That Spot...

First sign of a dime! next size of a dollar; then big as the palm of your hand. The end: entire baldness. Stop it.

Ayer's Hair Vigor

Makes Hair Grow

THE PEOPLE'S ENEMIES.

(Cincinnati Enquirer.)

It is becoming more and more obvious that the money power, which now reigns in this country, through the Republican organization it has debauched and captured, has determined to torture the business man by enforcing its demands, as it did in 1893. This is an idle investigation. It is only necessary first to consider the objects at which our masters aim, and second, the methods which they have heretofore employed.

And first as to their aims. They have left no room to doubt that they desire to abolish all Government paper circulation, and substitute therefor bank paper. Our Government paper is in round numbers as follows:

Greenbacks, \$346,000,000
Silver certificates, representing silver dollars, 430,000,000
Treasury notes of 1890, representing silver bullion, 160,000,000
Total, \$936,000,000

Their first object is the cancellation and destruction of the whole greenback circulation. Next the destruction of the legal tender quality of the silver dollars, and the destruction of all silver certificates. The actual circulation of the silver dollar is then robbed of their legal tender character. This would be followed by the sale of all the silver coin and bullion above, say, fifty millions for the benefit of speculators in silver, who would buy at the low price caused by precipitating so large a amount on the market. They are not anxious for a law expressly providing for retiring the greenbacks, because they have Mr. Dingley's assurance that the pending tariff bill will produce that result at a rate of one hundred millions of dollars a year.

This large and steady contraction of the currency which has already reached the limit of money famine, is intended by its authors to force the prostrate business, bankrupt merchants and manufacturers, and to starve the country into accepting their scheme. They make no concealment that this scheme is to inject into our financial system the poison of blood of irredeemable bank notes instead of the healthy and natural supply of real money coined from that one of the precious metals, the coinage of which they have stopped by criminal methods.

The coming months of the year will be marked by increasing business failures, discouragement and desperation. This increasing prostration and paralysis, with increasing failures and increasing suicides, are being planned for by the despotic power which controls the Administration, as deliberately as it prepared and brought on at the appointed time the panic of 1893, and with the same object in view.

The Republican statesmen agree that the country enjoyed a large measure of prosperity from 1878 until 1892 inclusive. This period was exactly coincident with the partial restoration of silver coinage in 1878, and its enlargement in 1890. In 1892 the gold power determined upon a desperate struggle against silver. They could not again secretly sneak a clause on any pending measure for the demonstration of silver, as they did in 1893 by the help of John Sherman, and they decided upon open warfare. They needed only the complicity of President Cleveland and his Secretary of the Treasury. They had already chosen Cleveland as their instrument, and foisted him upon the Democratic party by corrupting the convention and through him they had chosen a Secretary of the Treasury who would be their slave. They had previously used Harrison and his latest Secretary of the Treasury, Charles Foster, to inaugurate a dishonest and unlawful practice of redeeming silver obligations in gold. This produced a run on the gold in the Treasury, which so reduced that it was only by the skin of his teeth that Mr. Foster was able to turn over to his successor the one hundred million in gold, which Sherman had originally fixed as the amount as the redemption reserve. Even Mr. Carlisle squirmed a little when he was called upon to continue this infamous outrage of exclusive gold redemption. He must have talked too long, for his alleged purpose to pay out silver dollars got into the papers. He was instantly muzzled by the President, who immediately produced the intended effect of cutting down the reserve below what the bankers had fixed as the "safety line."

Carlisle, Cleveland and the bankers and their joint newspaper organs immediately advertised that the Treasury was bankrupt and the country on the verge of ruin. This alarmed the holders of American securities, who plunged them into our market for whatever they would bring in currency, and then they got gold in exchange for their currency and took it out of the country. The Administration and the bankers made themselves bears in the money market. They devoted their energies to breaking down confidence in the Government, and business confidence between individuals. This they did as the first step toward creating the panic which would serve their purpose.

Their second aim is to create a panic which would serve their purpose. The purchase and coinage of silver was a warning of the world, and must be stopped. It was not at any time created the slightest alarm or disturbance. On the contrary, under it the country was more prosperous. Benjamin Harrison certified to the splendid effect of the Sherman purchase act upon the business of the country, with its purchase of four and a half millions of ounces of silver in 1890. Read it in his message of December, 1890. The first sign of a want of confidence in this country was given as a result of Foster's and Carlisle's put-up job of a raid on the Treasury gold, and the false howl of the Cleveland Administration against the public credit. As soon as Cleveland was inaugurated the repeal of the Sherman purchase act was loudly demanded by the gold trust. Who threaten it can ever forget the dark chapter of history recorded in the New York Sun, when, without a word of warning, the system of the country was impaled by the purchase and coinage of silver. The food which was making good blood, as even Benjamin Harrison declared, was suddenly found to be poisonous. Indeed, all food must be stopped and the patient not be bled indefinitely. Abolish the silver coinage entirely and give no substitute. Until this was done the banks would no longer perform their usual function of facilitating business. Thus tortured, each desperate merchant and manufacturer appealed to his Representative in Congress to do the bidding of the gold pirates, because until that was done he could have no relief. And the scheme worked. But the panic became a conflagration, which came back upon its authors, it was more than they had bargained for. The country has never recovered from it. We have retired to the well-known facts because it seemed necessary for the purpose of reminding the people what the enemies of mankind are capable of doing.

THE TOTTERING STEP OF AGE

Requires a stimulant as it goes down "The Sunset Slope of Life."

Try the R. Cummins & Co. ... WHISKEY

Made by the "Old Process"—hand-made, sour-mash, Kentucky Bourbon, absolutely pure and sold only by druggists.

THE HIGHEST PRICES PAID FOR Good Cattle, J. J. EIGLESBACH, Proprietor.

Do You Use It?

It's the best thing for the hair under all circumstances. Just as no man by taking thought can add an inch to his stature, so no preparation can make hair. The utmost that can be done is to promote conditions favorable to growth. This is done by Ayer's Hair Vigor. It removes dandruff, cleanses the scalp, nourishes the soil in which the hair grows, and, just as a desert will blossom under rain, so bald heads grow hair, when the roots are nourished. But the roots must be there. If you wish your hair to retain its normal color, or if you wish to restore the lost tint of gray or faded hair use Ayer's Hair Vigor.

WE MAKE WHEELS Too!

Quality Guaranteed the BEST. OUR LINES, WEIGHTS AND PRICES ARE RIGHT!
