

I Had Salt Rheum

On my hands for six years. I consulted different physicians and took different medicines, but did not realize relief from any of the treatments. I suffered terribly, and finally gave up, discouraged. Noticing the good Hood's Sarsaparilla was accomplishing, I purchased a supply. When I had taken a fourth of a bottle I noticed a decided change of feeling in my hands. I continued faithfully with it, and to the surprise of the neighbors and myself, my affliction was soon perfectly cured. Since then I have taken Hood's Sarsaparilla every spring to keep my system in good order. I give it to my children also with benefit to their health. Mrs. J. S. WHITEHEAD, Alamo, Ill.

Hood's Sarsaparilla Cures

Hood's Pills are purely vegetable. No.

Crushed Him. The late Mrs. Lyne-Stephens, who, as Mlle. Duvrny was a great dancer in Tagliani's time, was once made the recipient of marked attentions by one of the chief emperors at the opera. After various hints that his influence would materially accelerate her professional career, to all of which she turned a deaf ear, he singled her out as a victim of his petty persecutions. One evening she brought him to book. "Do you know Shakespeare?" she asked.

"A little—why?" "Do you remember Shylock's reply to his friend's invitation to dinner—'I will buy with you, sell with you, talk with you, walk with you, and so following, but I will not eat with you, drink with you, nor pray with you?' Well, my reply to your invitation is this: 'I will dance on you, without you, before you, never will I dance with you or through your influence.'"

Something Opened Besides the Canal. Last May, Queen Victoria visited Manchester for three hours to open the new ship canal. The bills for the celebration, amounting to \$50,000, are being now investigated. Among the items is one of \$3,000 for badges for the City Council. At the banquet they ate strawberries at \$1.40 a pound, asparagus at \$1 a pound and pineapples at \$3 apiece. It cost \$110 to look after the Queen's horses and carriages. The auditor reported that it looked as though something else had been opened besides the canal.

The strength of a horse is equal on an average to that of seven and a half men.

DR. KILMER'S SWAMP ROOT

THE GREAT KIDNEY, LIVER AND BLADDER CURE

Biliousness
Headache, foul breath, sour stomach, heartburn, pain in chest, dyspepsia, constipation.

Poor Digestion
Distress after eating, pain and bloating in the stomach, shortness of breath, pain in the heart.

Loss of Appetite
A splendid feeling to-day and a depressed one to-morrow, nothing seems to taste good, tired, sleepless and all unstrung, weakness, debility, Swamp-Root builds up quickly a run-down constitution and makes the weak strong.

At Druggists 50 cents and \$1.00 size.
"Invalids Guide to Health" free—Consultation free.

UNCLESAM'S CASH BOX

TREASURER MORGAN SUBMITS HIS ANNUAL REPORT.

Total Fiscal Receipts on All Accounts Were \$724,006,538 and the Total Expenditures \$698,908,552—Insufficient Revenues Impair Gold Reserve.

Bond Issue a Necessity. The Treasurer of the United States, Hon. H. D. Morgan, has submitted to Secretary Carlisle the annual report of the operations and condition of the treasury. The net ordinary revenues for the fiscal year ending June 30, cents omitted, were, \$297,722,019, a decrease of \$88,007,609 as compared with the year before. The net ordinary expenditures were \$367,525,279, a decrease of \$15,952,674. The total receipts on all accounts were \$724,006,538, and the expenditures \$698,908,552.

At the close of business on June 30, 1903, there stood on the books of the department charged to the treasurer a balance of \$738,467,555. Adding to this total to be accounted for, and deducting the expenditures leaves a balance of \$738,555,540 on June 30, 1904. In addition to these balances, however, there were other liabilities, arising from the postal revenues, from disbursing officers and from other sources, which brought the total to \$776,041,868 at the former date, and to \$804,854,753 at the latter. After setting aside the amounts treated as unavailable, the principal of which are the deposits made with the States under the law of 1866, there remained the sum of \$746,538,655 in 1903 and the sum of \$775,310,559 in 1904, representing by live assets in the several offices of the treasury and mint, together with deposits in national banks. Of these balances the sums of \$584,593,920 and \$616,155,820, respectively, were on deposit for the redemption of outstanding certificates and treasury notes, leaving \$161,944,735 and \$159,154,739 as the balances on account of the general fund.

Impairment of the Gold Reserve.

The treasurer remarks that the impairment of the gold reserve rendering necessary the issue of bonds in February, was caused chiefly by the depletion of the treasury resulting from insufficient revenues. Even when the supply of paper had become so reduced that the treasury was obliged to pay out large sums of gold in the ordinary disbursements the coin was freely returned in the revenue. The proceeds of this loan were \$58,000,000 in gold coin and certificates, but during the month of February there were redeemed \$19,200,000 of notes in gold, presumably to meet subscriptions to the loan, so that the net gold proceeds were about \$39,500,000. This, with the gain of \$15,500,000 in gold from ordinary sources, brought up the reserve during the month from \$65,000,000 to \$106,500,000, while the net assets of the treasury, with an excess of \$7,000,000 of expenditures over receipts for the month, increased from \$125,000,000 to \$177,000,000. During the succeeding months till the end of the first week in August the reserve was affected by deficient revenues and withdrawals of gold for export, the movement abroad having been stimulated by the necessity which the treasury was under of furnishing to exporters the full weight in gold of the supply of old pieces had become exhausted. The lowest point touched by the reserve was \$52,180,500 on Aug. 7, 1904.

Prior to July, 1902, the gold reserve was but little affected by the withdrawals of coin, there never having been any considerable demand for the redemption of notes. Even when gold exports were heavy the metal was furnished by bankers from their vaults, or was obtained from the treasury for gold certificates, of course without impairment of the reserve. During the last two years, however, the treasury has been called upon to furnish nearly the whole of the requirements for exportation, and there have recently been considerable withdrawals for other uses. To the end of September last the total redemption of United States notes in gold since the resumption of specie payments were \$181,300,000, and the total redemptions of the treasury notes in gold from their first issue were \$88,500,000. The two important events of the year affecting the condition of the public debt were the issue of \$50,000,000 of 5 per cent bonds to replenish the gold reserve and the stoppage of the purchase of silver bullion by the issue of treasury notes.

Retirement of Treasury Notes.

With reference to the retirement of treasury notes the Treasurer says that prior to August, 1893, the treasury had been able to provide for the redemption of treasury notes in silver dollars out of the fund of silver, so that there had not been, up to that time, any impairment of the total amount of the silver fund accumulated under the act. On the 3d of that month, however, the silver dollars and bullion in the treasury had become reduced to the amount required by law to be retained for the payment of outstanding treasury notes and certificates, and the demand for the redemption of currency in consequence of the scarcity of the small denominations of currency, it became necessary to draw upon the dollar fund especially for that purpose. The silver fund being thus impaired, the notes so redeemed were canceled in order to preserve the required equality between the silver in the treasury and the notes outstanding. The total amount of the notes retired in this way, up to Oct. 31, was \$47,900,434. The amount of the new issues of United States paper currency put into circulation during the year was \$350,959,100, having been exceeded but once, in 1892. The amount of worn and mutilated notes redeemed was \$310,000,000. This also has been exceeded but once, in 1893. The total paper circulation reached its highest point in May last, when it stood at \$1,175,000,000. Since then there has been a slight contraction, caused chiefly by the retirement of currency and the redemption of gold certificates, the issue of which was suspended, as the law requires, when the gold reserve of the treasury fell below \$100,000,000.

The management of the Columbian Exposition having finally declined to defray the expenses of receiving the Columbian half-dollars, which have found their way into the treasury, they have been offered to the public at par in exchange for gold or gold certificates, and a considerable sum of them has been distributed in that manner. The Isabelita quarters in the treasury are retained for the requisition of the board of lady managers of the Exposition. The amount of counterfeit silver coin and fractional currency detected at the offices of the treasury during the year was \$10,500, an increase of \$900 over the year before.

There was an increase during the year of \$1,552,250 in the face value of the bonds held on account of the sinking funds of the Pacific railroads, which amounted, on June 30, to \$18,900,000. Notwithstanding a change in the regulations, whereby senders of national bank notes for redemption were required to bear the charges for transportation, the redemptions were the heaviest since 1898, amounting to \$105,000,000, or more than half of the average circulation. CHILDEN used wheat, nitrate, wine and guano.

ST. LOUIS' NEW STATION.

The Most Beautiful Railway Building in the Country.

Probably the most costly railway station in the country is that which has been lately built at St. Louis. It is the largest station in the world. The train shed covers 23,320 square feet of ground; there are 30 tracks capable of holding 100 cars under shelter and the whole place is illuminated by 128 arc lights. The station building, proper covers an area of 8,500 square feet.

NEW UNION STATION AT ST. LOUIS.

part composed of mosaic bricks imported from Holland, and ornamented with fleur-de-lis or some such dainty design. The sides are either of enameled brick, scagliola or tiling. The ceilings are usually ornamented by some graceful design or other, a wreath of roses or a group of cherubs. In fact, the ornamentation, under the direction of J. D. Millet, whose work at the fair was so highly praised, has but served to emphasize more strongly the talents of this artist.

In the rounds of ornamentation is at its height.

At each end, grouped in the form of a semi-circle, are seven mosaic-like figures, delicately interwoven with the design, whose extended arms bear glowing with ornamental electric lights. Along the south side, high from the ground, extend seven large stained-glass windows that, especially in the late afternoon, cast a mild orange light over the hall, harmonizing perfectly with the ornamental and imparting a delicate richness of effect that one might expect to find in an eastern mosque.

THE NORTH ARCADE GRAND HALL.

not in the railway station of an American city.

LADIES' WAITING ROOM, FROM GRAND HALL.

NUMBER OF ARRESTS MADE, 687

Work Done by the Secret Service Department of the Treasury. William P. Hazen, the Chief of the Secret Service of the Treasury Department, in his annual report shows that during the year the total number of arrests made was 687, nearly all of which were for violations of the statutes relating to counterfeiting United States money. Of those arrested about 300 were either convicted or pleaded guilty, and 120 are now awaiting the action of grand juries. The grand jury has given high praise to the amount of altered or counterfeit notes captured during the year was \$21,300; coins, \$10,755. There were also captured 134 plates from which counterfeit notes had been printed, 33 dies, 156 molds, and a large quantity of miscellaneous matter, consisting of tools, melting pots, etc.

WHOLE CITY WAS IN DANGER.

Shelbyville, Ind., Has a Narrow Escape from Burning Down.

At Shelbyville, Ind., by mistake the natural gas was given high pressure, and the low pressure mains, and at midnight it was discovered that over 500 stoves and heaters in all parts of the city were melting under the intense heat, and buildings were igniting in every direction. The fire alarm was turned in, bells were rung, whistles sounded and the citizens were aroused from their slumbers to discover themselves in the midst of a general conflagration. The flow of gas was arrested and only three houses were burned. The destruction of these buildings amounted to considerable loss to the owners. If the alarm had been twenty minutes later nothing could have saved the city from destruction.

The Mean Thing.

"Women play smart tricks on one another sometimes," said a smart American woman; "but the queerest I ever heard of was perpetrated by one social leader in a Western city upon another. They were rivals, and hated each other accordingly, though outwardly they preserved the semblance of pleasant relations. Every chance that either got to give a dig at the other was eagerly seized. But the final and most effective stroke, after which no calls were exchanged, was delivered by Mrs. L. She sent out cards for a grand entertainment, and she took pains to find out what Mrs. F., her competitor, was going to wear. A gorgeous brocade satin was the material of Mrs. F.'s gown, it was ascertained. Accordingly Mrs. L., whose husband was in the dry goods business, obtained several hundred yards of the same material stuff and draped the walls of all the rooms on the lower floor of her house with it. You may imagine the feelings of Mrs. F. on arriving in her superb new frock, which she expected to make a sensation. Naturally, she ordered her carriage and drove away in tears."

This Is Utopia.

Off the northeast coast of New Guinea the Island of Kitaba, surrounded by a wall of coral 100 feet high on the outside and from fifty to 100 on the inside, maintains twelve villages of natives, to whom war, crime and poverty have been unknown since the beginning of their traditions.

CHINA READY TO QUIT

WILL OPEN PEACE NEGOTIATIONS DIRECTLY WITH JAPAN.

China Said to Be Willing to Pay an Indemnity of One Hundred Million Taels Besides All Japan's Expenses—Special Envoy Dispatched.

Bears an Olive Branch. De Ting, the chief of the Imperial customs at Tien Tsin, who was recently summoned to Peking in order to confer with the government as to ways and means for raising money for the war, has left for Japan in order to arrange terms of peace.

The departure of the Chinese customs chief for Japan is regarded by officials in Washington as the result of Japan's demand for a direct offer from China. The De Ting mentioned in the cable is said to be Dietering, a German, who occupies the position of commissioner of customs. That he should be sent as the peace envoy is accounted for by officials on the ground that an indemnity would probably be secured on the customs receipts. It has been one of Japan's contentions that she would expect to receive the customs receipts of the big Chinese ports in case an indemnity was arranged. It is said that the Chinese envoy will probably be the second of United States Minister Dun at Tokio. Japanese officials have been accorded every courtesy.

Although Japan shows no signs of exhaustion, fiscal or military, her Government and people ought to be satisfied with the magnificent progress already made. She has been able to meet the more formidable sea to numbers and allied with the most aggressive imperial sovereignties of Europe and Asia. England's interests are implicated with China's; Russia's are complicated with China's; if Japan can arrange peace with China, which, secondly, shall not detach Korea from China, which, thirdly, shall not detach Korea from China, which, fourthly, shall not detach Korea from China, which, fifthly, shall not detach Korea from China, which, sixthly, shall not detach Korea from China, which, seventhly,
