The Business Men's Garfield Club!

One of the Biggest Things of the Campaign.

SPEECHES FROM BUSINESS MEN.

Day before yesterday the News published a list of business men who pledged themselves to use all honorable means for the success of the Republican party. In the same issue of the News was a call for this Business Men's Garfield & Arthur Club to meet at Republican Headquarters last night. In pursuance to that call nearly all the prominent business men in the city assembled there in one of the most enthusiastic meetings ever held in the city. The hall was packed and jammed.

Hon. H. H. Boudinot called the meeting to order and in a neat little speech stating the object of the meeting. Capt. James Hook moved that S. T. Ensey act as temporary chairman, which was unanimously agreed to. John Paddock was chosen temporary Secretary.

Mr. Ensey is one of the oldest and most respected citizen of this district, and his speech on taking the chair was terse and logical.

William Paddock was called on for a speech. He said was not a politician but that the danger to our country's welfare and business prosperity should cause every man to be enough politician to try to arrest the great ocean of ruin that would surely overtake us if the Democratic party should get into power. His speech was full of unanswerable reasons why business men should stand by the Republican party.

Mr. Minshall then spoke in his accustomed logical and conclusive manner about the present condition of the whole country, of the wonderful decrease of the public debt, under Republican administration and of the growth of commerce within the past five years. No speech was listened to with greater interest. Good speeches were also made by Andrew J. Crawford, James Hook, J. O. Jones, Dr. Richardson, C. A. Power and other gentlemen.

On motion the following gentlemen were elected permanent officers of the club: President, William Paddock; vice-president, Andrew J. Crawford; secretary, Frank McKeen. A committee was then appointed to draft a suitable address to the business men of the city and that the same be published in the various Republican papers of the city.

The address is as follows:

To the voters of Terre Haute, and Vigo County:

The undersigned, appointed by the Business Men's Republican Club, of Terre Haute, a committee to draft an address embodying their views, for the consideration of the thinking men of this city and county, beg leave, to submit the following as a few of many considerations, why the Republican party, in its present contest, should be sustained by the voice and votes of the county. Twenty years ago, the Republican party came into power, by a fair vote of the people, and found eleven Democratic States arrayed in open rebellion against the Government and the Union, because the majority had voted out the Democratic party. The Republican administration accepted the challenge, and to maintain and defend the Constitution and the integrity of the Nation, waged a four years' war against Rebels in the South who were aided by Copperheads and traitors in the North. It is needless to say that these Southern Rebels and their Northern Copperhead allies, did then, as they do now, constitute the great bulk of the Democratic party.

In the prosecution of this great war to preserve the Union from destruction by the Democratic party, a vast National debt was created; an immense issue of paper currency was necessitated, which by reason of its great volume and the precarious condition of the country and the uncertainty of the results of the war, became largely depreciated; the people under the influence of the inflated prices incident to this financial condition, embarked in hazardous and reckless speculations, which finally resulted in general embarrassment and depression. We must be content with this brief reference to the facts, within the memory of all, without attempting an analysis of all the causes conspiring to these results.

In all these trying emergencies through which the country has passed, the Republican party has had control, and by its persistence and wisdom, we have at last emerged from the disasters of war, and of all financial disturbances; and we again find the country on the high-road to a prosperity unexampled in all past history. Our public debt has been reduced one third, and the remainder has been refunded at the low rate of 4 and 4 1/2 per cent, saving annually many millions of interest. Commerce has revived and the balance of trade is largely in our favor; gold is floating in upon us from Europe, and by every ship coming to our shores; and under the beneficent influence of a Republican tariff, giving protection to home-manufactures, the light from our shops and furnaces nightly illumines city, hamlet and valley, and the clang and whir of machinery make merry music to every man with an American heart in him.

An honest price is now paid for an honest day's work, in honest money. By reason of the protection of the tariff, the pauper labor of Europe is not allowed to cut down the wages of labor here to pauper prices, nor to put out our furnace fires and close our mills and factories.

We appeal to laborers and artisans and ask—Do you wish by your votes to elevate to power a party who are opposed to this protection, and thereby cut down your wages from at the rate of \$2.00 per day, to sixty-five cents per day,—to correspond with European prices?

The nation has been sick. It is well now. The well need no Democratic medicine. We want no tinkering, no experiments, no change from the good we have to the evil we know not of. The Democratic party has persistently opposed at

every step all the measures of the Republican party, (both in peace and in war,) which have brought about the happy termination of all our National difficulties referred to, and landed us on the flood-tide of our unprecedented prosperity. It is too much, now, to ask the American people to transfer the government of the country into the hands of the opponents of all the measures which have brought about these salutary results.

But, above all, no party should be allowed to profit by its own crime. The Democratic party, is guilty of the highest crime against Liberty and Free Government known in the annals of all Governments.

In the eleven States which rebelled against the Government, where, by the effect of the 15th amendment to the constitution, the ratio of representation was increased by the addition of the colored vote, past experience has shown that no fair election is possible, under the Democratic methods of intimidation and murder, and ballot-box stuffing.

In those States elections are a farce and a burlesque on Free Government. Republicanism and terrorism have completely suppressed all opposition to Democratic rule, even in States known to have large Republican majorities. And yet this party enters upon this Presidential contest, claiming the benefit of a "Solid South," amounting to 138 electoral votes, lacking only 47 votes of enough to elect their candidate. Of these 47 votes they ask the free men of Indiana to contribute fifteen, to aid them to take control of the Government that sixteen years ago they were attempting to destroy by force of arms.

Loyal men of Vigo county, are the hearts of patriotism dead within you? Have you forgotten the price which you purchased the liberty you enjoy to-day, in Indiana, but which you would not be permitted to enjoy within the domains of Democratic domination? As Gen. Grant well said last week at Warren, Ohio, every Democrat can express and vote his sentiments in every State in the Union; but in the States referred to, where Democracy is absolute, Democratic despotism is absolute also. Do you wish to inaugurate the same state of things here, in Indiana? If so, vote the Democratic ticket. If you would avert it, vote for the party freedom.

These are some of the reasons among many others which we have no space to enumerate, why we think the Republican party should be retained in power, and we appeal to every thinking man and ask him to earnestly consider them. We further appeal to every business man and voter, whose sentiments accord with the views herein, and who sympathizes with the purposes of our organization, to meet with this club, at Republican headquarters, cor. of Third and Main streets, on next Monday evening at 7 o'clock.
