

Fair and Fruitful
As the West is, it is often malarious. But it is pleasant to know that a competent safeguard in the shape of Hostetter's Stomach Bitters exists, which absolutely nullifies the poison of miasma. Western-bound emigrants should bear this in mind. Nor should it be forgotten, the Bitters is a sterling remedy for dyspepsia, biliousness, constipation, kidney and nervous complaints and rheumatism.

Shooting Wild Horses.

Wild horses have increased to such an extent in Queensland that the animals are being shot with a view to reduce the numbers. Buffaloes are also being slain for the same reason.

The reader of this paper will be pleased to learn that there is at least one disease that science has not been able to cure in its stages, and that is cancer. Hall's Catarrh Cure is the only positive cure known to the medical profession. Cancer is a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and the surfaces of the system, thereby destroying the foci of the disease, and giving the patient strength by building up the constitution and assisting nature in doing her work. It costs only so much in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Address, F. J. CHENEX & CO., Toledo, O. Sold by Druggists, 70c.

Nervous

People find just the help they so much need, in Hood's Sarsaparilla. It furnishes the desired strength by purifying, vitalizing and enriching the blood, and thus builds up the nerves, tones the stomach and regulates the whole system. Read this:

"I want to praise Hood's Sarsaparilla. My health run down, and I had the grip. After that, my heart and nervous system were badly affected, so that I could not do my own work. Our physician gave me some help, but did not cure. I decided to try Hood's Sarsaparilla. Soon I could do all my own housework. I have taken

The Greatest Medical Discovery of the Age.

KENNEDY'S MEDICAL DISCOVERY.

DONALD KENNEDY, of ROXBURY, MASS.,

Has discovered in one of our common pasture weeds a remedy that cures every kind of humor, from the worst Scrofula down to a common Pimple.

He has tried it in over eleven hundred cases, and never failed except in two cases (both thunder humor). He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston. Send post card for book.

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the right quantity is taken.

When the lungs are affected it causes shooting pains, like needles passing through them; the same with the Liver or Bowels. This is caused by the ducts being stopped, and always disappears in a week after taking it. Read the label.

If the stomach is foul or bilious it will cause squeamish feelings at first.

No change of diet ever necessary. Eat the best you can get, and enough of it. Dose, one tablespoonful in water at bed-time. Sold by all Druggists.

"Hurrh for Eugene V. Debs, anyway," yelled a silver man.

This called forth a vigorous response.

"Hurrh for John G. Carlisle," shouted gold man in the gallery. "The 'house' was plainly 'gold'."

By this time the police had circulated the round forms quite thoroughly and the bell-keepers were quieted.

The question which they wanted to ask, and for which Col. Robert Rose, related to Carlisle's speech in 1875, when he pronounced the demonization of silver the most gigantic crime of this or any other age, which would "ultimately entail more misery upon the human race than all the wars, pestilence and famine that ever occurred in the history of the world."

The silverites had fun earlier in the evening by distributing the following tribute to Mr. Carlisle, until the police stopped them:

"John G. Carlisle, of Kentucky, after a lifetime devoted to the free coinage of silver at the ratio of 16 to 1, was suddenly converted in 1892 to the gold standard in order to secure a seat in Cleveland's cabinet.

"He now comes here, fresh from the banquet tables of the Wall street gold bugs, to tell the idle and starving workmen of Chicago how they may be successfully robbed by the gold bugs for the next four years."

BIG ROW AT THE END.

SECRETARY CARLISLE SPEAKS IN CHICAGO.

Free-Silver Advocates Create a Scene at the Meeting—They Fire a Volley of Questions at the Speaker—Police Take a Hand in Affairs.

Carlisle at Chicago.

Secretary of the Treasury John G. Carlisle addressed an audience in the Chicago Auditorium for nearly two hours Wednesday night on the financial question.

Gold was down on the program, and had the platform. Silver was down on gold and had the fun. Altogether, says a correspondent, the address of the gold advocate was as near a Harvey-Horn debate as the friends of the white metal could make it. And it, only wanted a little more warm blood and a little less police to end in a row.

Mr. Carlisle had held his long and august form in the vision of the people for two hours when the silver men began. Then the lights went out and that ended the incipient debate. They began this way. Mr. Carlisle had just thanked the people for listening to him. Col. J. C. Roberts, a prominent member of the People's party and one of the editors of the National Bimetallist, who had stamped the South for Mr. Carlisle in the days when the Secretary talked not of gold but of silver, arose in his seat, and, in a voice that was heard above the din of

the reservation, as is well known now, that the efforts to intervene came to naught and that the recognition of the belligerency of the insurgents was held up by our Government.

RED LAKE RESERVATION.

Grand Rush for Homes to Take Place on May 15.

In an irregular rectangle in northwestern Minnesota, with a length of 112 miles and a breadth of 100, with a frontier of about 500 miles containing 900,000 acres reserved for settlement, is the great Red Lake reservation, the last of the large northwestern Indian reservations. It is to be opened to the settler on May 15. The entire reserve consists of about 4,000,000 acres, but much of it contains pine and will not be allowed for settlement, while more is to be reserved for the 1,500 Indians of the Red Lake Chippewas, and will not come into the market until the band is wiped out or has become sufficiently civilized to take and improve allotments and cease to be the ward of the nation.

The reservation is virgin territory, of meadow, oak openings, reclaimable bog, prairie and brush lands, an unbroken wilderness of pine and hardwood forest, of tamarack, cedar and spruce swamp, of muskeg and of lake, brook and river. Save the freighters' roads to and from the trading post at the agency at the south shore of the lake, in the center of the lands, and the marks of the surveyor's ax and scribe on section lines and corners, there are no signs of the intrusion of the white man on the greatest hunting and fishing ground held for the northwestern Indians. Were it not for the prevalent industrial and financial depression there would be a

great Confederate leader during the war of the rebellion. He was born in 1835 at Clermont, Fairfax County, Virginia, and was graduated from the military academy in 1856. Commissioned as lieutenant in the Second cavalry, he went to the frontier, was severely wounded by the Indians and was recalled to be instructor of cavalry at West Point. When the war came Lee resigned his commission and joined the Confederate cause. At first he did staff duty and was adjutant general of Ewell's brigade. In September, 1861, he was made lieutenant colonel of the First Virginia cavalry and soon afterward was promoted to be colonel. He served in all the campaigns of the army of northern Virginia. In 1862 Lee was made a brigadier general and a major general in 1863. At Winchester, in 1864, he was disabled by a severe wound, which kept him from duty for several months. In 1865 he was placed in command of the whole cavalry corps of the army of northern Virginia, and a month later surrendered to Gen. Meade at Farmville and retired to his Virginia home. In 1865 he was elected Governor of Virginia. Gen. Lee goes to Cuba with absolute liberty to travel about wherever he pleases unobstructed and unrestricted by the Spaniards. Should the President decide to send him to Cuba the new consul general will be in a position to gather it. It is known that Gen. Lee, while being a fair man, warmly sympathizes with the insurgents.

FARM WORK PROGRESSING.

Weekly Report of the Weather Bureau Covering Crop Prospects.

The Weather Bureau is summing up the situation in weather and crop circles, says that in the Southern States the week has been generally favorable for farm work, which has made good progress.

In the more Northern districts, owing to the lateness of the season, farming operations are much delayed, but are being pushed forward as rapidly as possible. Cotton

planting is now quite general in the northern portion of the cotton belt, is well advanced in the southern portion, and the early planted is coming up. In Florida, it is nearly finished. Winter wheat is reported in excellent condition in Nebraska and eastern Kansas, and much improved and looking well in Iowa, Missouri, Arkansas, Tennessee and northern Illinois.

Less favorable reports are received from Wisconsin, Michigan, Ohio, West Virginia, Virginia, Maryland, Pennsylvania and New York, in some of which States it has been winter killed and is in poor condition. No corn has yet been planted north of the Ohio river, but some planting has been done as far north as Kentucky and Virginia. West of the Mississippi some corn has been planted as far north as southern Nebraska. Planting is nearly completed in Oklahoma, and is in progress in Missouri. In Illinois and Indiana plowing for corn is general. In the Southern States corn planting is practically completed.

BORROWED COAT OF HONOR.

When Wordsworth was made poet laureate he had to borrow Samuel Rogers' dress coat to go to court in, and strangely enough, when laureate honors fell on Tennyson, he, too, borrowed Rogers' coat for the same purpose.

A CAT WORTH HAVING.

One of the greatest successes in the history of this country is that achieved by Boston's unique 5-cent magazine, The Black Cat. In seven months it has reached a sale of one quarter of a million copies per issue. The chief reason for this is that each number contains half a dozen of the most original and fascinating stories that brains and genius can produce and money can buy.

The Philadelphia Call aptly says: "It is phenomenal success has already earned for it the title, 'The Marvel of the Magazine World,' and it would certainly be impossible to find in a single number of any other publication such captivating tales as are published monthly in The Black Cat. And the Boston Post pronounces it the most fascinating 5 cents' worth on earth.—Rochester Post Express."

This most fascinating of all the modern periodicals is issued by The Story Publishing Company, Boston, Mass., at 5 cents a copy, or 50 cents a year.
