations and subject matter, that will keep you posted on all the latest of the day, and all the facts, and different items of interest about the household, besides furnishing interesting reading matter, both grave and gay, for the whole family; and while Demorest's is not a fashion magazine, its fashion pages are perfect. You get with it, free of cost, all the patterns you wish to use during the year, and in any and every choice. Send in your subscription at once, only \$2.00, and you will really get over \$25.00 in value. Address the publisher, Demorest's Magazine, P. O. Box 1461, New York. If you are unacquainted with the Magazine, send a specimen copy. A large TRIANGLE means honesty; a large TRIANGLE, generally, means first division of THUMB, strong will; LONG SECOND DIVISION, reasoning faculty. THE MOUNT OF JUPITER betokens ambition; that of SATURN, prudence; the SUN, love of splendor; MARS, courage; MOON, imagination; VENUS, love of pleasure; and MERCURY, intelligence. Take our advice as above and you will be sure to possess the best and most valuable quality.

DR. HARLAN H. BALLARD, PRESIDENT OF THE AGASSIZ ASSOCIATION, ON THE BIRDS OF NORTH AMERICA.
In connection with the foregoing report of our Ornithological Chapter, it is only right to call the attention of all lovers of birds to the magnificent work now being issued by the Natural Science Association of America, and entitled "THE BIRDS OF NORTH AMERICA." Edition limited to 1,000.

It is emphatically an original work, original in design and execution, and whether in letter press, illustrations or price, it is unsurpassed by anything of the kind in existence.

It is recommended by the highest scientific, ecclesiastical and educational authorities as being the most attractive, meritorious, pure and embellishing exposition of our ornithology yet given to the public.

Dr. Elliott Coues, author of "Birds of the North West," says: "It is a really notable work." Prof. C. J. Maynard, author of the "Birds of Eastern North America," says: "It contains the best pictures of the species which I have ever seen."

It is an imperial quarto volume of engraved figures of all our species, artistically reproduced, true in all hues of color to their natural plumage and botanical surroundings. It also includes a copious text description of their habits and characteristics, and embracing in general the observations made by the most eminent writers on ornithology, and a systematic table, arranged according to the classification adopted by the American Ornithologists' Union, includes all the additions and corrections of our North American species which have been made to date, with an index to page, plate and figure of each species according to the A. O. U. number. It is illustrated with one hundred and nineteen full-page colored plates, each representing from one to thirty or more species. It is the finest book on American birds issued since Audubon, and is pronounced by some authorities superior to that now rare and costly work. It is issued in half and full bindings, Russian, seal, or morocco, at the net price of \$4.00 and \$4.50 respectively; but in response to a special letter, the association has authorized me to say that a special discount will be made to such of our A. A. members and others as are working naturalists. We commend this work especially to members of the Wilson Ornithological Chapter.

It is also a very useful and appropriate addition to the home and reference library, and for pre-entertainment purposes generally. Address regarding it, the NATURAL SCIENCE ASSOCIATION, 114 Fifth Avenue, New York, N. Y. Samples of plates and text can be had by sending twenty-five cents in postage stamps.
