THE SCHOOLS.

The city teachers met in regular session this morning at High School Hall. Supt. Wiley read a summary of the reports for September, showing increased attendance this year in all departments. Miss Lottie Miller, a pupil of the high school, favored the meeting with a very beautiful instrumental solo. Supt. Wiley gave a very entertaining paper on the Northwest territory, illustrated by a fine set of maps. The teachers of Harrison township were enrolled to meet with the city teachers. Prof. Gardiner and two assistants of Logansport were present. They were in the city yesterday visiting our schools. Visitors will be welcome at all times. These meetings occur regularly on the second Saturday of the school month.

NOTES.

The new school building on Eighth and College Ave. will be a "Daisy."

The teachers of the Third District are talking up a nutting party next Saturday.

Miss Dempsey, the new critic teacher, is making a success of her work from the start.

The remodeled building for colored school in Bagdad gives ample facilities for room and improved work.

Single Entry book keeping is now taught in all of the Eighth year grades in city schools. Right thing.

The city of Terre Haute has every reason to be proud of her corps of teachers, as they will compare with any in the State or anywhere else.

One of the teachers in our city had new desks placed in the room, and in order to keep them from being scratched had the pupils fasten tidies upon them. The effect is not only novel but useful.

Did you ever stop to think that teachers sometimes have friends die and they would like to attend the last sad rites, without being questioned at every turn, "Why, what are you doing out of school?"

Did it ever occur to the parents, that a teacher cannot go home with each pupil under his or her charge at every dismissal, to see that Sally was not bothered on her way home by that mean boy Johnny Koflop?

ANTELL KING OF THE TURF.

Places another jewel in the crown of Terre Haute. Rivaling him in success and still more enduring are the tints of the high standard ready-for-use paints, sold only by A. G. Austin & Co. Read what Samuel Hannaford, architect of the Vigo county court house says of them:

"I purchased and applied a lot of your colors in July 1887 and I desire to state now that they are the most satisfactory colors I have ever used. Color spreads well and holds its quality and freshness with less deterioration from atmospheric influences than any paint I ever used. I have at 'Winton Place' eight frame houses and I have found an infinite amount of trouble and disappointment in the use of ordinary colors, and I can not speak too highly of the outcome of the colors that I had put on, furnished by you some years ago. Very truly, SAMUEL HANNAFORD.
