MEINUS LENSES.

The particular advantage these Meinus lenses possess are that they give much more correct secondary axes and when adjusted to the eye yield more perfect vision through the periphery of the lens rendering the field of vision much larger and more distinct. The above is a scientific fact. If you want a pair of these lenses of the best material in the world, correctly adjusted to your vision, notify, or call on Dr. CHAS. VICK, the Optician, Rensselaer, Ind.

Any intelligent, industrious person looking for employment would do well to correspond with the Parliament Publishing Company, about the Perspectoscope, a description of which will be found in this issue of the paper. The instrument was invented by a member of the company and they have undertaken to put it on the market. The well known reputation of the firm is sufficient guarantee that there is no humbug about it. At any rate, it would cost only a postage stamp to find out all about it.

Dandruff

is Dangerous

When dandruff appears it is usually regarded as an annoyance. It should be regarded as a disease. Its presence indicates an unhealthy condition of the scalp, which, if neglected, leads to baldness. Dandruff should be cured at once. The most effective means for the cure is found in AYER'S HAIR VIGOR. It promotes the growth of the hair, restores it when gray or faded to its original color, and keeps the scalp clean and healthy.

"For more than twenty years I was greatly troubled with dandruff, and though a young man, my hair was fast turning gray and falling out. Baldness seemed inevitable until I began to use

Ayer's Hair Vigor.

The dandruff has been entirely removed and my hair is now soft, smooth and growing in its natural color."

Two of the most popular

pieces of music arranged for piano and organ have just been issued by the Popular Music Co., Indianapolis, Indiana. "Bring Our Heroes Home," dedicated to the Heroes of the United States Battleship Maine is one of the finest national songs ever written. The music is stirring and the words ring with patriotism. "Dewey's Battle of Manila March Two-Step" is a fine instrumental piece and will live forever as a souvenir of the Spanish War. Either one of these pieces and Popular Music Co. containing 18 pages full sheet music sent on receipt of 25 cents. Address: POPULAR MUSIC CO., Indianapolis, Ind.

Do You Know What a

PERSPECTOSCOPE

is?

If not, read on a little further.

The PERSPECTOSCOPE is a new thing in Optics, just patented. The Camera, and more than doubles its value and the value of its products.

It is the picture maker or the picture viewer, what the telescope is to the astronomer. The planets, to the natural eye, are beautiful; but when the telescope is turned upon them they are grand. Just so with the Perspectoscope, it reveals beauties in your pictures which you had no idea existed.

It gives the true perspective from a single picture, showing every part of the scene in the exact size, position and proportion that you saw them when you placed the camera—men just as tall, rivers as wide and mountains as distant, as if you were again looking at the objects themselves.

Any one having a camera loses half the pleasure of taking pictures if he does not have this instrument. Every body who buys a camera now includes the PERSPECTOSCOPE as a part of the outfit.

Everyone having a stock of photographs will get infinitely more pleasure out of them, if they are seen through the PERSPECTOSCOPE, for, whereas before a glance at a picture was sufficient, through this wonderful instrument one will gaze and gaze.

The price of the Perspectoscope, covered with Morocco, is two dollars; but we will send you an introduction sample for one dollar and twenty-five cents, if you will there after show it to other persons who are interested in the camera or photographic pictures, and tell them where you purchased it, and we will agree to return the price on return of the instrument, if it does not come up to description.
