THE NEWS HAS THE LARGEST  
DAILY CIRCULATION IN THE CITY.

WHY THE SOUTH IS SOLID FOR HANCOCK.  
Consider what Lee and Jackson would do were they alive. THESE ARE THE  
SAFEST HARBORS FOR WHICH  
THEY FOUGHT FOUR YEARS.  
Remember the men who poured forth their  
lives in Virginia's soil, and do not  
abandon them now. Remember that upon  
you now depends the success of the Demo-  
cratic party. [Wade Hampton, Atlanta,  
Ga., Oct. 20.]

This Tuber Ocean is about right when it  
says that every man who has a legal vote  
in Indiana should go there to cast it. The  
late Senator is not among the class who  
believe that an easy Republican victory is  
to be gained here. We believe the con-  
test will be very close, and every ballot is  
needed to overcome the fraudulent votes  
which were imposed into the State by  
the Democrats. The traveling public  
are Republicans, as will be seen, by the  
canvassers that are so common upon the  
cars, and every Indiana who is taken  
away from his home by business should  
arrange to return before next Tuesday.

During the recent election in Maine at  
least one town was lost to the Republi-  
cans by the failure of two gentlemen to  
go to the polls at Farmington, town. Both  
were traveling together, and con-  
cluded their ballots were not needed.

They were a good deal disgusted, how-  
ever, to learn afterward that the Fusion-  
ists had carried the town by one major-  
ity, and so easily out as they had done.

"I agree with you that it will not do to be  
beaten now; we should never be beaten until  
every man who can vote or represents those  
who vote in the election of this repre-  
sentative of the Southern people can cast  
his vote just as he pleases, and can have it  
counted just as he casts it." —General  
Logan's Letter to General Logan.

• • • Who dares to dare to grow  
them here as Republicans should be  
promptly branded as the bitter and mal-  
icious enemies of the South. The name of  
every Northern man who "preserves  
the Southern to do as he pleases" through  
Republican votes, should be burned with  
ashes. We can spare all such, and would  
caution such as these who think of com-  
ing South to be careful to keep away.—  
"Southern Democrat," in Memphis, Tenn.

• • • They [Republicans] must keep  
both ears, and very quiet ones, or get out  
with the Southern Unionists to be rendered  
infamous and odious.—[ "Southern  
Democrat" in Memphis, Tenn.]

• • • Engaged in Italy.

The betrothed in Italy are never left  
alone for one moment. They must not  
ever leave by themselves in company and a third  
person always take part in their con-  
versation. When out for a walk they  
must not go arm in arm. As for a kiss,  
not even the tips of the palms can be touched  
and must never the church and state have  
firmly bound the poor lovers. This severe  
law is equivalent to Italy. On the con-  
trary, they carry on the custom, and the young people rebel against it.  
Still, when poor parents and moth-  
ers they perpetuate the custom. It may  
be that this extreme custom before mar-  
riage engenders that after-marriage liberty  
which in its turn becomes a matter of won-  
der to more people.

## OUR CONGRESSMEN.

It is questionable to us if our good citizens, irrespective of party, have given our congressional election that attention which it most assuredly deserves. If Hancock should be elected, which we sincerely trust may not be, it will be of the utmost importance that the Congress which stands behind him should be thoroughly Republican, for no man knows with what rapidity the Solid South will greed or swallow the substance of prosperity. It is of the utmost importance that the people of this district elect Hon. R. B. F. Pierce, because every one knows him to be a gentleman, a scholar, and a statesman. His opponent, if all reports be true, is a drunkard, debauched, rebel sympathizer. Now, we ask in all candor of the best class of Democrats in this district, if we can afford to send such a man as Bayless W. Hanna to Congress.

We can't afford to send a man to the Congress of the United States from this district, who, when the continent trembled with a rebel war, walked on the soil of Indiana and shouted for Jeff Davis. It is bad enough that such men are sent from the Solid South, but that the Eighth Congressional District of Indiana should send such a man, we think it useless to talk about such a thing.

Mr. Pierce is a representative of the people. B. W. Hanna is the representative of a first class monkey show. One conducts his canvass by explaining the evils and their remedies which affect all classes of persons, farmers, mechanics and mechanics; the other, with "Prof. Rogers," entertains his audience with the Roebuckians voted against it, therefore the resumption act stood, and when the day came, after they had been bawling till they were red in the face, from Milwaukee to California and from Minnesota to Texas that specie payment never would and never should and never could be resumed under such an act as that—the day came and as noiselessly as last night melted into this beautiful day without a sound, without a jar, without any friction till gold and paper, just as water finds its level stood side by side, in all respects equal [applause], and to-day every paper dollar in the pocket of any man in America is in the pocket of a man who stood closely divided, we want as our representative a man of principle who can cope with the host from the Solid South. B. W. Hanna is not that kind of a man. Not only is it of such vast importance to elect Mr. Pierce, but it is of the utmost importance that every Republican Congressman in the State should be elected. But we should grieve if our people in this Congressional district should fail to elect Mr. Pierce to help swell the Republican delegation at Washington next spring.

If as we have stated such an unfor-  
tunate thing should occur as the election of  
Hancock, the lower house being as it is  
closely divided, we want as our represen-  
tative a man of principle who can cope  
with the host from the Solid South. B.

elect Mr. Pierce, but it is of the utmost  
importance that every Republican Con-  
gressman in the State should be elected.

delegation at Washington next spring.

## BALTIMORE REPORT.

Dr. Peacock, of the surgical institute, yester-  
day performed a surgical operation on the  
leg of a young girl by the name of Jordan,  
from Illinois, who has four toes. The  
bones of both her legs will have to be  
partially removed, and she will never  
will have to submit to two painful operations.

The cause of her affection is from  
"jumping the raps," a pastime engaged in  
generally by young girls, resulting in no-  
crosis or death of the bone. The doctor  
stated to a reporter, in this connection, that  
similar cases were constantly occurring  
from the same cause, but more frequently  
resulting in necrosis of the spine, not that  
there has not been a month passed but  
more or less of this character case to the  
institute for treatment. He says that rope-  
jumping produces continuous compression  
of the joints which impinge upon the bone,  
causing at the first stage mortification, and  
finally resulting in death of the bone. He  
thinks that parents and teachers should be  
warned of this dangerous sport, and eradi-  
cate it entirely from the play grounds of  
children, as it is ridiculous in its effects, and  
the brunt cause of more crippled among  
the female portion of the community than  
probably any other cause. He also added  
that during the practice of his profession  
he had been occurring continually  
observation, which were the result of  
this and said, "I would warn children  
against rope-jumping and would advise  
parents and teachers to prohibit it under all  
circumstances." —*Indianapolis Sentinel.*

## Care of Machinery.

A certain amount of original genius  
is required to fully develop the improve-  
ments in any branch of mechanical science,  
and bring them into the most practical  
shape, so that, such as the heart, may be  
properly proportioned with reference to the  
particular machine which it is desired to  
fulfill. When this is done its useful  
mission has considerably yet complete in it  
it may be, if it is not endowed with the  
faculty of self-preservation, and should,  
therefore, be properly cared for, or it will  
be subject to numerous accidents. This  
care needs only the exercise of plain com-  
mon sense. When, for instance, the bear-  
ings of the shafts are not oiled with suffi-  
cient frequency, not only does the increased  
friction necessitate a greater amount of  
power to drive the shaft, but the bearings  
are abraded to a greater or less extent. If  
the caps of the journal box are left too  
loose, the journal "wobbles," and if there  
is gearing attached to the shaft, its teeth  
are quickly worn out of proper shape;  
while, if the caps are screwed down too  
tight, the journal tends to lubricating  
material is forced out or burned up, and  
both the shaft and bearing are soon  
rendered worthless. These matters may  
seem trivial, but the aggregate loss resulting  
therefrom is very great. Many other  
things might be specified in this little  
attention to details, will guard against great  
and unnecessary waste of power, and wear  
of valuable machinery; and the pecuniary  
return can only be secured by bringing  
to bear the plain and undeniable principles  
derived from everyday experience, or, in  
other words, by the employment of com-  
mon sense.

## Old Bourbon.

"Old Bourbon" is the name given to the  
whiskey made in Bourbon county, Ky., in  
times gone by, when there was but little  
made there. They were well-to-do  
farmers, and all the surplus grain into  
whisky, which was washed by hand and  
boiled in two little copper stills, clear water  
used, and all the grain selected with the  
greatest regard to quality; consequently,  
when ripened by age, it was nearly sought  
after, and would bring a high price.  
[Applause.] Now I want to inquire, here  
what is the complaint. [A voice—ain't  
none.] I want to inquire what the Dem-  
ocratic party during the four years, while  
they had control of the house of Congress  
and the two years while they had absolute  
control of both houses of Congress, have  
done to the people of Indiana. [Applause.]  
There should be a great difference in  
the quality of the same strength.

## CONKLING—(Concluded.)

him. Congress didn't happen to be Dem-  
ocratic and that makes quite a difference.  
[Applause.] These bills didn't pass, but  
the Democrats voted for them and the Rep-  
ublicans against them. Then your ex-  
cellent representative Holman, he was al-  
ways a very industrious man in Congress,  
and always thought a very upright man;  
whatever else may be said, I take pleasure  
in so saying. [He objected.] Very often  
somewhat too often but Judge Holman  
at one time and another stopped a good  
deal of vicious legislation, and I speak of  
him kindly because I feel kindly toward  
him. He believed, however, and I can't  
blame him, for when a man becomes in-  
volved with modern Democracy there is  
a subtle virus about it and if the Dem-  
ocratic party at National convention would  
resolve that the moon is made of green  
cheese and that there is also something  
lively in it, although all astronomers say  
it is a dead planet, it would be asking too  
much of the Democratic party to believe it.  
[Laughter.] You put astronomy in  
one scale and a Democratic platform in  
the other and astronomy is sure to kick  
the beam! So Holman found all the  
older Democrats after the resumption act  
saying that could not resume, that it  
was going to produce inflation, and he  
thought that everybody must know more  
than anybody and therefore like a good  
Democrat one time he came up smiling  
with, "Mr. Speaker, I move to suspend the  
rule and pass this resolution." And it was  
a resolution instructing the committee on  
banking and currency to bring in a bill to  
repeal the resumption act. They thought  
if they could only get rid of that, the  
Democratic party could be cured. They  
never could get rule suspended because  
the Republicans voted against it, therefore  
the resumption act stood, and when the day  
came, after they had been bawling till  
they were red in the face, from  
Milwaukee to California and from Minnesota to  
Texas that specie payment never would  
and never should and never could be re-  
sumed under such an act as that—the day  
came and as noiselessly as last night melted  
into this beautiful day without a sound,  
without a jar, without any friction till gold and paper, just as water finds its  
level stood side by side, in all respects equal [applause], and to-day every paper  
dollar in the pocket of any man in America  
is in the pocket of a man who stood  
closely divided, we want as our represen-  
tative a man of principle who can cope  
with the host from the Solid South. B.  
W. Hanna is not that kind of a man.

Not only is it of such vast importance to  
elect Mr. Pierce, but it is of the utmost  
importance that every Republican Con-  
gressman in the State should be elected.  
But we should grieve if our people in this  
Congressional district should fail to elect  
Mr. Pierce to help swell the Republican  
delegation at Washington next spring.

tunate thing should occur as the election of

monwealth pays nearly three times as  
much revenue to support the Government  
and to pay the pensions and the interests  
of the debt, that rebels inflicted nearly  
three times as much as all the Southern  
States together. [Applause.] Why in  
God's name would you want the South  
poor and idle, a district, possessing as she  
does, a soil which needs only to be tilled  
with a hoe to laugh with a harvest. No,  
I am not sectional. On the contrary,

worth belonging to a little. The good
