If you would avoid sickness among the
children, keep a bottle of Mellin's in your
house and when your child shows symp-
toms of sickness, give a few doses and
you will have no doctor bills to pay. For
sale by druggists.

Your children that are in school will be
cured of that distressing headache which
is so common among school children in
warm weather, by the use of an occasional
dose of MELLIN'S. For sale by all drug-
gists.

YOUR FUTURE

IS IN YOUR OWN HAND.

Palmer's assumes to tell what the lines in your
hand mean. It will amuse you, if nothing more.
The above diagram almost explains itself. The
length of the LINE OF LIFE indicates probable
age to which you will live. Each BRACKET
gives you thirty years. Well marked LINE OF
HEAD denotes brain power; clear LINE OF
HEART denotes love or riches. Both combined mean
success in life; but you must keep up with modern
ideas to win it. You will find plenty of these in
Demorest's Family Magazine, so attractively
presented that every member of the family is enter-
tained. It is a house magazine in one. A CLEAR
LINE OF HEART bespeaks tenderness; a straight
LINE OF FATE, peaceful life; the reverse if
crooked. A well defined LINE OF HEALTH
spreads your doctor's bills; so will the health hints
in Demorest's. No other magazine publishes so
many stories to interest the house circle. You will
be subject to extremes of high spirits or despond-
ency if you have the GIBBLE OF VENUS well
marked; keep up your spirits by having Demorest's
Magazine to read. By subscribing to it for 1894
you will receive a copy of exquisite works of art
of great value, besides the superb premium picture,
"The Daisy," which is almost a real
baby, and one of the original oil paintings, which
cost \$300 and you will have a magazine that cannot
be equaled by any in the world for its beautiful
illustrations and subject matter, that will keep
you posted on all the copies of the day, and all the
facts and different items of interest about the
household, besides furnishing interesting reading
matter, both grave and gay, for the whole family;
and while Demorest's is no fashion magazine, its
fashion pages are perfect. You get with it,
free of cost, all the pictures which you use during
the year, and in any case you choose. Send in
your subscription at once, only \$2.00, and you will
really get over \$25.00 worth. Address the pub-
lisher, W. Jennings Demorest, 15 East 14th St.,
New York. If you are unacquainted with the
Magazine, send for a specimen copy. A LARGE
TRIANGLE means honesty; a large TRIANGLE,
generosity; long FIRST DIVISION OF THUMB,
strong will; LONG SECOND DIVISION, reason-
ing faculty; that of SATURN, prudence; the SUN,
love of splendor; MARS, courage; MOON, imagina-
tion; VENUS, love of pleasure; and MERCURY,
intelligence. Take our advice as above and you
will be sure to possess the last and most valuable
quality.

DR. HARLAN H. BALLARD, PRES-

IDENT OF THE AGASSIZ ASSOCIA-

TION, IN POPULAR SCIENCE

NEWS OF THE BIRDS OF

NORTH AMERICA.

In connection with the foregoing report
of our Ornithological chapter, it is only
right to call the attention of all lovers of
birds to the magnificent work now being
issued by the Natural Science Association
of America, and entitled "THE BIRDS OF
NORTH AMERICA." Edition limited to
1,000.

It is emphatically an original work,
original in design and execution, and
whether in letter press, illustrations or
price, it is unsurpassed by anything of
the kind in existence.

It is recommended by the highest sci-
entific, ecclesiastic and educational au-
thorities as being the most attractive, meritor-
ious, pure and ennobling exposition of
our ornithology yet given to the public.

Dr. Elliott Coues, author of "Birds of
the North West," says: "It is a really no-
table work." Prof. C. J. Maynard, auth-
or of the "Birds of Eastern North Amer-
ica," says: "It contains the best pictures
of the species which I have ever seen."

Thomas H. Gentry, author of "Life in
the West," says: "It is the cheapest and best publication on orni-
thology in this country. The drawings
are of a very high order, and rivals in
beauty of design and finish the more costly
works published abroad or in this country."

It should be found in our homes and in
libraries generally. And, according to
Dr. Theodore Gill, a member of the Na-
tional Academy of Sciences, it is not only
a meritorious volume, but is altogether so
handsome as to make it a very appropriate
presentation book or ornament for the
family table.

It is an imperial quarto volume of en-
graved figures of all our species, artist-
ically reproduced, true in all hues of color
to their natural plumage and botanical
illustrations. It also includes a copious
text description of their habits and char-
acteristics, and embracing in general the
observations made by the most eminent
writers on ornithology, and a systematic
table, arranged according to the classi-
fication adopted by the American Ornithol-
ogists' Union, includes all the additions
and corrections of our North American
species which have been made to date,
with an index to page, plate and figure of
each species according to the A. O. U.
number. It is illustrated with one hun-
dred and nineteen full page colored plates,
each representing from one to thirty or
more species. It is the finest book on
American birds issued since Audubon, and
is pronounced by some authorities su-
perior to that now rare and costly work. It
is issued in half and full bindings, Rus-
sian, seal, or morocco, at the net price of
\$4.00 and \$4.50 respectively; but in response
to a special letter, the association author-
ized me to say that a special discount will
be made to such of our A. O. U. members
and others as are working naturalists. We
commend this work especially to mem-
bers of the Wilson Ornithological Chapter.

It is also a very useful and appropriate
addition to the home and reference libra-
ry, and for presentation purposes gener-
ally. Add one regarding the NATIONAL
SCIENCE ASSOCIATION, 114 Fifth Avenue,
New York, N. Y. Samples of plates and
text can be had by sending twenty-five
cents in postage stamps. 12m lem.

Quick Moving of Troops.

The manager of the Baltimore and
Ohio Railroad has lately replied to an
inquiry sent by Secretary Atkins to the
railroads of the country regarding their
ability to move military troops quickly
in case of need. The four trunk lines,
he says, can move from the interior to the
coast, taking the main distance at
1,000 miles, 350,000 troops in thirty
hours, together with their necessary
equipments, horses and supplies. At
the same time, he says, these roads can
move enough commercial supplies so as
not to affect the general business of the
work.
